1. Report of the Officer-in-charge - This annual report of the rescue centre (Amte's Animal Ark) is being submitted for the year 2022-23 .

2. History of the Rescue Centre – The rescue Centre (AAA) was started around 46 years back as an orphanage cum rescue centre for wild orphan animals on mother animal being killed by local tribal for food. Later the local people started bringing baby orphan animals to the rescue centre when they knew about our social objective of conserving of wild life and forest.

3. Vision – To save wild life and spread awareness amongst local tribal for conservation of wild life and thus environment.

4. Mission – To take care of injured/rescued/orphaned animals.

5. Objective – Main aim of the Rescue centre is to rear and provide life time care facility to all rescued / abandoned young wild animals in the rescue centre.

Additional objectives are as follows:

- (1) Care & looking after the injured and sick wild animals;
- (2) To rehabilitate the rescued animals after veterinary care and after found fit to be released into natural habitat within 30 days of the rescue;
- (3) Promoting wildlife conservation;
- (4) Sensitizing the local tribes for Conservation of in-situ population of various species of endangered animals and their habitat.
- (5) Creating empathy amongst the visitors towards wild animals through appreciation and better understanding; and,
- (6) Promoting nature-based education.

World Environment Day

On 5th June 2022, Amte's Animal Ark, Hemalkasa has celebrated a World Environment Day with a unique way with School students and villagers of Koyanguda. World Environment Day is the perfect opportunity to make people aware of the issues we facing and how one can contributing to save it. In this programmed we focus on Solution to plastic pollution.

But to interest and self-involvement of public, we put a twist in programme by decided to share awareness by two way conversation as we start giving thoughts on importance of the environment and how each of us can keep our environment clean and disease free, we take questions or discuss any quires of person in between the thoughts.

It works because there were many questions asked by students and villagers with very actively and seems they were satisfied with this two way conversation instead of only giving speech or presentation.
