History of the Zoo

The State Government established Tiger Safari in the Kadian Reserve Forest located on the left bank of river Sutlej near Km. 323-24 on Ludhiana Grand Trunk Road. This Safari was meant for developing a pool of genetically pure species of Royal Bengal Tiger and hence identified as one of the captive breeding facilities in the State. It came into being in 1988 and was opened to public on 23.9.1988 with seven specimens of Royal Bengal Tigers. However, over a period of time, with the technical advice of Central Zoo Authority, New Delhi, more species of animals and birds were added and Ludhiana Zoo was established. Today, Ludhiana Zoo is one of the small zoos in the Punjab State duly recognized by Central Zoo Authority, New Delhi. More than one lakh people visit this zoo annually. Spread over an area of 56 hectares on the G.T. Road, Ludhiana Zoo is a nature and wildlife lover's paradise. This safari cum zoo hosts Royal Bengal Tiger, Himalayan Black Bear, Black Buck, Barking Deer, Sambar, Emu, Porcupine, Ducks, Doves, Silver Pheasant, Golden Pheasants, Parrots, Red Jungle Fowl, Chukar Partridges and more.

Vision

1. To maintain, present bio-diversity levels through all viable and effective means including, appropriate ex-situ conservation and breeding.
2. Our vision the human values for protection and preservation of the fauna and flora of the world.

Mission

We shall strive to provide natural habitats for the animals housed by providing and manipulating suitable environment and spread the message of nature conservation by awareness and educational program.

Objective

- (i) The main objective shall be to compliment and strengthen the national efforts in ex-situ conservation and strength the conservation of the Ludhiana Zoo i.e. Tiger Safari and Wild Life awareness Park on of the rich Bio-Diversity of the country, particularly the fauna.
- (ii) Supporting the conservation of endangered species by giving species, which have no chance of survival in wild, a last chance of survival through coordinated breeding under ex-situ condition and raise stocks for rehabilitating them in wild as and when it is appropriate and desirable.
- (iii) To inspire amongst zoo visitors empathy for wild animals, an understanding and awareness about the need for conservation of natural resources and for maintaining the ecological balance.
- (iv) Providing opportunities for scientific studies, Research and documentation on conservation and creation of database for sharing between authorities involved in In-Situ and Ex-Situ conservation.
- (v) Bring awareness to the public on conservation and propagation of wildlife by conducting regular awareness and education campaigns and programs.

- (vi) Providing dedicated facilities for the rescued and orphaned wild animals by providing appropriate housing, clinical and management facilities in off-the display area.
- (vii) To serve as gene pool and germplasm reserve for future biological research on wild Animals and to extend facilities for studies on behavior and breeding of different animals.
- (viii) To provide recreational opportunity to the visiting tourists.
- (ix) To sustain the founder population and also to augment the depleting populations of endangered species in the wild.
