Odisha.

Annual Report for the year
2017-2018

1. Report of the Officer-in-charge

Cuttack the millennium City of Odisha, enjoys various cultural heritages. Strictly speaking Cuttack is not a pure City but a village City. The city is flanked by the river Mahanadi on one side and its tributary Kathajodi on the other side. Thus the space available for the city dwellers is very limited, and it is just sufficient for human habitation. The city dwellers badly need recreation to heave a sigh of relief from the busy life. The C.M.C undoubtedly has created number of Parks and Gardens to increase the aesthetic value of the City and more so for the recreation of the people of the City from various walks of life. The C.M.C has done a splendid job in creating and establishing a Deer Park at Madhusudan Nagar, Tulasipur, Cuttack over an area of 2 acres. The Deer Park was dedicated to the people of the City on LSG Day in the year 1981. The main objective behind the creation of the Deer park is to show case the gift of nature so as to entertain the people of various age groups for relaxation of their mental worries to lead a healthy life being free of stress and strain.

The Deer Park was established initially with only Six(6) spotted Deer brought from Nandankanan. Owing to rapid proliferation their number has reached to 190 as on 30.06.2018 and apparently the space of the Park is not adequate for the present population. As per direction of the Central Zoo Authority (CZA), efforts in right earnest are being undertaken by the C.M.C to relocate the Park considerably over a bigger and better area near munduli over an area of 57 Acres.

At present the fauna spotted Deer (AXIS aXIS), is not at all endangered in their natural habitat. Apart from the recreational values there are people who are really interested to study the animal habitat, behaviour, veterinary care, food habit of the animals and so also the breeding aspects.

2. History of the Zoo

To conserve the Ecology and provide recreation all facilities to the City Dwellers, the Cuttack Municipal Corporation setup a Deer Park in the year 1981 with Six(6) Deer Procured from Nandankana. The said Park was dedicated for the people at Cuttack on local self Govt. Day 31.08.1981. Keeping par with the passing of time the population growth has reached with Male-71, Female- 106 & Fawns- 14.

3. Vision

Conservation of flora, wildlife of Mahanadi eco-System.

4. Mission

Conservation, Education & Research.

5. Objective

Recreation, Education & Conservation.

6. About us

S. No.	Particulars	Information
