**(H.V. Madbhushi)
Divisional Manager
Gorewada Project, Nagpur**

**WILDLIFE RESCUE CENTRE, GOREWADA PROJECT,
NAGPUR**

**Annual Report for the Year
2021-22**

1. **Report of the Officer-in-charge :** Wild life Rescue Centre Gorewada Nagpur is the only rescue centre in India. Which has tie up with Maharashtra Animal Husbandry and Fisheries University for veterinary care of Animals and wild life research and training centre.

The University appointed 3 subject specialist at rescue Centre, for full time works.

Following Surgical Instruments are purchased for the treatment, research and handling of the Wild Animals as molecular kit, Snake Rescue kit, Branded License free two way radio system, supply and installation of real time PCR for Wildlife Research and training centre, supply and installation of thermal cycler PCR for WRTC, supply and installation of gel documentation system for WRTC, Micro centrifuge high speed table top refrigerated centrifuged for WRTC, Biosafety cabinet Class II, Type B2' for WRTC Olymplus Binocular 10x50s, Display board of purchase of administrative building and WRTC, CCTV and Radiography cage for WRTC, are installed at Hospital for observation, study and research and for control of the wild animal kept in the kraal of the Rescue Centre. The habitat enrichment works are done in kraal area.

Inadequate financial powers is a limiting issue for Officer in Charge of the Rescue Centre, Gorewada.

2. **History of the Rescue Centre :** In the year 2005, Government of Maharashtra had taken a decision, in principle, to set up an International Standard zoo and Bio Park at Gorewada (Nagpur, Maharashtra) on 1914 ha. of forest land vide its resolution (G.R) No. WLP-1099/C.R.89/F-1 dated 12 Dec 2005. Principal Chief Conservator of forest (wildlife), Maharashtra State, Nagpur had submitted a proposal to establish a zoo and rescue centre vide PCCF (WL) M.S. Nagpur's letter no. Desk 22 (6)/Plan/1044/2009-20 dated 03.02.2010. Accordingly a detailed project report (DPR) was prepared by M/S Bernard Harrison & Friends Ltd and revised by Forest Development Corporation of Maharashtra (FDCM) Ltd, Nagpur. The DPR was submitted to Central Zoo Authority (CZA) for scrutiny and its approval. The DPR along with Master Layout Plan was examined by expert group on zoo design of CZA. Later on the proposal was examined by the technical committee of CZA, the meeting of which was held on 22 March 2013.

The Government of Maharashtra obtained the approval of Hon'ble Supreme Court to establish a new zoo and rescue centre at Gorewada.

3. **Vision :** A journey through the forests with animals and birds is compliment to conservation, education, awareness and recreation. The proposed Zoo of international standards will be integrated attractions which will house various animal species in innovatively created areas thus attempting to establish one of its kinds Zoo thereby making the sightseer's visit a lifetime experience. This zoo will be a showcase of nature for the visitors.

4. **Mission :** The Park will volunteer natural conservation, scientific research, and public education of the floral and faunal species of great importance of Gondwana land. The place will conduct enlightening activities for the visitors to bring betterment in their outlook towards animals. The Gorewada Zoo will be a combination of entertainment, education and science of zoos, aquariums, botanical gardens, etc. all put at one place.

5. **Objective :** A professionally run zoological park serves a variety of roles to benefit both the animals, its houses and the visiting public. Carefully planned breeding programmes can help propagate endangered species and continue gene pools for species whose habitats have been obliterated. Pure as well as applied research on animals in captivity can benefit not only the animals in the zoos but also in the wild. Educational programmes can help foster the respect that wild animals deserve and familiarize the visitors with the important role these

animals play in the ecosystem. Large scale habitat destruction has resulted in the extinction of many species. Zoos may have to serve as the last bastion for threatened and endangered species.

The zoo shall work for the conservation of the rich bio-diversity of the state to the following objectives:

- To promote wildlife conservation (Scientific breeding of endangered species and releasing them into wild).
- Care and rehabilitation of injured, sick and orphan wild animals.
- To collect and collate the scientific data on the biology, behaviour and health care of various species of wild animals housed in the zoo and use the same in future management of the zoo.
- To assist in conservation of the in-situ population of various species of endangered animals and their habitat by sensitizing the people.
