ANNUAL REPORT 2021-2022

PREFACE

Pimpri Chinchwad is commonly known for automobile and industrial hub. The growth of population and emerging IT hub has compelled to develop many other projects in respect to education, research, culture and entertainment fields. Considering the needs of the time, the zoo in city which is working from 1989 is being modified to requirements of the modern era. Nisargakavi Bahinabai Choudhary Pranisangrahalay or previously 'Snake Park and Aviary' is one such project.

PCMC zoo has developed an all-of-Zoo operation plan reflecting work in all aspects of Zoo operation. Creation and conservation of urban green-scapes has been given priority in its planning. Nisargakavi Bahinabai Choudhary Pranisangrahalay (PCMC Zoo) has been a small category zoo owing to its finite area of 7.05 Acres. Recent Central Zoo Authority guidelines have clearly instructed area of requirements for housing of various collections. It has been a challenge to fit a theme that considers geographical area, guidelines and attraction for the visitors. All these factors have been aptly considered in deciding the theme as "REPTILES AND AVIARY". The proposed facility is expected to house 31 species of snakes, 2 species of monitor lizard, 13 species of turtles and tortoises, 2 varieties of crocodiles and 14 species of wetland birds.

This zoo aims to develop as one of the world's best small zoo, leading the way in animal care, conservation work, community and school education programs and environmental management. Pimpri Chinchwad Municipal Corporation is committed to indulge in wildlife conservation and awareness.

INTRODUCTION

Nisargakavi Bahinabai Choudhary Pranisangrahalay, previously known as Snake Park & Aviary, is a Small Zoo established by Pimpri Chinchwad Municipal Corporation recognized by the Central Zoo Authority. It was inaugurated on 30th December 1989 and officially declared open to public on 1st January 1990. This zoo has witnessed continuously increasing visitor ship since then. Zoo has got approval for Master Development Plan 2015-25 and the subsequent development is under progress accordingly. The master plan has been approved by CZA vide letter no F.N. -19/727/93-CZA (180) (VOL.III) 815/2016 dated June 02, 2016. The administration has approved the necessary budget provisions and zoo is under reformation. The necessary civil changes as per approved Master Lay Out for phase I have been completed and development under phase II and Phase III are in progress simultaneously.

The upcoming Zoo facility is being developed on theme of “Reptiles and Aviary” specialized Zoo. Accordingly, the Central Zoo Authority has approved the collection on theme of Reptiles of Northern Western Ghats and Wetland Aviary in approved Master Development Plan.

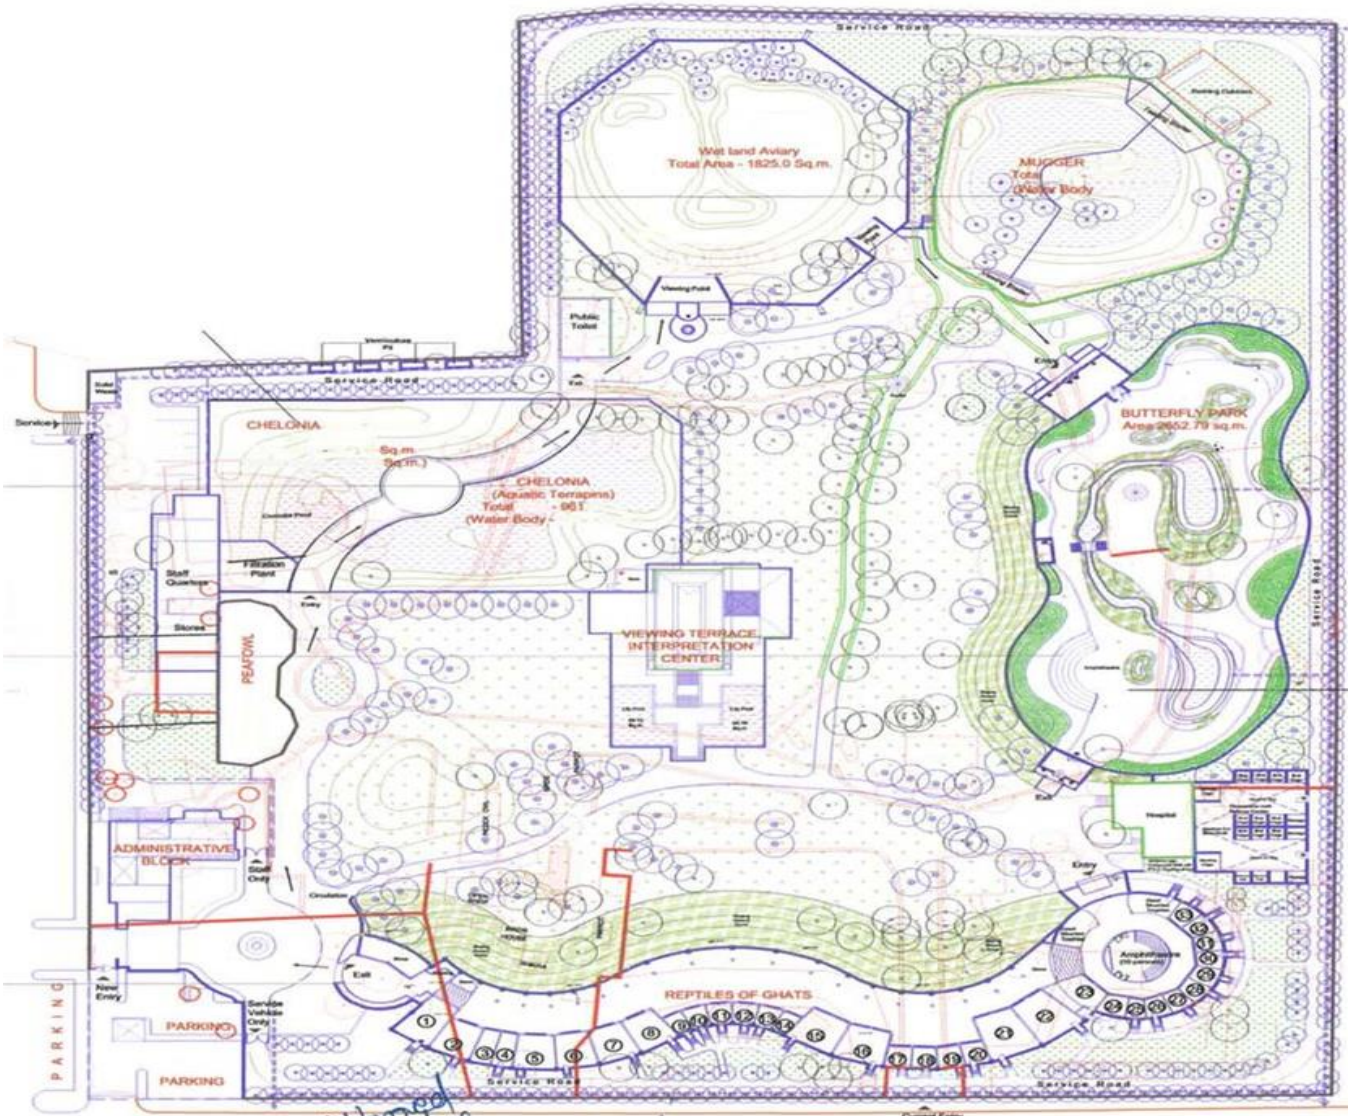

LOCATION

A total 7.05 acre land has been earmarked for this project. It caters for the Twin City of Pimpri - Chinchwad and surrounding rural areas, developed mainly due to rapid urbanization and industrial growth.

This township is extended towards north of Pune City along the National Highway No.4, joining Pune and Mumbai. It is situated 4 km Eastwards from Akurdi railway station, 5 km Northeast from Chinchwad railway station, 7 km West from Pune Nashik Highway, Bhosari and 6 km North of Pimpri.

MISSION, VISION AND OBJECTIVES OF THE ZOO

MISSION

To be an epitome center for conservation of endemic Herpetofauna and Avifauna found in the region.

VISION

To make it the best small category zoo by theme-based development for exhibition and education to the visitors about the endemic reptiles of the Western Ghats.)

OBJECTIVES

The proposed zoo development is in accordance with approved theme 'Reptiles of Ghats and Aviary'. With this unique theme, the zoo envisions collection of rare and endemic variety of Reptiles found in Western Ghats along with diversity of wetland birds. Considering the theme of zoo, it has following objectives.

- To educate students and visitors about importance of wildlife and emphasize the need for conservation of nature and natural resources.
- To rescue snakes, birds and sometimes other animals that enter into human habitation and release them back in the wild. Releasing activity is performed with the permission of Forest Office after receiving transit passes.
- To undertake Conservative breeding programs of different snake species which are endangered and release the offspring back into areas where population is declining
- To organize guided tours for school children and provide necessary information lectures, demonstrations, slide shows and related printed material with audio-visual media.
- To disseminate the current information on Biodiversity amongst the general public.
- To create proper enrichment in every enclosure as per requirement of the species considering the environmental changes.

ZOO ADVISORY COMMITTEE MEETINGS

Zoo advisory committee meetings are regularly held for discussions on Zoo Development related issues. Addl. Commissioner is the chairman of this committee. Under his committed leadership the development is acclaimed. The committee is represented by higher authorities in Municipal Corporation, representatives of local electoral members, eminent wildlife experts and a member from State Wildlife Board.

Zoo advisory committee meeting

The committee has been formulated considering the role of Zoo's in conservation. Due to varied expertise and holistic development approach the committee is of opinion that the Zoo shall focus on conservation and display of lesser known small fauna. The committee is also considering conservation breeding of native fishes and amphibians as a priority.

HEALTH ADVISORY COMMITTEE

Health advisory committee for PCMC Zoo was proposed in January 2018 Zoo Advisory Meeting. The committee has accepted the proposal to constitute the same. The constitution of this committee is under process.

FOOD, HEALTH, HYGIENE AND SAFETY MEASURES

The Zoo administration is committed for animal welfare and wildlife conservation. Health and hygiene of animals are given highest priority in its management. For psychological health of Zoo inmates the new facility emphasizes naturalistic habitat enrichment in every enclosure. Use of live plantations prioritizing native plant varieties are being used in upcoming development.

Following are the routine practices for monitoring health of animals and safety of staff and visitors undertaken in the Zoo:

- De-worming and vaccination is scheduled periodically.
- De-beaking and nail clipping of birds is a periodic practice.
- Perching are repaired or replaced with new ones regularly. In new enclosures emphasize has been given to produce natural perching on live plants.
- Animal waste, food wastage, leaf litter and other biodegradable wastes are recycled to produce compost. No chemical fertilizers or pesticides are used in Zoo campus.
- Exhibit substrates /furnishings are modified or changed totally whenever necessary. Hiding places and escape refuges are maintained to reduce stress levels.
- Heat convectors, air coolers, humidifiers and are used during climatic extremities.
- Volunteers and staff control the vandalism.
- Food and drinking water is regularly examined.
- Plastic Carry bags are banned in the zoo. Necessary signages are displayed to prevent vandalism.

DISINFECTION SCHEDULE

Since, the zoo is under renovation, enclosure locations and surface soil has been changed recently. Otherwise, the surface soil and perches are disinfected periodically using suitable media. Cage resting and solar exposure is performed routinely to avoid chances of infection.

HEALTH CHECK-UP OF EMPLOYEES FOR ZONOTIC DISEASES

Every year in month of June employees undergo health check-up for zoonotic diseases. No suspect was found in the current year. At the time of inspection employees were vaccinated with Anti-Rabies and Tetanus.

SEASONAL MANAGEMENT PRACTICES

- During summer afternoons, water is sprinkled in bird enclosures.
- For reptiles, desert coolers are installed to regulate temperature during peak summer time.
- Room heaters and incandescent light bulbs are used as heating source in snake boxes during winter season.

DEVELOPMENT ACTIVITIES

A small zoo focusing on Reptiles and Bird collection was envisioned in 1989 to enlighten city dwellers about the biological heritage of the region. It was only 3rd Reptile specialized zoo in the country at that time. Though the facility was attracting large number of visitors, the need of upgrading the facility to latest trends in the field was imperative.

Accordingly, the Master Development Plan for Nisargakavi Bahinabai Choudhary Pranisangrahalay was prepared and approved by the Central Zoo Authority. The zoo is spread in 7.05 acres and is surrounded by residential zone. The theme selected in approved master plan is 'Reptiles and Aviary'. The proposed facility is expected to house 31 species of snakes, 2 species of monitor lizard, 13 species of turtles and tortoises, 2 varieties of crocodiles and 14 species of wetland birds.

The Zoo Master Development Plan has been approved by the Central Zoo Authority in year 2014-15. The development is focused on creating naturalistic environments for all inmates. The zoo landscape is also planned to complement natural environment and emphasis is given to promote native plants. Technical posts recommended by CZA in Master Plan have been included in PCMC's proposed RR structure.

The civil works proposed in the development are under progress. Phase I of the development was completed in 2017. In First phase construction of Compound wall, peripheral underground water and drainage line, new toilet block and peripheral pathway, civil construction of reptile, bird aviary, chelonian section and mugger section were completed. Phase II including quarantine section, enrichment works of various enclosures are undertaken simultaneously to conclude the developments in stipulated time.

COMPLIANCE REPORT

(Ref: Letter No. 19-127/93-CZA(180)(Vol. III)(NS) dated 03.01.2019 subjected as Renewal of recognition to Nisargakavi Bahinabai Choudhary Pranisangrahalaya, Pimpri Chinchwad, Maharashtra under Section 38H of the Wildlife (Protection) Act, 1972 beyond the period 28.09.2019)

Sr. No.	Norm. No	Condition Stipulated	Time period to Comply	Present Status	Remark
1. General Requirements					
1.	10.1(2)	The zoo should plant native trees and bushes as screening and buffer all around the boundary wall especially at the entrance of the zoo area towards adjacent temple.	Immediately	Native tree plantation is done.	
2.	10.1(6)	It has been observed that one residential house has been existing inside the zoo campus, which is not separated by the boundary wall of two meters height. The entry and exit of the house is also from the zoo campus only. As per the approved master (layout) plan it was proposed to demolish the structure to construct a butterfly park. However, same has not been complied so far.	Immediately	To be carried out in future.	
2. Administrative & staffing pattern					
3.	10.2(1)	The zoo should appoint a whole time well qualified Officer-in-charge having appropriate knowledge of Wildlife management. At present, it has been observed that Officer-in-charge and other important staff like Veterinarian and Biologist are appointed only for short term duration with up to six month duration. The Officer-in-charge should have delegated adequate financial and administrative powers for taking immediate decisions concerning health and welfare of the captive wild animals.	Immediately	Direct recruitment is not done. All posts (Officer-in-charge, Veterinarian and Biologist) are on honorarium basis.	Direct recruitment should be done.
3. Development and planning					

4.	10.3(5)	The construction work of the zoo is going on. The zoo should take care of natural landscapes of the zoo and animal enclosures should not be masked and the cleanliness and hygiene of the zoo should not affect.	Immediately	Under renovation	Phase-II enrichment work is in progress.
4. Animal housing, display of animals and animal enclosures					
5.	10.4(1)	The new enclosure being constructed should be nature immersing since the zoo is housing reptiles, so to take care of sufficient sunlight, the temperature controlling devices and equipments should be placed for the safety of animals.	Immediately	Under renovation	
6.	10.4(2)	The construction work of the zoo is going on since long. The animals of the zoo are temporarily housed in small enclosures which do not meet the design and dimension prescribed by the CZA for housing these animals. The work of the new enclosure should be done on pace and should complete at the earliest. In the mean time zoo should take care of the animal housed and ensure that they do not get stressed due to housing in small enclosures.	Immediately	Under renovation	
7.		On the left side of the entrance of the zoo, there is an old abandoned enclosure. As per the master (layout) plan peacock enclosure is approved on this location. The old enclosure is not in bad shape; hence it is suggested to modify the enclosure in place of demolishing the same after approval of the design from CZA. The design should be submitted to the CZA for approval.	Immediately	Under renovation	
8.	10.4(6)	The zoo should provide species specific enrichment artifacts to meet the behavioral needs of the animals in the enclosures.	Immediately	Under renovation	

9.	10.4(9)	The live hedge should be developed between the viewing area and standoff barrier in the newly constructed enclosures.	Immediately	Under renovation	
10.	10.4(10)	The zoo should place appropriate bilingual signage's (Hindi as primary language) displaying adequate detailed scientific information about species.	Immediately	Under renovation	
5. Upkeep and health care of animals					
11.	10.5(5)	The provision of footbath should be made at the entry and exit point of each enclosure which is being constructed. Further, the footbath should have provision of proper disinfectant.	Immediately	Under renovation	
12.	10.5(6)	The food and water samples should be tested periodically for microbiological, toxicological and any other contaminants at recognized laboratory.	Immediately as not done in the past.	Periodically samples are checked.	
13.	10.5(8)	The vaccination and de-worming is being done, however, the schedule for the same should be prepared and displayed at the enclosure and strictly be followed.	Immediately	After completion of enrichment, the schedules will be strictly displayed at the enclosures.	
14.	10.5(9)	The zoo staff handling the animals should be screened against zoonotic diseases at least once in a year and the record should be maintained.	Immediately	Zoo staff will be screened periodically against zoonotic diseases.	
15.	10.5(10)	The keeper's diary, daily reports, animal history cards and treatment cards should be prepared as per the specified standards / format of the CZA.	Immediately	All reports are maintained.	
6. Veterinary and infrastructure facilities					
16.	10.6(1)	The zoo should take up the modification/ construction of the zoo hospital unit as per approval of the CZA.	Six months	Under renovation	

17.	10.6 (5)	A zoo should depute a Veterinary support staff as whole time employee.	Immediately	Whole time veterinary support staff deputed.	
-----	----------	--	-------------	--	--

7. Postmortem and disposal of carcass of animals

18.	10.7 (2)	The finding of the post-mortem examination should be recorded in the CZA prescribed format and records should be maintained for atleast six years.	Immediately	All records are maintained	
19.	10.7 (2)	The zoo should also install an incinerator for disposal of animal carcasses in a manner that does not have any adverse impact on the hygiene and cleanliness of zoo.	Six months	Incinerator is available at PCMC Veterinary department.	

10. Research activities

20.	10.10 (1)	There are numbers of education institute in the Pune city. The zoo should encourage local students of these educational institutions to take up research studies.	Six months	Under renovation	
-----	-----------	---	------------	------------------	--

11. Education and outreach activities

21.	10.11 (1)	The zoo should develop an annual calendar to take up educational activities for the awareness and conservation of wildlife to general public and students etc. the objective can be achieved through by involving local educational institutions or with the help of educated volunteers. The various environment and wildlife days should be celebrated at the zoo by inviting the school students.	Immediately	Zoo celebrated Wildlife Week during October 2019 in blind and deaf organization and local educational institutes.	
-----	-----------	--	-------------	---	--

12. Visitor Facilities					
22.	10.12 (1)	The zoo should have the facility of cloak rooms and kiosk for the visitors.	One year	Under renovation	
23.	10.12 (3)	The zoo should also make provision of the wheelchair and ramps for providing the access of better viewing of the animals by the 'Divyangjan'.	Immediately	Wheel-chair is available. Ramps are under renovation stage.
