F. No. 19-99/92-CZA(250)(M)

To

The Principal Chief Conservator of Forests and Chief Wildlife Warden,
Government of Tamil Nadu,
1, Jeenis Road, Panagal Maaligai,
Chennai - 15 (Tamil Nadu)

Sub:- Development of Kurumbapatti Zoological Park, Salem - Regarding.

Sir,

Please refer to your letter No. WL.25944/ 2007 dated 10.7.2008.

The proposed designs for the construction of animal enclosures at the Kurumbapatti Zoological Park, Salem were placed before the 5th Meeting of the Expert Group on Zoo Designing held on 15th July, 2008 and the following observations are being made:—

(i) Revised design for the construction of enclosure for Spotted deer

The design was approved subject to the condition that the cattle proof trench is found to be too narrow, therefore, the Spotted deer may escape from the enclosure. It is suggested that chain-link mesh fence of 2 meter high should be provided even on the visitors' side instead of cattle proof trench.

(ii) Revised design for the construction of enclosure for Sambar

As the Blackbuck are not in collection of the Kurumbapatti Zoo, the design was approved for housing the Sambar subject to the condition that the cattle proof trench is found to be too narrow, therefore, the Sambar may escape from the enclosure. It is suggested that chain-link mesh fence of 2 meter high should even be provided on the visitors' side instead of cattle proof trench.

(iii) Revised design for the construction of enclosure for Marsh crocodile

The design was approved.

Yours faithfully,
sd/-
