1. Report of the Officer-in-charge

Shaheed Ashfaq Ullah Khan Zoological Park is located on the Gorakhpur-Deoria bypass road near the picturesque Ramgarh Tal and about 08 km away from Gorakhpur Railway/Bus station and about 11 km from the airport. This zoological park is the first zoological park of Purvanchal and the third of Uttar Pradesh. The historical Ramgarh Tal is situated on one side of it and the distance of the historical and famous Gorakhnath temple is also only 10 km from the zoo. The city of Gorakhpur is surrounded by the Rapti and Rohin rivers. Kapilvastu, the birth place of Mahatma Gautam Buddha and Kushinagar, the place of Parinirvana, is also close to this city. It has developed as a delightful place from the point of view of tourism, due to the proximity to the circuit house, Buddhist museum, Planetarium, boating and water sports complex, etc.

The purpose of the establishment of this zoological park is to protect and promote wildlife and to make tourists aware of the importance of conservation of natural resources to maintain ecological balance.

By using state-of-the-art scientific methods and resources for conservation of wild animals, breeding/proliferation of protected wild animals, giving priority to the collection and breeding work of wild animals of endangered species. It shall be maintained in such a way that every wild animal fulfills the implication objectives of the zoological park. To achieve this objective, a detailed management plan of each species is also being prepared by the zoological park management.

High-class closed-circuit cameras have also been installed in the zoological park area for effective protection of wildlife and tourists. A state-of-the-art veterinary hospital has also been built for monitoring the health of wild animals, scientific study of their nature and research. Apart from this, incinerators have also been installed for disposal of dead wild animals and veterinary waste.

2. History of the Zoo

In year 2009, the State Government of Uttar Pradesh decided to establish a modern zoo in eastern part of U. P., which will play a vital role in awareness among the people as well as to improve the conservation facilities of Wildlife in this area. Adjacent to Gorakhpur City and on the bank's of Ramgarhtal, 121.342 Acre area of land was found suitable for the purpose of Zoo and hence this beautiful place was established. This area has all natural requisites such as woodland of 29.75 Acre, wetland of 34.01 Acre and suitable place for Exhibit and other infrastructures (Parking, Administrative Building, Enclosures, Public Facilities, Service Area, Quarantine Centre, Hospital Area, Food & Kitchen Store, Postmortem Room, Incinerator Building and Residential Area) of 57.58 acres. By the letter no of Central Zoo Authority, New Delhi F . No. 20 – 4 /2008– C Z A (M) Dated 29-01-2009 and order Dated 29-01-2009 on Writ Petition no. 47/1998, the permission was granted to establish the Zoological Park.

Initially, the name of the zoo was decided as “Manyawar Kanshiram Prani Udyan Gorakhpur” but by the Government order no. 975 / 14 – 4 – 2012 Dated 21-05-2012 of Uttar Pradesh Forest Department, Government of Uttar Pradesh, Section – 4, the name of the Zoological Park was finally decided as “Shaheed Ashfaq Ullah Khan Prani Udyan Gorakhpur”.

The construction of basic facilities such as boundary and retaining wall as well as land filling to the whole acquired area was started in 2009. On 12-11-2019, the Master Layout Plan of Shaheed Ashfaq Ullah Khan Prani Udyan Gorakhpur was approved by Central Zoo Authority, New Delhi vide letter no. F. No. 20- 4/200-CZA (Vol. IV) (PKR) / 1717 / 2019 and on dated 06-02-2020, Central Zoo Authority, New Delhi approved the Master Plan of Shaheed Ashfaq Ullah Khan Prani Udyan Gorakhpur, vide letter no. F . No.20 – 4/2008-CZA(Vol.V)(PKR)/2117/ 2020.

Central Zoo Authority, New Delhi approved the Animal Collection Plan of Shaheed Ashfaq Ullah Khan Prani Udyan Gorakhpur vide letter no. F.No.20-4/2008-CZA (Vol. IV) (PKR) /1719 / 2019 Dated 12-11-2019. In the end of 2020 the construction was completed. After the completion of all the other facilities, The Shaheed Ashfaq Ullah Khan Prani Udyan was recognized as Zoological Park vide Central Zoo Authority, New Delhi letter no. F.No.20-4/2015-CZA(Vol.II)(E) Dated 18-12-2020 under the section of Wildlife Protection Act, 1972 – 38H (1), (3) & (4).

In the month of February and March, 2021 more than 150 wild animals of 34 species from different Zoological Parks were transported successfully to Shaheed Ashfaq Ullah Khan Prani Udyan Gorakhpur and finally after quarantine and acclimatization, the Zoo was opened for visitors by Hon’ble Chief Minister, Uttar Pradesh Shri Yogi Adityanath on 27-03-21.

3. Vision

Zoological parks, of late, have undergone a complete conceptual change from merely being a place for keeping wild animals in captivity, just for their exhibition value. Now the modern zoos have multifarious roles to play. Besides age old exhibition and recreation values, zoos shoulder additional responsibility to act as nature conservation centres to further the cause of wildlife conservation. Zoos also have education value, where the visiting publics get an opportunity to learn about nature, natural history, eco-systems, wildlife and their conservation issues to get sensitized to become nature lovers, leading to become conservationist. Zoos are nature’s laboratories, offering ample opportunities to carry out research on animal health, nutrition, food, diseases, anatomy, physiology, inter and intra spp. behaviour, breeding biology and to make base line data pool of healthy spp. for clinical treatment of wild animals.

The world zoo Conservation Strategy of 1993 formulated by the I.U.C.N. has defined the role of zoos and aquariums in conservation of species globally and assigned to the zoo world, a key role to play in species conservation. The Strategy affirms the need for zoos to co-operate with each other, in captive breeding programme and to convey to their visitors a global conservation message.

Most zoos are still seen as “animal prisons” that don’t even look after their inmates properly. But zoos are changing. In modern zoos, only a few animals have to spend their lives behind bars. In the best cases, they have plenty of room to move in spacious artificial landscapes based on their natural habitats. Animals are now only very rarely taken straight from the wild, because many species are protected, so most animals in zoos today have actually been born there. The World Association of Zoos and Aquariums (WAZAA) wants today’s zoos to concentrate on conservation and make the public aware of nature and environment issues.

Gorakhpur Zoo is situated in tarai arc landscape of focal terrain of Gorakhpur in Uttar Pradesh. The area is rich bio-diversity and so to activate the network of key conservationist, strategist and people with a set goal of positive contribution towards nature and its conservation.

As we know that every Zoological Park in the country has been mandated to conserve a local species of that area and Gorakhpur Zoo being assigned the mandate for conservation breeding of Indian one horned rhinoceros.

Gorakhpur Zoo is only place in the eastern part of U.P. covering approximate 25 districts, out of which more than 05 districts have natural dense forest and different wild animals including Schedule I and II in it. To overcome from man-animal conflict situation and to save the animals which are orphaned or unable to sustained their life in dense forest, the Zoo has a rescue facility. This is the only rescue facility operational in the eastern Uttar Pradesh, variety of wild animals had been rescued at various periods of time.

4. **Mission**

“Inspiring passion for nature and saving wildlife for future generations”.

5. **Objective**

Having appreciated and recognizing the responsibility of zoos in wildlife conservation, education, research and healthy educational recreation and to achieve the goals set by Central Zoo Authority, in National Zoo Policy, 1998, the future objectives of the **Shaheed Ashfaq Ullah Khan (S.A.U.K. for short) Zoological Park** being set up, at Gorakhpur, will be as under: -

1. To supplement and strengthen the national efforts in conservation of the rich biodiversity of the country particularly the local wild fauna.
2. To support the conservation of endangered species through coordinated breeding programmes among the zoos, under ex-situ conditions and raise faunal stocks for rehabilitation in to the wild following proper rehabilitation programme, whenever and wherever, it is desired.
3. To educate zoo visitors in particular and masses in general through education, awareness and outreach programmes to inculcate in them empathy and love for wild animals, spreading understanding and awareness about the need for conservation of nature for maintaining the ecological balance and ensuring man’s own survival
4. To provide opportunities for scientific studies/research useful for conservation in general and creation of data base for sharing between the agencies involved in in-situ and ex-situ conservation.
5. To provide and avail opportunities to carry out research for veterinary requirement of wild animals.
6. To collect and preserve specimen of dead animals for education in Universities and colleges in Zoology and vet. Sciences.
7. To provide educational recreation to the stressed masses for their welfare and create a linkage between humans and their wild brethren.
8. To function as rescue centre for orphaned and salvaged indigenous wild animals, and making them fit (if not too old and decrepit) for release in to the wild after restoring their health and following release and rehabilitation protocol.

6. About us

S.No.	Particulars	Information
Basic Information about the Zoo		
1	Name of the Zoo	Shaheed Ashfaq Ullah Khan Prani Udyan Gorakhpur

35.	Rat Snake	Rat	1 to 2 - on every 10 th day	--	
36.	Common sand boa	Rat	1 to 2 - on every 10 th day	--	
37.	Turtle (2 Sp.)	Buffalo Calf meat/Seasonal fruits (Kg)	0.250	0.250	
38.	Ghariyal	Fish (Kg)	1	--	
39.	Crocodile Marsh (Mugger)	Buffalo beef meat (Kg) Fish (Kg)	0.250 4	0.250 4	

Note- Fruits and vegetables are provided according to the season and availability.

14. Vaccination Schedule of animals

S. No.	Species	Disease vaccinated for	Name of the Vaccine and dosage/ quantity used	Periodicity	Remarks	Month
1	Tiger	1.Feline Panleukopenia, 2.Herpesviral (Rhinotracheitis) 3.Calciviral 4.Rabies	Biofel PCHR 1 ml s/c	Annual	-	September
		Canine Distemper (CD)	1 ml s/c	Annual	-	September
2	Asiatic Lion	1.Feline Panleukopenia, 2.Herpesviral (Rhinotracheitis) 3.Calciviral 4.Rabies	Biofel PCHR 1 ml s/c	Annual	-	September
		Canine Distemper (CD)	1 ml s/c	Annual	-	September
3	Leopard/Panther	1.Feline Panleukopenia, 2.Herpesviral (Rhinotracheitis) 3.Calciviral 4.Rabies	Biofel PCHR 1 ml s/c	Annual	-	September
		Canine Distemper (CD)	1 ml s/c	Annual	-	September
4	Common Fox	1.Feline Panleukopenia, 2.Herpesviral (Rhinotracheitis) 3.Calciviral 4.Rabies	Biofel PCHR 1 ml s/c	Annual	-	September
		Canine Distemper (CD)	1 ml s/c	Annual	-	September
5	J. Cat	1.Feline Panleukopenia, 2.Herpesviral (Rhinotracheitis) 3.Calciviral 4.Rabies	Biofel PCHR 1 ml s/c	Annual	-	September
		Canine Distemper (CD)	1 ml s/c	Annual	-	September
6	Hyena	Canine Distemper, Adenovirus Type 1, Adenovirus Type 2, Hepatitis, Parainfluenza, Parvovirus, Leptospira, Rabies	1ml s/c	Annual	-	September
7	Jackal	Canine Distemper, Adenovirus Type 1, Adenovirus Type 2, Hepatitis, Parainfluenza, Parvovirus, Leptospira, Rabies	1ml s/c	Annual	-	September

15. De-worming Schedule of animals

S. No.	Species	Drug used	Month
1-	Lion, Tiger, Hyena, Leopard, Fishing Cat, Jackal, bear	Praziquantel & Pyrantal Pamoate /Ivermectin/Fenbendazole/Albendazole	Once in every 3 month
2-	Sambhar, Hog deer, Barking deer, Cheetal	Praziquantel & Pyrantal Pamoate /Ivermectin/Fenbendazole/Albendazole	Once in every 3 month
3-	All primates	Praziquantel & Pyrantal Pamoate /Ivermectin/Fenbendazole/Albendazole	Once in every 3 month
4-	All birds	Levomesol/ Praziquantel & Pyrantal Pamoate /Fenbendazole/Albendazole	Once in every 3 month

16. Disinfection Schedule

S. No.	Species	Type of enclosure	Disinfectant used and method	Frequency of disinfection
1.	Black buck,	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
2.	Hog deer	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
3.	Swamp deer	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
4.	Barking deer	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
5.	Spotted deer	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder 	Monthly

			<ul style="list-style-type: none"> • Potassium permanganate • Sokrena 	
6.	Sambar deer	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
7.	Tiger	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
8.	Lion	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
9.	Leopard	Chain-link Fenced and closed	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
10.	Jungle Cat	Chain-link Fenced and closed	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
11.	Sloth bear	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
12.	Jackal	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
13.	Fox	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder 	Monthly

			<ul style="list-style-type: none"> • Potassium permanganate • Sokrena 	
14.	Hyena	Chain-link Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
15.	Hippopotamus	RCC Wall Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
16.	Rhinoceros	RCC Wall Fenced and moated	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
17.	Peacock House	Chain-link Fenced and Closed	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
18.	Walk in Avery	Chain-link Fenced and Closed	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly
19.	All Birds Enclosures	Chain-link Fenced and Closed	<ul style="list-style-type: none"> • Virkon-S/ Viracid-S/Vibarid-S • Kohrsolin T H/ Brutargm • Lime/Bleaching Powder • Potassium permanganate • Sokrena 	Monthly

18. Development Works carried out in the zoo during the year

- i) Improvement of Porcupine Enclosure to protect them from heavy rain.
- ii) Improvement of Walk-In-Aviary to protect them from heavy rain.
- iii) Enrichment of butterfly lane to improve the visitors experience.

19. Education and Awareness programmes during the year

- i) Training to all zoo keepers and staff by Wildlife SOS, Agra
- ii) Training to all zoo keepers and staff by TSA
- iii) Training to all mali, sweeper & chaukidar to improve work quality.

20. Important Events and happenings

- i) Wildlife Week
- ii) World Environment Day
- iii) Celebration of Gorakhpur Zoo 1st anniversary

21. Seasonal special arrangements for upkeep of animals

- **In Winter:**
 - Heaters
 - Curtains to prevent animals from direct cold.
 - Wooden Beds for Feline, Canines & Primates.
 - Addition of oily Seeds like peanuts, boiled eggs and other seasonal foods.
 - Mustard cake for herbivores.
 - Bedding of paddy straw inside enclosure.
 - Vitamins, minerals and salt lick.
- **In Summer:**
 - Water Sprinklers
 - Foggers for Aviaries.
 - Coolers for caged animals like Lion, Tiger, Leopard, Hyena, Jackal, Bear, Jungle Cat, Monkey etc. and VRV AC for Serpenterium.
 - Ceiling Fans.
 - Running water availability for Aquatic animals.
 - Circulating water for crocodiles, turtles, Ghariyal and for water birds.
- **In Rainy:**
 - Roof cover for open cages of birds, monkey etc.
 - To insure the proper drainage from each enclosure
 - Cleaning of grasses and weeds from enclosures.
 - Cleaning of Moats.

22. Research Work carried out and publications

-N/A-

23. Conservation Breeding Programme of the Zoo

-N/A-

24. Animal acquisition / transfer / exchange during the year

A.	Animals arriving in the Zoo				
	H.NO.	Species	Number (M:F)	From which Zoo	Date of arrival in the zoo
1	Leopard Rescue Centre	Leopard	0:1:0	Rescued from Behraich Forest Division, U.P.	08-04-2021
2	Tiger House	Tiger	1:0:0	Kanpur Zoo	08-07-2021
3	Spotted Deer House	Spotted Deer	0:5:0	Vinod van, Gorakhpur	13-08-2021
4	Spotted Deer House	Spotted Deer	1:2:0	Vinod van, Gorakhpur	19-08-2021
5	Snake House	Red Sand Boa	0:0:1	Rescued from Siddharthnagar Division	04-10-2021
6	Rhino House	One Horned Rhinoceros	1:1:0	Assam State Zoo	16-03-2022

27. Mortality of animals

Sl.No.	Animal Name (with individual identification mark, if any)	Scientific Name	Sex	Date of Death	Reason of Death as per the Post-mortem report
1	Leopard	Panthera pardus	Female	19-04-2021	The animal was died because of cardio respiratory failure due to septicemia.
2	Indian Peafowl	Pavo cristatus	Female	20-05-2021	The animal died of shock.
3	Indian Peafowl	Pavo cristatus	Female	23-05-2021	Agony of pain leading to cardiac failure and death.
4	Indian Peafowl	Pavo cristatus	Female	30-05-2021	Died of C.R.F due to multiple organ failure.
5	Rhesus Macaque	Macaca mulatta	Female	21-05-2021	Heavy blood loss at the time of abortion, lead to hypo-volumic shock and death
6	Marsh Crocodile	Crocodylus palustris	Male	07-04-2021	Infighting injuries leads to excessive bleeding causing Hypo-volumic Shock & Death
7	Marsh Crocodile	Crocodylus palustris	Male	21-04-2021	Died of syncope leading to cardio respiratory arrest.
8	Blackbuck (leucistic/white)	Antilope cervicapra	Female	18-07-2021	The animal was died because of cardio respiratory failure due to asphyxia.
9	Hog deer	Axis porcinus	Female	16-08-2021	Anemia leads to hypoxia resulting in multiple organ failure and CRF.
10	Bonnet Macaque	Macaca radiata	Male	09-07-2021	cardio respiratory failure due to snake bite.

11	Bengal Fox	Vulpes bengalensis	Male	27-09-2021	CRF due to multiple organ failure.
12	Bengal Hanuman langur	Semnopithecus entellus	Female	22-11-2021	Aspiration of vomitus leads to respiratory failure and death.
13	Barasingha (Swamp Deer)	Rucervus duvaucelii	Female	08-02-2022	Cardio respiratory failure due to shock.

28. Compliance with conditions stipulated by the Central Zoo Authority

Sr . No	Norm No. under RZR, 2009	Condition Stipulated	Time Period to Comply	Since when pending	Status with regard to compliance of the conditions
1	10(1.1)	The zoo should make efforts to maintain population of physically, genetically and behaviorally healthy animals.	Right from the opening/ beginning of zoo.	Not pending	Being Maintained
2	10(2.1)	The zoo operators shall post an officer of appropriate rank as "whole time in-charge" of the zoo with powers to take decision and ensure that adequate financial resources and infrastructural support is made available to such officer for proper housing, upkeep and healthcare of the zoo animals and managing the zoo in a planned manner.	Right from the opening/ beginning of zoo.	Not pending	An Indian Forest Services officer of the CCF rank is heading the Zoo.
3	10(2.2)	The Zoo should appoint a Biologist and Education officer before the zoo is opened to public.	Once the Zoo is opened.		Based on budgetary provisions, appointment would be done as the earliest.
4	10(4.8)	In case of enclosures of endangered species constructed without the approval of the Central Zoo Authority, approval may be sought at the earliest.	With Immediate Effect	Not pending	All the enclosures have been constructed after getting approval from CZA.
5	10(4.3)	In view of visitor safety, the High-Tension line passing through the entrance should be heightened and insulated.	With Immediate Effect	Not pending	Heightened and insulated.
6	10(3.4)	Buffer areas between enclosure should be further vegetable to extent that species housed adjacently are visually isolated. The vegetation along the visitor viewing side needs to be improved. The ramps to the service area, in general, are very steep. The slope should be gentler from the point of view of management.	With Immediate Effect	Not pending	Rectified accordingly.

7	10(3.5)	The rescued animals to be housed at Rescue Centre should have prior approval from the Chief Wildlife Warden of the state.	With Immediate Effect	Not pending	Being followed.
8	10(4.3)	The zoo should ensure completion of minor construction works such as chain-link fixtures, entry gate, finishing touches in holding rooms, door locking mechanism towards keeper gallery etc. and a report should be submitted to CZA before opening the Zoo.	Before the time of opening of the zoo.	Not pending	Report sent vide It no 511/23-1 dt 15-12-2021
9	10(4.10)a & 10(11.1)a	The zoo should ensure installation of appropriately located bilingual signages containing the biological & behavioral information of respective animals.	Before the zoo is operationalized.	Not pending	Installed accordingly.
10	10(4.10)c & 10(11.1)b	The zoo should also make effort to complete the work of interpretation centre at the earliest.	One Year	Under process	Interpretation building work completed and rest of the budget for interactive & informative structures and signages is under process.
11	10(5.2)3	The Zoo should have appropriate storage facility for meat and feed for the animals, at least for one week keeping in view the emergency situation like prevailing pandemic (COVID-19)	With Immediate Effect	Not pending	Sufficient storage facility available.
12	10(5.2)6	The zoo authorities should take up the random food and water samples being tested periodically for microbiological, toxicological and any other contaminants at recognized laboratory.	Six months	Not pending	Being tested according schedule.
13	10(5.3)3	At the time of acquisition of animals, all animal arriving should be screened for parasitic loads and prophylactic medicines administered as per clinical requirements and vaccination of animals against infectious diseases are also done, as per the prescribed schedule. All the enclosures should be thoroughly cleaned before animals are shifted. The zoo premises and some enclosures have been used by the labours for stay during construction. Prior to opening of the zoo, thorough cleaning of the premises/enclosures for metal scraps, plastic etc. should be carried out.	Six months	Not pending	All animals were brought as per CZA guidelines.

14	10(5.3)4	The zoo should have written schedule of vaccination and deworming of different species of wild animals proposed to be housed at the zoo and the same should also be displayed at the enclosure.	With Immediate Effect	Not pending	Zoo have written schedule of vaccination & deworming.
15	10(5.3)5	The zoo should maintain detailed records of observations of biological and social behavior and health status of the animals including feed intake, medication and treatment provided in the keeper's diary, daily reports, animal history cards and treatment cards, as per standards specified by the Central Zoo Authority.	With Immediate Effect	Not pending	Records being maintained.
16	10(5.3)6	All staff of the zoo involved with upkeep and healthcare of zoo animals screened against zoonotic diseases once every year and action appropriate should be ensured.	With Immediate Effect	Not pending	All involved staff are screened annually.
17	10(5.3)8 & 10(6.4)	The zoo should have formal linkages with some Veterinary Universities/ Institution through a MoU on Healthcare, preventive, health management, surgical interventions, clinical tests, disease diagnosis and consultation in treatment and management.	One Year	Not pending	Zoo have linkage with IVRI, Bareilly.
18	10(5.4)	During the evaluation, rodent's burrows were noticed in almost all the enclosures. Intensive rodent proofing measures should be undertaken in all the enclosures. During implementation, it should be ensured that the method undertaken will not leave residue that could be lethal to the animals to be housed. Further, non-target species should not be harmed.	With Immediate Effect	Not pending	Rodent proofing measures undertaken.
19	10(5.10)	The zoo should consider installation of CCTV monitoring system throughout the visitor circuit and in animals enclosure for effective monitoring of visitor and animal behavior.	With Immediate Effect	Under Process	Under Process
20	10(6.2)1	The zoo should have appropriate animal restraint equipment, accessories and drugs before operationalized.	With Immediate Effect	Not pending	All requisite completed.
21	10(3.4)	During the evaluation it was observed that there was water stagnation in all the moats. A system has been set-up to drain	With Immediate Effect	Not pending	Mud pumps are working. National Institute of Hydrology, Roorkee did audit of

		the water from the moat to a sump, from where it will be pumped out to main drain. However, this was not functional during the visit. Further, it was informed by the Chief Wildlife Warden, U.P. that National Institute of Hydrology, Roorkee will be commissioned to audit the drainage system prior to releasing animals in the enclosures.			drainage system and recommendations complied.
22	10(6.3)	The Zoo/Rescue Centre should appoint support staff (Lab Assistant & Compounder) as specified by the CZA.	As early as possible.	Under Process	Appointment of Compounder (Vet. Assistant) is under process.
23	10(8.1)	The Zoo/Rescue Centre should not euthanize any animal unless doing so is essential for relieving from suffering from incurable disease/condition as per the norms of CZA.	With Immediate Effect	Not pending	No animal euthanized.
24	10(10.1)	The zoo should have act on implementation of research plan as indicated in the Master Plan and conducted research on need-based solution-oriented research projects.	From the beginning itself.	Research projects are under preparation.	Research projects are under preparation.
25	10(5.5)	The entrance to all the enclosures/service hallways should be provisioned with a foot bath.	With Immediate Effect	Not pending	Provisioned.
26	10(12.2)	The zoo should ensure availability of first-aid facilities including snake anti-venom and lifesaving drugs, readily available in the zoo premises.	With Immediate Effect	Not pending	Complied with
27	10(12.3)	The zoo should ensure, that visitor facilities are "Divyang Jan" friendly and have easy access. Further, wheel chair should also be readily available. The visitor ramps should have gentler gradient. It should be modified to have a slope ratio of minimum 1 (height): 8(length).	Before opening of the zoo to public.	Not pending	All facilities available for Divyang Jan.

29. List of free living wild animals within the zoo premises

a. Mammals

- i. Common Squirrel
- ii. Mongoose
- iii. Civet
- iv. Jungle Cat
- v. Rhesus Macaque
- vi. Langur
- vii. Domestic Cat

b. Birds

- i. Indian Peafowl
- ii. House Sparrow
- iii. Spotted Dove
- iv. Barn Owl
- v. Common Myna
- vi. Bulbul
- vii. Red Vented Bulbul
- viii. Cattle Egret
- ix. Little Egret
- x. Shikra
- xi. Red Wattled Lapwing
- xii. Green Pigeon
- xiii. Cuckoo
- xiv. Kingfisher
- xv. Bee Eater
- xvi. Wood Pecker
- xvii. Golden Oriole
- xviii. Jungle Myna
- xix. House Crow
- xx. Red Whiskered Bulbul
- xxi. Jungle Babbler
- xxii. Wagtail
- xxiii. Purple Sun Bird
- xxiv. Black Drango
- xxv. Barbet
- xxvi. Purple Swamphen
- xxvii. Common coot
- xxviii. Whistling Duck
- xxix. Lesser Cormorant
- xxx. Grey Hornbill

c. Reptiles

- i. Python
- ii. Rat Snake
- iii. Wolf Snake
- iv. Cobra
- v. Common Krait
- vi. Checkered keelback
- vii. Spotted pond turtle
- viii. Indian roofed turtle
- ix. Indian flap shell turtle

d. Fishes

- i. Rohu
- ii. Grass carp
- iii. Cat fish
- iv. Snake head
- v. Kawai fish
