1. Report of the Officer-in-charge

PfA Bengaluru, is a non-profit animal welfare organisation, founded in 1998. The centre rescues, treats and rehabilitates urban wild animals, to ultimately release them back into their natural habitats. These urban wild animals, found in and around the city, are injured, displaced or orphaned due to various causes. The centre is open 24x7, year-round.

Since its inception, PfA Bengaluru has rescued over 32,700 urban wild animals, of 205 species. From conducting awareness drives in schools, colleges, offices and communities, to initiating special programs, such as replenishing the water sources in fringe forests, PfA has been instrumental in the conservation of environment and wildlife in and around Bangalore over the years.

2. History of the Rescue Centre

Namrata Dugar, AlpanaBhartia, Gauri Maini Hira and Arushi Poddar shared a profound enthusiasm for the conservation of the environment, and the protection of animals. In the latter half of the 1990s, while in their late 20s, these passionate young women decided to come together and work for the welfare and protection of animals in and around Bangalore city. In 1996, when they invited Mrs Maneka Gandhi to inaugurate an event they conducted at Bal Bhavan in Cubbon Park, they had little idea about the impact of what they had started. Though the initial purview was to serve all kinds of animals, they soon realized the necessity to look after the much-disregarded category of urban wildlife in the city. The campaigns they conducted against the exploitation of animals for circuses, ritual hunting in the neighbouring villages of Bangalore, and illegal camel slaughters, caught the eye of the authorities and public alike, and bore fruitful results. These campaigns were arduous, especially the one to stop the practice of ritual hunting. It took almost two years to yield a result, in the face of deep aggression from people. There were also many raids to confiscate protected animals that were being used for commercial exploitation. The first centre was a little garage near Shivananda Circle, around central Bangalore. Over time, PfA carved a name for itself in the environmental and wildlife landscape of Bangalore. A lease for a 6-acre, untamed plot of land on the outskirts of the city became the home to what is today the People for Animals, Bangalore.

3. Vision

People for Animals, Bangalore strives to be a model wildlife rescue centre in the country. It aims to rescue urban wildlife including confiscated wild animals with the ultimate goal of releasing back into its natural habitat. With the resources at hand PfA Bangalore can become a centre of excellence for training other veterinarians and rehabilitators in the field. Giving immediate aid to an animal in distress is always our goal.

4. Mission

PfA works towards rescue, treatment, rehabilitation and release of urban wildlife be it mammals, reptiles or snakes. Conservation of wildlife is achieved by PfA through direct intervention in cases of sick, injured, orphaned or displaced animals.

5. Objective

The objectives of PfA Bangalore are as follows:

1. To be dedicated to the rescue, emergency medical care and rehabilitation of injured, orphaned and / or displaced urban wildlife.
2. To release healthy animals back into the wild with the help of the Karnataka Forest Dept. when required.
3. To promote the welfare of all animals through awareness programs, workshops and lectures on different classes of wild animals such as mammals, aves and reptiles.
4. To raise funds for animals in distress in different parts of the country through the network of PfAs around India.
5. To fight against illegal exotic pet trade and work in collaboration with different organisations to confiscate animals protected under CITES and the Wildlife Protection Act and ensure their proper relocation / release.
6. To provide lifetime care for animals that cannot survive on their own in the wild due to injuries that have led to permanent disabilities.

6. About us

S.No.	Particulars	Information
Basic Information about the Rescue Centre		
1	Name of the Rescue Centre	PEOPLE FOR ANIMALS, RESCUE CENTER
2	Year of Establishment	1998
3	Address of the Rescue Centre	#67, Adjacent to BGS Global Hospital Uttarahalli-Kengeri Road, Kengeri, Bangalore-560060.
4	State	Karnataka.
5	Telephone Number	+91 9900025370 / 9980339880
6	Fax Number	None
7	E-mail address	gm@peopleforanimalsbangalore.org
8	Website	Peopleforanimalsbangalore.org

S.No.	Particulars	Information
9	Distance from nearest	Airport: 52 Km
		Railway Station: 3.2 Km
		Bus Stand:3.1 Km
10	Recognition Valid upto (Date)	19/08/2021(Inspection for renewal of recognition was done on 7 th of march 2022)
11	Area (in Hectares)	2.584 hectares
Management Personnel of the Rescue Centre		
12	Name with designation of the Officer in-charge	Colonel Dr.Navaz Shariff Chief veterinarian and general manager
	Name of the Veterinary Officer	Colonel Dr.Navaz Shariff
	Name of the Curator	Karthik Prabu
	Name of the Biologist	NONE
	Name of the Compounder/ Lab Assistant	Rahul J
Owner / Operator of the Rescue Centre		
13	*Name of the Operator	Colonel Dr.Navaz Shariff

S.No.	Particulars	Information
14	Address of the Operator	People for Animals,# 67, Adjacent to BGS Global Hospital, UttarahalliKengeri Main Road, Kengeri, Bangalore – 560060.

16	E-mail address of Operator	gm@peopleforanimalsbangalore.org

** Rule 2(m) of the Recognition of Zoo Rules, 2009.*

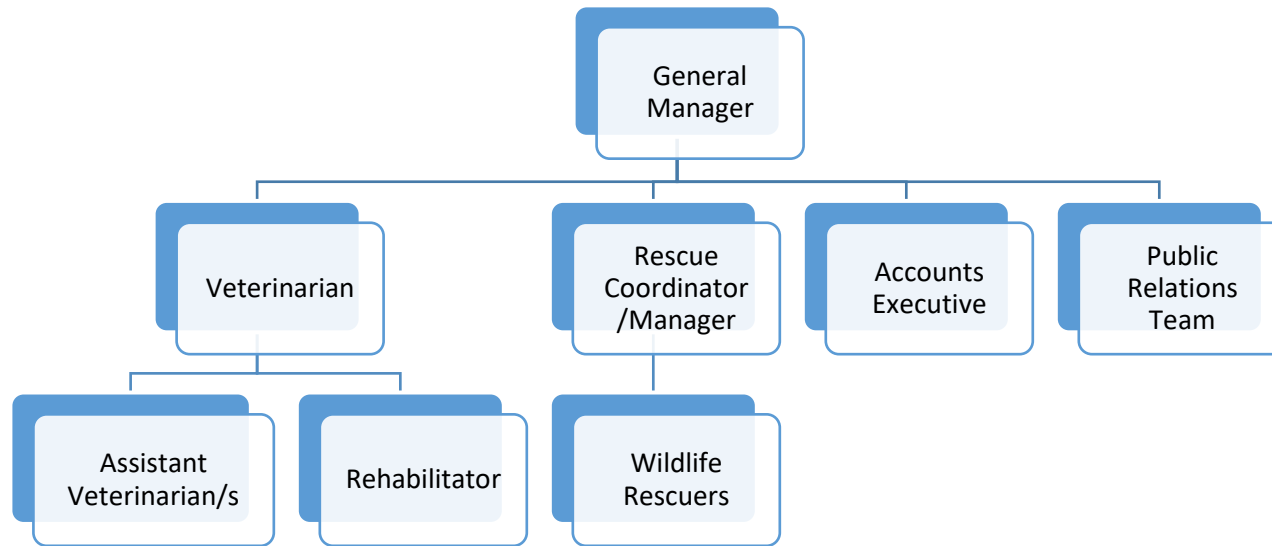

“Zoo Operator” means the person who has ultimate control over the affairs of the zoos provided that_____

I. in the case of a firm or other association of individuals, any one of the individual partners or members thereof; or

II. in the case of a company, any director, manager, secretary or other officer, who is in-charge of and responsible to the company for the affairs of the zoo; or

III. In case of zoo owned or controlled by the Central Government or any State Government or Union Territory Administration or any Trust or Society funded by the Central Government or a State Government or a Union Territory Administration, the Secretary of the concerned Department of that Government, or as the case may be the Union Territory Administration, shall be deemed to be the Zoo Operator.

7. Organizational Chart of the Rescue Centre

8. Human Resources deployment for management of Rescue Centre(Officer in-charge to Animal Keeper - Sanctioned posts, in-position and vacant posts)

Human Resources of the Rescue Centre*

Sl.No.	Designation	Number of Sanctioned Posts	Names of the incumbent
1.	General Manager	1	Colonel. Dr.NavazShariff
2.	Senior Veterinarian	1	Dr.Madhav H V
3.	Veterinarians	1	Dr.Ravi
4.	Rehabilitator	1	Rahul J
5.	Rescue Coordinator	1	Salman Khan
6.	Accounts Executive	1	Chithra J.M.
7.	Humane Outreach / Utilities In-charge	1	Fernandis

8.	Fundraising Officer	1	Supriya
9.	Community Outreach Officer	1	Supriya
10.	Wildlife Rescuers	4	Mohan Anand, B. N. Bharath Mohammed
11.	Driver	1	Harris
12.	Ground Staff	7	Jagadeesh kumar Meganath Bhagyamma Arashan Latha Anand Madesha

*Please give above mentioned information in respect of all Rescue Centre personnel, from the Officer in-charge up to the Animal Keeper.

9. Capacity Building of Rescue Centre personnel

No training attended by any staff.

10. Rescue Centre Advisory Committee –

a. Date of constitution: 14.03.2017

b. Members: Mrs. Suparna Ganguly Mrs. Brindha Nandakumar, Mrs. Shiela Rao and Mr. Prem Koshi.

Dates on which Meetings held during the year: 28th May 2020, 8th July 2020, 15th December 2020 and 22nd January 2021

11. Health Advisory Committee of the Rescue Centre –

a. Date of constitution: Always present from Day 1 of the Rescue Centre being established

b. Members: Mrs. Alpana Bhartia, Mrs. Suparna Ganguly (Since 14.03.17), Mr. Subru, S. (Since 14.03.17) and the Veterinary team.

Dates on which Meetings held during the year: First week of every month

12. Statement of income and expenditure of the Rescue Centre

Month	Income	Expenditure
April	23,80,638	11,03,483
May	22,97,226	10,23,535
June	13,60,120	13,05,342
July	16,66,193	12,77,072
August	14,21,580	16,08,464
September	12,64,789	16,68,499
October	13,90,882	12,02,044
November	8,81,454	10,07,832
December	11,17,965	9,78,692

January	1,75,88,39	10,87,442
February	1,55,00,08	14,38,447
March	28,65,140	14,42,645
Total	1,99,54,834	1,51,43,497

13. Daily feed Schedule of animals

Sl.No.	Species	Feed item	Quantity (g) / day		Day of fasting
			Winter	Summer	
1.	Bonnet Macaque (Adult)	Vegetables (Mixed)	400	400	None
		Fruits (Mixed)	400	400	
		Sprouts	200	200	
	Bonnet Macaque (Neonates and Juveniles)	Lactogen (Stage III)	10 to 100 ml	10 to 100 ml	None
		Vegetables (Mixed)	50 – 150	50 – 150	
		Fruits (Mixed)	50 – 150	50 – 150	
		Sprouts	25 – 80	25 – 80	
2.	Three Striped Palm Squirrel (Neonates and Juveniles)	Feeding formula	0.5 to 1 ml	0.5 to 1 ml	None
		Fruits	5 – 15	5 – 15	
		Sunflower seeds	2 – 4	2 – 4	
	Three Striped Palm Squirrel (Sub adults and Adults)	Fruits	15 – 25	15 – 25	None
		Sunflower seeds	4 – 6	4 – 6	
		Ground nut	10	10	
2.	Black Kite (Chick)	Meat	30 – 100	30 – 100	None
	Black Kite (Adult)	Meat	100 – 120	100 – 120	
3.	Brahminy Kite (Chick)	Meat	30 – 100	30 – 100	None
	Brahminy Kite (Adult)	Meat	100 – 120	100 – 120	
4.	Rose Ringed Parakeet (Adult)	Fruits	40	40	None
		Seeds	6 – 8	6 – 8	
		Sprouts	20	20	

	Rose Ringed Parakeet (Chick)	Fruits	25	25	None
		Seeds	3 – 5	3 – 5	
		Sprouts	10	10	
5.	Barn Owl (Chick)	Meat	50 – 100	50 – 100	None
		Dead Mice	1 / two days	1 / two days	
	Barn Owl (Adult)	Meat	120	120	
		Live / Dead Mice	1	1	
6.	Spotted Owlet (Chick)	Meat	20 – 40	20 – 40	None
		Dead mice (minced)	10 – 20	10 – 20	
	Spotted Owlet (Adult)	Meat	60	60	
		Mice (Sub adult)	1	1	
		Worms	25 – 30	25 – 30	
7.	Crow (Chick)	Meat	20 – 40	20 – 40	None
		Fruits	20 – 30	20 – 30	
	Crow (Adult)	Meat	50 – 75	50 – 75	
		Fruits	30 – 40	30 – 40	
8.	Asian Koel (Chick)	Meat	20 – 40	20 – 40	None
		Fruits	20 – 40	20 – 40	
	Asian Koel (Adult)	Meat	30 – 40	30 – 40	
		Fruits	40 – 50	40 – 50	
9.	Pond Heron (Chick)	Fish	50 – 80	50 – 80	None
		Worms	10 – 15	10 – 15	
	Pond Heron (Adult)	Fish	80 – 100 nos.	80 – 100 nos.	
		Worms	20 – 25	20 – 25	
10.	Cattle Egret (Chick)	Worms	10 – 20	10 – 20	None
	Cattle Egret (Adult)	Worms	20 – 30	20 – 30	
11.	Peafowl (Chick)	Worms	10 – 20	10 – 20	None
		Fruits	20 – 100	20 – 100	
		Sprouts	20 – 40	20 – 40	
		Boiled Egg with shell	Half	Half	

	Peafowl (Adult)	Worms	30 – 50	30 – 50	None
		Fruits	200	200	
		Sprouts	100	100	
		Boiled Egg with shell	1	1	
12.	Barbet (Chick)	Worms	10 – 15	10 – 15	None
		Fruits	10	10	
	Barbet (Adult)	Fruits	15 – 20	15 – 20	
13.	BulBul (Chicks)	Worms	5 – 10	5 – 10	None
		Fruits	5 – 10	5 – 10	
	BulBul (Adult)	Worms	2 – 5	2 – 5	
		Fruits	15 – 20	15 – 20	
14.	Myna (Chick)	Worms	20 – 30 nos.	20 – 30 nos.	None
	Myna (Adult)	Worms	30 - 45 nos.	30 - 45 nos.	
15.	Snakes (Hatchlings)	Meal Worms	2 – 6 nos.	2 – 6 nos.	None
		Super Worms	1 – 2 nos.	1 – 2 nos.	
16.	Snakes (Adult)	Meal Worms	2 – 8 nos.	2 – 8 nos.	None
		Super Worms	2 – 10 nos.	2 – 10 nos.	
		Live Prey	1 – 2 / 5-7 days	1 – 2 / 5-7 days	
17.	Monitor Lizard	Meat	150	150	None
		Live Prey	1 / 3-5 days	1 / 3-5 days	
18.	Star Tortoise	Vegetables	20 – 50	20 – 50	None
		Melon	2 – 5	2 – 5	
		Meal Worms	2 – 4	2 – 4	
19.	Terrapins and Turtles	Meal worms	2 – 3	2 – 3	
		Fish and Prawn	50	50	

14 .Vaccination Schedule of animals:

Sl.No.	Species	Disease vaccinated for	Name of the Vaccine and dosage/ quantity used	Periodicity	Remarks
1.	Bonnet Macaque	Tetanus	Tetanus Toxoid	Any Macaque rescued has an infected wound / s	...

15.De-worming Schedule of animals :

Sl.No.	Species	Drug used	Month
1.	Bonnet Macaque	Fenbendazole + Pipierazine / Triclabendazole + Ivermectin/ Praziquantel + Piperazine + Fenbendazole /	Every 3 months (Shuttle Program)

16..Disinfection Schedule

All enclosures and cages will be subjected for fumigation twice a year. Once the enclosure is empty, if a different species of animal has to be housed, all enrichments including the earth will be removed and the enclosure will be fumigated. The enclosure will be later prepared accordingly for the species to be housed. For everyday cleaning, Glutaraldehyde is used as a disinfectant.

17 . Health Check-up of employees for zoonotic diseases : regular health checkups has being conducted in BGS hospital

Sl.No.	Name	Designation	Date of Health Check up	Findings of Health Check up

18 .Development Works carried out in the Rescue Centre during the year:

- Operation theatre work was completed and is already equipped with a 47 litre portable oxygen cylinder.
- Stainless steel surgical table and an OT lamp .
- The OT has a post-operative / recovery room where the critical animals will be housed and treated.
- The x ray unit with computerised radiography has been installed.
- Ultrasonography with colour Doppler has been installed.

19. Important Events and happenings.

- In January, we addressed 450 students of Sishu Griha School and over 300 students of Gopalan International School via webinars to create awareness on the city's wildlife and its conservation.
- On 12th January, Colonel Dr. Navaz spoke on the rising Bird Flu on Radio Mirchi 95
- In February, we addressed 275 students of Sishu Griha School and Neev Academy via webinars to create awareness of the city's wildlife and its conservation. Our topics included Wildlife Tracking, Careers in Conservation, and Habitat and Adaptation
- In March, we conducted awareness sessions at 2 locations of WeWork, Bangalore on the occasion of World Wildlife Day. We created awareness among several employees on the contribution of Urban Wildlife to the health of a city
- In July, a webinar was conducted for the members of SWAT- Swift Wildlife Action Team on PfA's work and Bangalore Wildlife
- In September, we conducted a total of 11 webinars for 400 students of Sishu Griha School and Neev Academy
- In December, we conducted 8 webinars consisting of 610 students, 70 from the BBMP Bhavan's Press School, on the topic " Human-Animal Conflict " and 540 from the Sishu Griha School on the Topic " Reviving an Ecosystem" and " Lakes in Our City"
- Also in December, we conducted an online awareness session called "Slithering with Snakes" to educate our audience on the identification and behaviour of snakes, as well as to correct myths surrounding them.

20. Seasonal special arrangements for upkeep of animals : Kengeri is situated at an elevation of 826 m above sea level and the climate is pleasant and equable almost throughout the year. Winter temperatures rarely drop below 14 °C (52 °F) and summer temperatures seldom exceed 36 °C (97 °F). All needy animals will be provided with heaters, heat emitters and heating pads during winter or when the temperature soars down. If the temperature in summer goes too high, fans will be used for animals housed in doors. Roof of the enclosures will be covered with Coconut leaves or gunny bags soaked in water to cool down the environment within the enclosure.

21. Research Work carried out and publications. : An article on a “Fracture management in peafowl” has been recently submitted for publication to the prestigious RVC Journal. We are awaiting their response while the article is under consideration with the editorial board.

22. Rescue and Rehabilitation of wild animals.

All the animals we deal with are rescued wildlife. Hence the number of animals rescued will remain the same as mentioned in the Annual report under the column acquisitions. All the animal rescues will be reported by general public. Occasionally, forest department officials also inform us about wild animals in need of help which will be rescued by our team of rescuers. Every month a report will be sent to the PCCF (Wildlife), DCF (Urban), ACF (Bangalore South) and RFO of our range which will comprise of all the animals rescued in that month along with a summary of rescues and releases of the respective month. All animals are rehabilitated at our centre and post recovery they will be released back in a suitable habitat close to the rescue spot.

23. Annual Inventory of animals

Part A - Endangered Species / Schedule I and Schedule II

Death Report for the period April 2021 – March 2022

Sl.No.	Common name	Scientific name	Sex	Date of Death	Possible cause of death
Schedule-I					
1	Indian peafowl	<i>Pavo cristatus</i>	Male	16-06-2021	Spinal Trauma
2	Indian peafowl	<i>Pavo cristatus</i>	Female	17-06-2021	Head injury
3	Indian peafowl	<i>Pavo cristatus</i>	Unidentified	21-06-2021	Stavation , Captive stress
4	Indian peafowl	<i>Pavo cristatus</i>	Unidentified	21-06-2021	Stavation , Captive stress
5	Indian peafowl	<i>Pavo cristatus</i>	Unidentified	21-06-2021	Stavation , Captive stress
6	Indian Peafowl	<i>Pavo cristatus</i>	Female	26-06-2021	Injured
7	Indian Peafowl	<i>Pavo cristatus</i>	Female	30-06-2021	Injured
8	Indian Peafowl	<i>Pavo cristatus</i>	Male	12-07-2021	Spinal Injury
9	Indian Peafowl	<i>Pavo cristatus</i>	Female	14-07-2021	Spinal Injury
10	Indian Peafowl	<i>Pavo cristatus</i>	Female	30-07-2021	Injured
11	Indian Peafowl	<i>Pavo cristatus</i>	Female	04-08-2021`	Injured
12	Indian Peafowl	<i>Pavo cristatus</i>	Female	30-09-2021	head injury
13	Indian Peafowl	<i>Pavo cristatus</i>	Male	31-10-2021	Head injury
14	spotted deer	<i>Axis axis</i>	Female	11-10-2021	Predator attack
15	Slender loris	<i>Loris tardigradus</i>	Female	20-11-2021	Injured
16	spotted deer	<i>Axis axis</i>	Female	15-12-2021	Predator attack

17	Slender loris	<i>Loris tardigradus</i>	Female	04-12-2021	Injured
18	Indian flapshell Turtle	<i>Lissemys punctata</i>	Female	07-12-2021	Injured
19	Spotted deer	<i>Axis axis</i>	male	06-02-2022	Injured
20	Spotted deer	<i>Axis axis</i>	male	18-02-2022	spinal injury
21	Shikra	<i>Accipiter badius</i>	Female	12-03-2022	Dehydrated

Schedule –II

1	Bonnet Macaque	<i>Macaca radiata</i>	Male	12-04-2021	Electrocution
2	Bonnet Macaque	<i>Macaca radiata</i>	Female	25-04-2021	Electrocution
3	Bonnet Macaque	<i>Macaca radiata</i>	Male	07-05-2021	Spinal fracture
4	Bonnet Macaque	<i>Macaca radiata</i>	Male	13-05-2021	Electrocution
5	Small Indian Civet	<i>Viverricula indica</i>	Female	18-05-2021	Head injury
6	Bonnet Macaque	<i>Macaca radiata</i>	Male	23-05-2021	Electrocution
7	Bonnet macaque	<i>Macaca radiata</i>	Female	27-05-2021	Electrocution
8	Bonnet Macaque	<i>Macaca radiata</i>	Male	16-07-2021	Tetanus
9	Bonnet Macaque	<i>Macaca radiata</i>	Female	03-08-2021	Electrocution
10	Bonnet Macaque	<i>Macaca radiata</i>	Female	06-08-2021	Injured
11	Bonnet Macaque	<i>Macaca radiata</i>	Male	15-08-2021	Injured
12	Bonnet Macaque	<i>Macaca radiata</i>	Male	31-08-2021	Electrocution
13	Bonnet Macaque	<i>Macaca radiata</i>	Female	08-09-2021	Electrocution
14	Bonnet Macaque	<i>Macaca radiata</i>	Female	03-09-2021	Maggot wound
15	Bonnet Macaque	<i>Macaca radiata</i>	Male	16-10-2021	Electrocution
16	Bonnet Macaque	<i>Macaca radiata</i>	Female	17-10-2021	Spinal trauma
17	Bonnet Macaque	<i>Macaca radiata</i>	Female	19-10-2021	Injured
18	Bonnet Macaque	<i>Macaca radiata</i>	Female	05-11-2021	Injured
19	Bonnet Macaque	<i>Macaca radiata</i>	Female	13-11-2021	Electrocution
20	Bonnet Macaque	<i>Macaca radiata</i>	Male	02-12-2021	Electrocution
21	Bonnet Macaque	<i>Macaca radiata</i>	Male	09-12-2021	Tetanus
22	Bonnet Macaque	<i>Macaca radiata</i>	Female	06-01-2022	Injured

23	Bonnet Macaque	<i>Macaca radiata</i>	Male	15-01-2022	Head injury
24	Bonnet Macaque	<i>Macaca radiata</i>	Male	08-02-2022	Maggot wound
25	Bonnet Macaque	<i>Macaca radiata</i>	Female	14-02-2022	Paralysed
26	Bonnet Macaque	<i>Macaca radiata</i>	Male	31-03-2022	Injured
27	Bonnet Macaque	<i>Macaca radiata</i>	Male	31-03-2022	Injured
