ELEPHANT RESCUE CENTRE  
BANSANTOUR YAMUNA NAGAR (HARYANA)**

**Annual Report  
2017-18**

**Report on the activities of Ch. Surinder Singh Elephant Rescue Centre, Bansantour, Yamunanagar for the period April 2017 to March 2018 is provided with supportive pictures of events. Status of compliance of conditions communicated vide CZA letter No. 20-5/2013-CZA(513)(AK)/3045/2016 Dated 23/11/2016**

**Prepared by-  
Sh. Shiv Singh  
Divisional Wildlife Officer  
Panchkula**

## **Report of the Officer incharge**

Dear Readers,

Construction work of Elephant Rescue Centre was started on 8-7-2008 after the MOU was signed between SOS and Forest Department Haryana.

The main objective of establishment of Elephant Rescue Centre is housing, rehabilitation, rescue, treatment, care and conservation of Abused, Rescued, Captive, Performing, Displaced, seized or confiscated elephants by the State Forest and Wildlife Department over 50 acres of land.

As per the Plan of the Elephant Rescue Centre we have constructed ten elephants shed, two pacca ponds for elephants, feed store cum kitchen, residence of Manager, 2 Wildlife Guards huts and 5 Mahavat quarters. One kuchcha pond also has been constructed. Walking trails on elephants have been cleared for exercise and walking of elephants. The area of ERC has been enclosed by installation of solar power fence.

During 2017-18 the Elephant Rescue Centre has been facilitated with 3 treatment pans constructed for the routine checkup and treatment of elephants. The open area of the ERC has been planted with fruit bearing and shady plants species which form the natural habitat of elephant in a planned manner.

At present there are 3 female elephant cows. All these have been seized under cases registered under Wildlife (Protection) Act 1972. All the animals are fit and healthy. As the Elephant Rescue Centre has been constructed in natural elephant habitat, the animals must be enjoying at ERC.

We have successfully provided good facilities to its animals. I take this opportunity to thank Wildlife SOS for their technical support and everyone who has dedicated their time and hard work supporting me towards the development of the ERC.

Divisional Wildlife Officer  
Panchkula

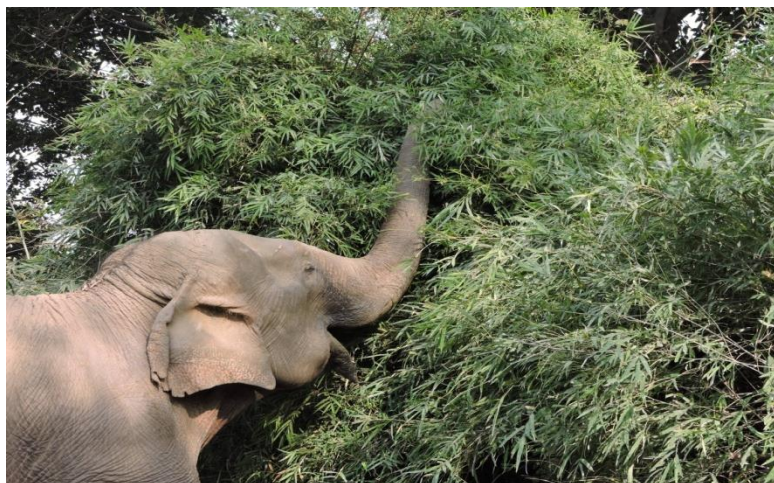

**2. History of the Elephant Rescue Centre** – The Ch. Surinder Singh Elephant Rescue Centre is situated in Bansantour jungle of district Yamunanagar, Haryana and is a project undertaken by the Haryana Forest Department, Govt. of Haryana in collaboration with Wildlife SOS, a charitable society registered under the Societies Registration Act of 1860 and with support from Ministry of Environment and Forests (MoEF) under Centrally Sponsored Scheme, “Project elephant”, to bring much needed support and protection to India’s captive Elephants. The ERC currently houses three female elephants that were rescued from the state of Haryana and brought to the centre in April 2013. These elephants were confiscated and rescued from a person who was keeping them in illegal custody in violation of the provisions of Wildlife Protection Act, 1972 and were brought to the ERC for proper treatment and lifetime care. They were very weak and stressed when they arrived at the centre. These females are old and prone to various health problems. They are thus being given high quality and quantity of feed along with the optimum veterinary care to help them regain and maintain their health.

**3. Vision -**

To rehabilitate astray, injured, abused, exploited, maimed, orphaned, trapped, sick or treated in cruel manner by owners or handlers/mahouts and also such elephants that are held in legal custody with improper or incomplete ownership papers.

**4. Mission-**

To provide natural habitat to the elephants which were deprived of their right and kept under miserable conditions by their owners or handlers.

## 5. Objective-

1. Our basic objective is to maintain the Elephant Rescue Centre and to provide healthy environments to animals.
2. To provide better facilities to sensitize the local people about wild animals.
3. To collect and collate the scientific data on the biology behavior and health care of animals housed in the Elephant Rescue Centre and use the same in future management of the ERC.

**28. Compliance with conditions stipulated by the Central ERC Authority**

Status of compliance w.r.t. conditions conveyed by Central Zoo Authority vide their letter no. 20-5/2013-CZA(513)(AK)/3045/2016 Dated 23/11/2016

S.No.	Norm No.	Conditions Stipulated	Status of compliance
<b>1.</b>	<b>General Requirement</b>		
1	1(5)	The Rescue Centre does not have any boundary wall or elephant proof trench on its periphery though it is surrounded by the villages. It is presently having power fence as barrier, which is not sufficient. The centre should have boundary wall of 2 meter high on its perimeter as barrier to safeguard the animals and local public	An amount of Rs. 200.00 lac was demanded from the Central Govt. but not released.
2	1(7)	The faecal matter is not disposed off hygienically at present. The same is dumped next to animal shelters. It should be dumped away from animal night houses and proper hygiene should be maintained.	The faecal matter is being disposed properly and vermi – compost is being prepared from it.
<b>2.</b>	<b>Administrative and Staffing Pattern</b>		
3	2(1)(2)	The Rescue Centre does not have adequate staff for the upkeep and maintenance of elephants. Presently the Centre head is Sub-Inspector and he has been assigned many other duties other than the upkeep of Rescue Centre. The Centre should have adequate personnel as prescribed by the CZA.	Independent Sub Inspector has been posted at ERC Bansantour
4	2(2) 6(3)	The tranquilizing equipment is stored in residences. The same should have been stored in veterinary clinic or room or laboratory. Veterinary Officer is not available at Centre daily, at the same time, there is no other person to handle the tranquilizing equipment in case of any emergency. The Veterinary Officer should be posted full time at the	Veterinary Officer has been provided by SOS

		Centre who has experience in handling the tranquilizing equipment. Necessary medicines should also be stored at the Centre	
<b>3.</b>	<b>Development and Planning</b>		
5	3(1)	The Rescue Centre operator has not prepared any Master (layout) Plan of the existing facility. The same should be prepared along with Master Plan for its long term development and should be submitted to CZA for its approval.	Master plan is being prepared
6	3(7)	The Rescue Centre has been housing 3 animals and is in process to accommodate more elephants. Quarantine/isolation area be provided, as mandatory under the Rules. The Ch. Surinder Singh Elephant Rescue Centre, Bansantour may house a total of 20 (twenty) Indian elephants at the existing site, subject to compliance of the guidelines as prescribed by the Central Zoo Authority.	Matter is in process
<b>4.</b>	<b>Animal housing, display of animals and animal enclosures</b>		
7	4(2)(3)	The animal sheds/night houses do not have ramp to climb, the same should be provided with ramps made to <i>kuccha mud</i> .	done
8	4(6)	No enrichment has been provided in the Animal Shelter houses. The animal shelter housed should be enriched keeping in view behavioural and biological requirements of the elephants.	done
<b>5</b>	<b>Upkeep and Healthcare of animals</b>		
9	5(2)	Water tanks installed in each animal shelter are not filled with water for elephants to drink during night hours. Presently the elephants are provided drinking water through the tap of the water tank. The elephants should be provided 24x7 potable water in the adequate quantity and through adequate size	done

		of water troughs.	
10	5(2)	The Centre does not have any water storage facility. The same of adequate capacity should be provided.	done
11	5(2)	The Rescue Centre has been purchasing the fodder from outside and the same is not being tested for its quality before the same is offered to the Elephants. The same should have got checked by the Veterinary Officer for pesticides, toxins of any other chemicals, randomly and periodically. It should be followed with immediate effect.	done
12	5(10)	The Rescue Centre operator has been maintaining the Animal History Sheets for each elephants housed at the Centre. No Keeper Diary is being maintained. The same should be maintained as prescribed by the CZA immediately.	done
<b>6</b>	<b>Veterinary and infrastructure facilities</b>		
13	6(1)	The Centre does not have any veterinary care lab, room or medicine or medical equipment room. The same should be made available.	done
<b>7</b>	<b>Visitors facilities</b>		
14	12(2)	The Centre should have first aid facilities including snake anti-venom and life saving drug, readily available in the premises.	first aid facilities available
<b>General conditions</b>			
15		All elephants housed at the Centre have a bell tied in their neck, as is commonly seen in temple elephants, the same should be removed.	done
16		The chain used for tying the elephants in animal shades in not covered by the leather or plastic pipe. The same should be covered appropriately.	done

17		The angles used in the Animal Shelter houses are left with sharp corners, which may hurt the animals, therefore, the same should be rounded off.	done
18		The supporting poles of animal house have been broken by the elephants; the same should be got rectified immediately.	done
19		The ground water provided to the elephants for drinking is not tested by the Rescue Centre authorities. The same should be got tested.	done
20		The staff quarters are located within the premises of elephant paddock areas; there is no barrier or boundary wall to separate the same. There should be boundary wall of 2 meter high separating the residential area. No staff should have their residence/ stay in the Rescue Centre.	done
