# 28. Compliance with conditions stipulated by the Central Zoo Authority

	Norm		· ·		<u> </u>
SI. No.	No. under RZR, 2009	Particulars of suggestions/recommendation	Time Period to Comply	Since when pending	Time period to comply
	1. Genera	al Requirements.			
1	10.1(3)	The service entry to the animal exhibit has been provided from the visitor's side. The same should be shifted away from the visitors' circulation path.	Three months	20.06.2016	Service entry to the animal exhibit of the Deer enclosure will be shifted to East side of the animal enclosure away from the visitors path shortly.
2	10.1(3)	The visitors' circulation path at the enclosure for Swan encircles the enclosure. However, it should not exceed 25% of the enclosure periphery as per norms prescribed by the CZA. Accordingly, the visitors' circulation should be restricted by means of hedge plantation.	With immediate effect	20.06.2016	Hedge plantation will be taken up restricting the visitors circulation path to 25% of the enclosure periphery of Swan enclosure.
3	10.1(3)	Visitors' entry to the Boating Point of the Kinnerasani Dam operated by the Tourism Department of the State is through the Deer Park. By erecting perimeter fence to the Deer Park, the visitors' entry should be regulated.			Boundary wall with 2.0 Meters height above ground level will be constructed all along the visitors path right from main gate to Kinnerasani Dam site which serves both
4	10.1(4)	The Deer Park is surrounded by the Kinnersani Dam on one side, Kinnerasani Wildlife Sanctuary on two sides and human habitation on one side. The premises of the Deer Park should be separated by a boundary wall / chain-link fence of two meter height from ground level on both sides with an independent entry / exit.	Six months	31.10.2017	the purposes as suggested at 3 % 4.
5	10.1(6)	The Guest House present within the premises of the Deer Parknear the entry should be separated from the Deer Park with a two meter high wall with independent entry / exit.		31.10.2017	Will be complied.
6	10.1(7)	Leaf and litter being burnt adjacent to animal enclosures in the Kinnerasani Deer Park. This practice should be discontinued immediately. Compost pits should be constructed for solid-waste management.	With immediate effect	31.10.2017	Compost pits will be constructed immediately for solid waste management.

SI. No. under RZR, 2009  7 10.1(9) The Deer Park houses the domestic geese (0:0:11). They should be removed from the Park premises.  8 10.1(9) The Deer Park should ensure that stray dogs or predators like jackals etc. (in the adjoining kinnerasani Wildlife Sanctuary areas) are totally prevented from entering into the Deer Park by strengthening the chain-link fence and support materials of the fence, either by repairing or by replacing or both.  9 10.1(9) The trench around the fence of the Deer Park which was present in the earlier may again be strengthened, in order to prevent and/ or to discourage entry of any predators as well as the stray dogs from the immediately adjoining Kennerasani Wildlife Sanctuary areas.  2. Administrative and Staffing patter  10 10.2(1) The Zoo Operator has not sanctioned any staff to the Deer Park Exit Exit of the Kinnerasani Wildlife Management Division are attending to duties in the Deer Park. The Exit of the Kinnerasani Wildlife Management Division are attending to duties in the Deer Park.
