Sub:-Renewal of recognition to Nisargakavi Bahinabai Choudhary Pranisangrahalay, Pimpri Chinchwad, Maharashtra under Section 38H of the Wild Life (Protection) Act, 1972 beyond the period of 31.01.2015- Reg.

Sir,

Reference is invited to your letter No nil, dated 31.01.2015 received in this office on 10.02.2015 seeking grant of renewal of recognition to Nisargakavi Bahinabai Choudhary Pranisangrahalay, Pimpri Chinchwad, Maharashtra for period beyond 31.01.2015.

The evaluation of the Nisargakavi Bahinabai Choudhary Pranisangrahalay, Pimpri Chinchwad, Maharashtra was carried out by Dr. Brij Kishor Gupta on 21.04.2016. The evaluation report of the Nisargakavi Bahinabai Choudhary Pranisangrahalay, Pimpri Chinchwad, Maharashtra as submitted by the evaluating officers was considered by the Technical Committee in its 78th Meeting held on 6th May, 2016.

The Central Zoo Authority has decided to grant renewal of recognition to Nisargakavi Bahinabai Choudhary Pranisangrahalay, Pimpri Chinchwad, Maharashtra as a "Small category Zoo" under Section 38H of the Wild Life (Protection) Act, for a period up to 05.05.2018 subject to the compliance of the following directives under the Recognition of Zoo Rules, 2009 and mid-term evaluation of the zoo:-

S. No.	Norm No.	Condition Stipulated	Time Period to Comply
1. General Requirements			
1.	1.9	The domestic duck housed along with Spot-billed ducks and flap shell turtle should be removed immediately.	With immediate effect
2. Administrative & staffing pattern			
2.	2.1	The zoo should have full-time officer in-charge, veterinary officer, and keepers.	Six months
3. Development and planning			
3.	3.1	The CZA had approved the master (layout) plan of the zoo in 2015 itself, however, the	Six months

PPA

		development work at the zoo, as per the approved master (layout) plan has not been started. The same should be expedited.	
4.	3.8	The zoo has received and housed the healthy rescued animals for the life time care. It is suggested that the animal which are fit to be released in the wild, should be released immediately under the guidance and intimation to the CWLW of Maharashtra. The rescued Barn owl and Black kite should be released immediately after observation of due protocol.	With immediate effect
4. Animal housing, display of animals and animal enclosures			
5.	4.6	The existing mugger enclosure should be provided with sufficient sand for basking of the animals and as substrate. The depth of water body should also be increased.	With immediate effect
6.	4.6	The zoo has housed the sand boa with gravel as substrate; the same should be changed immediately with soil.	With immediate effect
7.	4.6	The Indian rock python housed at the zoo should be provided with substrate.	With immediate effect
8	4.10	All animals housed at the zoo should be provided with sign boards containing the information about the species exhibited.	With immediate effect
5. Upkeep and healthcare of animals			
9.	5.10	All Schedule I and II housed at the zoo should have individual Animal History Sheets.	With immediate effect
7. Postmortem and disposal of carcass of animals			
10.	7.1 & 2	The post mortem of each animal that dies in the zoo should be conducted and report should be kept in the format as prescribed by the CZA.	With immediate effect
Other Observations			
11.		The keepers handling live animals should be permanent staff of the zoo well versed in the upkeep of the animals, outsourced staff should not be involved in animal management.	With immediate effect
12.		The biologists deputed should be deputed for full time with the zoo.	With immediate effect
13.		Efforts should be made to immediately relocate all reptiles to recognized zoo, till the zoo constructs new reptile house.	Three months
14		The reptile house as approved by the CZA should be constructed immediately to house all reptiles properly.	With immediate effect

A half yearly report regarding progress made in implementation of the aforesaid condition should be submitted to the Central Zoo Authority.

Grant of recognition to Nisargakavi Bahinabai Choudhary Pranisangrahalay, Pimpri Chinchwad, Maharashtra beyond the period of 5th May, 2018 would be considered on the basis of compliance of the condition stated above and general performance of the Zoo at that point of time.

The recognition to the Nisargakavi Bahinabai Choudhary Pranisangrahalay, Pimpri Chinchwad, Maharashtra shall be revoked by the Central Zoo Authority, at any point of time if the Zoo Operator is found not complying with the above stipulated conditions.

Yours faithfully,

(Dr. D. N. Singh)

technical responsibilities for providing housing, upkeep and healthcare to zoo animals, to conduct research and visitor education.

3. Development & Planning

4.	1	Every zoo shall prepare and get the master plan approved by the Central Zoo Authority	One year
5.	3	The present zoo which is in 4 ha area has small cages cum enclosures covering big area in garden and buildings; can not fulfill the animal requirement as far as present collection is concerned. Either zoo should remove (phase out) the all mammals from collection and built appropriate housing for birds and reptiles or shift all mammals and birds to new site (Talwade, 15 km from Pimpri) after constructing the new enclosures and creating other facilities (hospital, store, interpretation hall etc) and other infra structure as prescribed by the CZA and develop existing site for reptiles only. For the same, necessary changes should be incorporated in master plan and get approved by the CZA.	One year
6.	6	Zoo at the present site can have only reptiles and birds subject to the construction of new enclosures for birds and reptiles as per the designed approved by the CZA. Remaining animals must be phase out. As zoo is keen to have Deer at new site i.e. Talwade, all the animals except reptiles may be shifted to this site.	One year
7.	7	The zoo shall not accept any rescued animal unless it has appropriately designed enclosure and upkeep facilities for the animal as well as the facilities for keeping it in isolation during quarantine period for permanent life time care. Present status does allow any more life time care facilities.	With immediate effect.
8.	8	The zoo has to submit details of rescued animals during last two year, released and acquired and legality of acquisition.	3 months
9.	9.	Any decision of the Central Zoo Authority about any animal being sent to a particular zoo for augmenting the number of founder animals for the conservation breeding programme of the species shall be binding on the concerned zoo.	Shall be taken care by zoo.
4. Animal housing, display of animals and animal enclosures			
10.	1	Zoo shall endeavour to display the animals in nature immersing enclosures.	One year
11.	2	The designs and dimensions of every enclosure shall be determined having due regard to the biological behaviour of the species and the number of animals to be housed therein as per the standards specified	One year

		by the Central Zoo Authority in this regard from time to time.	
		<p>"species-wise enclosures" for snakes are to be established in order to disseminate the detailed information to the public.</p> <p>In the python enclosure, the water-proof roof need to be established and the rusting iron material may be painted with cautions.</p> <p>Clearance of vegetation behind the panther and bonnet macaque enclosure site may be done.</p> <p>Thermo-regulatory mechanisms need to be strengthened inside the snake and reptilian enclosures</p>	<p>One year</p> <p>With immediate effect.</p> <p>With immediate effect.</p> <p>With immediate effect.</p>
12.	3	Enclosures of Pariah kite, buzzard, peafowl, snakes, owl, rhesus monkey should ensure that the enclosure are safe and secure for the animals, animal keepers and the visitors and has requisite space for free movement, exercise and expression of natural behaviour by the animals.	One year
13.	5	No zoo shall display any animal in the enclosure that is not in accordance with the standards specified by the Central Zoo Authority in this regard.	With immediate effect.
14.	6	<p>zoo shall make special efforts to enrich the environment of the enclosure to meet the species specific behavioural requirements of the animals in accordance with the standards specified by the Central Zoo Authority especially in aviary section and reptiles section.</p> <p>Resting platform is to be established in the corner of the feeding cubicle as well as in the out door area of leopards enclosure. Wooden base may be established in the feeding cubicle with proper lighting facilities.</p> <p>In owl enclosures, no nesting boxes were observed hence should be provided.</p> <p>In water-bird enclosures, pond size is to be increased as the case with spot billed duck and ibis.</p> <p>All birds enclosure needs to have nesting and perching devices.</p>	With immediate effect.
15.	7	Adequate screening shall be provided between adjacent enclosures to safeguard against the animals getting unduly excited or stressed due to visibility of animals housed in these enclosures; should be strengthened in the aviary section.	With immediate effect.
16.	8	No new enclosures for endangered species shall be constructed without prior approval of the Central Zoo Authority.	With immediate effect.

17.	9	Although zoo has plan to make new reptile house but as temporary measures, Stand off barrier needs to be erected around the "snake-exhibition pits", in order to avoid falling of children into the snake-exhibition pits, accidentally. zoo should placed 0.70 m glass (about 30 mm) on the visitor view side (all the four side) wall of the pit.	With immediate effect.
18.	10	Information in Signage need to be placed in English language also in addition to the local language with relevant information on the biology, behavior and the population status of the species in the wild at every display enclosure. Existing interpretation centre need to rebuilt with latest features of communication.	Three month One year
Upkeep and healthcare of animals			
19.	1	All the birds in the enclosures should be kept in small social group or in pair. In single sex animals, suitable pair should be found from other recognized zoos.	One year
20.	4	Rats should be captured and removed from the zoos to avoid sharing of animal feed as seen in the peafowl enclosure. Enclosure should be rat proof as well.	Three months
21.	5	Top soil of all muddy enclosures should be removed and replaced by fresh soil once in a three month. Glutaraldehyde may be used as a disinfectant in the enclosures instead of bleaching powder and its safe method of usage may be followed.	Three months
22.	6	The curatorial and the veterinary staff shall keep a close watch on the general behaviour and health parameters of the zoo animals. The animals shall be handled only by the staff having experience and training in handling the individual animals.	With immediate effect.
23.		Every zoo animals shall be screened for parasitic loads as per written schedule at least once in a three month. Intermittent health check up of the prey species also need to be carried out and documentations should find a place in records. Snakes need to be frequently examined for presence of ticks esp. rat snake and cobra. Parasitological examination related records should be made available and once in three or four months or as and when required on the basis of clinical judgment of the case.	With immediate effect.
24.		All staff involved with upkeep and healthcare of zoo animals shall be screened against zoonotic diseases once every year and those found positive to any communicable disease shall be provided appropriate	With immediate effect.

		treatment till they get cured and freed of the infection and during the period of such treatment, the infected employees shall be kept away from the responsibility of upkeep and healthcare of the animals.	
25.		The zoo shall maintain detailed records of observations of biological and social behavior and health status of the animals including feed intake, medication and treatment provided in the keeper's diary, daily reports, animal history cards and treatment cards, as per standards specified by the Central Zoo Authority.	With immediate effect.
6. Veterinary facilities			
26.	(5)	The zoo should post one fulltime compounder to take care of veterinary clinic or treatment room.	One year
27.	(6)	1. the training and upgrading technical skills of zoo staff should be done. 2. The zoo should develop protocols for preventive medicines and vaccination 3. Diagnostic facilities like binocular microscope with illumination facilities, tubing facilities for reptiles, electric-cauterizer etc. should be made available in the treatment room itself.	With immediate effect
7. Post-mortem and disposal of carcasses of animals			
28.	(3)	In the event of the post mortem being inconclusive and no specific reason for death is identified, the zoo authorities shall send the samples of the tissues and organs, blood, viscera etc. for further examination to the qualified diagnostic laboratory having adequate specialization for further investigation and identifying the cause of death.	With immediate effect
9. Acquisition and breeding of animals			
29.	(4)	The zoo shall endeavour to acquire mates for single and unpaired animals e.g. white eye buzzard on priority basis and in the event of any zoo failing to find a mate for single and unpaired animal within a period of six months, the unpaired or single animal shall be transferred or exchanged or given on breeding loan to any other zoo in accordance with the norms specified by the Central Zoo Authority in this regard.	With immediate effect.
30.	(9)	The zoo shall not acquire any more animals in its collection as zoo do not infrastructure and facilities for same.	With immediate effect.
31.	(11)	The zoo shall not release any captive animal into the wild except in accordance with the norms specified by the Central Zoo Authority in this regard.	With immediate effect.
10 Research activities			
32.		The zoo shall endeavor to carry out collaborative research for evolving innovative strategies for providing the animals housed in the zoo a better quality of life, enhanced	One year

		longevity, higher genetic and behavioural viability and improved reproduction potential.	
11.	Education and outreach activities		
33.	(1)	1. One interpretation centre with latest media communication devices should be created in present or proposed site. 2. Zoo should organize education programmes for all categories of visitors. 3. Zoo should publish brochures, pamphlets, posters, sticker and annual report for the purpose of conservation education.	One year With immediate effect With immediate effect
34.	(2)	No physical handling or performances by animals shall be permitted as part of educational activity	With immediate effect
12.	Visitor facilities		
35.	(1)	Zoo operator shall provide adequate civic facilities for visitors at appropriate and convenient places in the zoo including for physically disadvantaged persons and such facilities shall be so located that they do not mask or impact the view of enclosures.	With immediate effect
36.	(2)	The zoo shall have first aid facilities including snake anti-venom and life saving drugs, readily available in the zoo premises.	With immediate effect

A half yearly report regarding progress made in implementation of the aforesaid conditions should be submitted to the Central Zoo Authority.

Grant of recognition to Nisargkavi Bahinabai Choudhary Pranisangrahalay beyond 31st October, 2013 as a small category Zoo would be considered on the basis of compliance of the conditions stated above and general performance of the zoo.

The recognition to the Nisargkavi Bahinabai Choudhary Pranisangrahalay shall be revoked by the Central Zoo Authority, at any point of time if the Zoo Operator is found not complying with the stipulated conditions.

Yours faithfully,
