1. Report of the Officer-in-charge

Malampuzha Snake Park is run by KFD, it houses snakes under captivity to provide educational and aesthetic value to visitors visiting Malampuzha Dam, a major tourist destination of Palakkad District.

The fear of snakes to the general public is addressed by providing knowledge that most snakes are non poisonous and need to be conserved in ecological point of view. It also emphasise the poisonous snakes found and type of toxins and precaution to be taken to survive from snake bite first aids for information of general public.

There is a large number of visitors during the last year, it shows that there is curiosity shown by visitors to see and know more on snakes, also the amenities in the snake park is also appreciated by the general public.

Also expert staff employed in Snake Park helps in rescue of snakes in conflict with humans and also identifying snakes as referred from hospital based on the signs given by the witness.

2. History of the Zoo

The Malampuzha snake park established in 1984 as rescue-cum-rehabilitation centre for all the snakes caught from human habitation or from miscreants, ailing or orphaned as well as injured and rescued from various location of Palakkad district. This snake park is a safe haven for snakes that needs attention for curing and recovering. Those which are recovered are released back into wild and the ones that are found to be unfit for release are kept back in the centre. Malampuzha Snake Park currently also acts as a safe place for humans to view and study the wide array of snakes here. These snakes are housed and handled in such a manner that they pose no danger to tourists and snake enthusiasts.

Having realized the importance of this permanent holding facility, particularly those snakes unfit for release in the wild; it was decided to upgrade this rescue centre in to a fully fledged mini zoo as per the guidelines from CZA with broader objective of recreation, education, rescue and rehabilitation. Currently, there are 21 species of snakes belonging to different genus in the open air, glassed or air conditioned enclosures. Initially, started as small rescue centre now the park is aimed to be a fully fledged mini zoo as the visitors day by day are getting interested in the forests and wildlife more and more.

3. Vision

To educate and create awareness among people about snake conservation and in a way to implement positive change in human attitudes towards snakes

4. Mission

To develop among visitors empathy for wild animals and motivate them to support the cause of conservation of wildlife.

To act as rescue centre to receiving and keeping orphaned, seized, rescued, injured wild snakes subject to availability of appropriate housing for the same.

5. Objective

More consideration was given on rescue and rehabilitation, conservation education and for awareness. Accordingly, the objectives were decided as follows:

- Provide a safe abode to rescued, confiscated, injured orphaned and sick snakes from human habitation or miscreants.
- Ex-situ conservation of snakes that are rescued, confiscated, injured orphaned and sick from human habitation or miscreants
- Education and awareness for local visitors and tourists on snakes and their conservation
- Recreation for local visitors and tourists from different places
