1. Report of the Officer-in-charge

People For Animals, Wardha animal centre is a non-granted organization established in 1999 with the aim of provide safe shelter & medical treatment for the animals in need. In this financial year we rescued numbers of wild animals, some of them released in their natural habitat. Below data is based on our record book, and given information is true as per my information.

2. History of the Rescue Centre

People For Animals (PFA), Wardha was established in 1999 to provide safe shelter, medical treatment and food for the animals in distress, and to relocate them at a later stage. PFA Wardha, Unit were established in the year 1999 by a Group of Friends who was interested in Preservation of fauna and flora in Wardha district.

3. Vision

- ✚ Multispecialty Hospital
- ✚ Additional wildlife enclosures
- ✚ Aviary
- ✚ Herpetarium
- ✚ Mobile Ambulance
- ✚ Mobile ICU van for small animals
- ✚ Heavy crane for shifting animals
- ✚ Additional animal care sub centre

4. Mission

To provide safe shelter, medical treatment and food for the animals in distress, and to relocate them at a later stage.

5. Objective

- Preservation of fauna and flora in Wardha district.
- Protecting animals from conflict with human beings.
- Provide succour and medical treatment to the abandoned and wounded animals.
- Providing shelter for abandoned, wounded and rescued animals.
- Rescuing wildlife animals which are in danger.
- Undertaking tree plantation programs.
- To work in collaboration with Central Zoo Authority, Animal Welfare Board of India and local Forest Department to protect wild animals.
- Organizing awareness programs to educate the villagers and urban population about the importance of conserving nature and not to resort to killing of animals without any reason.

6. About us

7. Organizational Chart of the Rescue Centre

8. Human Resources deployment for management of Rescue Centre(Officer in-charge to Animal Keeper - Sanctioned posts, in-position and vacant posts)

Human Resources of the Rescue Centre*

Sr. No.	Designation	Number of Sanctioned Posts	Names of the incumbent
1.	Human resource In-charge	1	Sumit S. Bharal

*Please give abovementioned information in respect of all Rescue Centre personnel, from the Officer in-charge up to the Animal Keeper.

9. Capacity Building of Rescue Centre personnel

Sr. No.	Name and designation of the Rescue Centre personnel	Subject matter of Training	Period of Training	Name of the Institution where the Training attended
1.	Ashish goswami (Officer in-charge)	Conservation of endangered species	20 Days (year 2015)	Durrell, United Kindom
2.	Kaustubh Gawande (Curator)	Financial assistance for specialized theme based training program for zoo keepers as a capacity building measures on regional basis.	10 days (year 2018)	Sakkabaug Zoo, Junagadh, Gujrat
3.	Dr. Sandip Joge (Veterinary officer)	Training for microsurgery	8 days (year 2018)	Government veterinary collage, Chennai.
4.	Monika Kangale (Biologist)	People Biodiversity Register	20 days (Year 2019)	Pench National Park

10. Rescue Centre Advisory Committee –

a. Date of constitution

15 April 2003

b. Members

1. Prabhakar Pusadkar
2. Dr. Tarak Kate

c. Dates on which Meetings held during the year

29 July 2018

11. Health Advisory Committee of the Rescue Centre –

a. Date of constitution

15 April 2003

b. Members

- Dr. Ankush Dubey (Veterinary Consultant)
- Dr. Abhijit Boratane (M.D. Medicine)

c. Dates on which Meetings held during the year

29 July 2018

12. Statement of income and expenditure of the Rescue Centre.

Rescue centre working under People For Animals, wardha unit organization.
Organizational audit report attached separately.

13. Daily feed Schedule of animals

Sr. No.	Species	Feed item	Quantity		Day of fasting
			Winter	Summer	
1.	Blue bull	Green fodder including vegetable.	9-10 Kg.	7-8 kg.	Saturday
2.	Black buck	Green fodder including vegetable.	3-4 kg.	2-3 Kg.	Saturday
3.	Langur	Vegetable including fruit.	1-2 Kg.	1-1.5 Kg.	Saturday
4.	Peafowl	Vegetables, mix grain, chicken	200-300 grams.	100-200 grams.	Saturday
5.	Cockatoo	Sprouts including fruits.	200-250 grams.	150-200 grams.	Saturday
6.	African gray parrot	Sprouts including fruits.	200-250 grams.	150-200 grams.	Saturday
7.	Green amazons parrot	Sprouts including fruits.	200-250 grams.	150-200 grams.	Saturday

8.	Leopard cub	Chicken liver	-----	280-300 grams.	Saturday
9.	Rose ringed parakeet	Sprouts including fruits.	100-150 grams.	50-100 grams.	Saturday
10.	Alexandrine parakeet	Sprouts including fruits.	200-250 grams.	150-200 grams.	Saturday

14. Vaccination Schedule of animals

Sr. No.	Species	Disease vaccinated for	Name of the Vaccine and dosage/ quantity used	Periodicity	Remarks
	.Hanuman langur, leopard, jackal, civet cat, Indian small civet cat, mongoose.	1.Rabies, 2. tetanus 3. Panlucopania, 4. Feline calci virus, 5. Feline herpes virus, 6. Canine distemper virus, 7. Infectious canine hepatitis, 8. canine parainfluenza, 9. canine parvovirus, leptostirosis.	Rabivac Tricat/Biofel Vanguard plus	Yearly and as per antirabies vaccination schedule recommended	As animal was accepted for treatment and temporary care, vaccination was done according to species if needed

15. De-worming Schedule of animals

Sr. No.	Species	Drug used	Month
	All species	As per identification of parasite after fecal sample examination by consultant veterinarian.	Nil

16. Disinfection Schedule

Sr. No.	Species	Type of enclosure	Disinfectant used and method	Frequency of disinfection
1.	Blue bull	Open enclosure with night shelter.	Fipronil solution (spraying)	Every three months or as directed by consultant veterinarian.
2.	Black buck	Open enclosure with night shelter.	Fipronil solution (spraying)	Every three months or as directed by consultant veterinarian.
3.	Langur	Closed enclosure with night shelter.	Fipronil solution/deltamethline alternate.(spraying)	Every three months or as directed by consultant veterinarian.
4.	Peafowl	Closed enclosure with night shelter.	Fipronil solution/deltamethline alternate.(spraying)	Every three months or as directed by consultant veterinarian.
5.	Cockatoo	Closed small cage.	Benzylamine hydrochloride solution. (diluted solution use for cleaning of cage)	Every three months or as directed by consultant veterinarian.
6.	African gray parrot	Closed small cage.	Benzylamine hydrochloride solution. (diluted solution use for cleaning of cage)	Every three months or as directed by consultant veterinarian.
7.	Green amazons parrot	Closed small cage.	Benzylamine hydrochloride solution. (diluted solution use for cleaning of cage)	Every three months or as directed by consultant veterinarian.
8.	Leopard cub	Small examination cage.	Benzylamine hydrochloride solution. (diluted solution use for cleaning of cage)	Every three months or as directed by consultant veterinarian.

9.	Rose ringed parakeet	Closed small cage.	Benzylamine hydrochloride solution. (diluted solution use for cleaning of cage)	Every three months or as directed by consultant veterinarian.
10.	Alexandrine parakeet	Closed small cage.	Benzylamine hydrochloride solution. (diluted solution use for cleaning of cage)	Every three months or as directed by consultant veterinarian.

17. Health Check-up of employees for zoonotic diseases

Sr. No.	Name	Designation	Date of Health Check up	Findings of Health Check up
1.	Ganesh Masram	Animal Keeper	Date not available (Health check up done personally by keeper Not by rescue centre)	Negative
2.	Prabhakar Fatale	Animal Keeper	Date not available (Health check up done personally by keeper Not by rescue centre)	Negative
3.	Niwal	Animal Keeper	Date not available (Health check up done personally by keeper Not by rescue centre)	Negative

18. Development Works carried out in the Rescue Centre during the year.

- **No development work was done during the financial year April 2018 – March 2019.**

19. Important Events and happenings.

A six months pilot project was conducted to trail the integration of human wild life information from two villages namely, Borgaon (Gondi) & Susund located under buffer area of Bor Tiger Reserve.

The project is a 6 months pilot program to find out the possible solutions to minimize human wild life conflict by using some natural techniques. The project commenced in October 2018 and ended on 31 March 2019. The project was executed by People For Animals, Wardha team. The whole project supported by SIR RATAN TATA TRUST under CSR fund.

Following Activity were covered in the Project.....

- **Awareness Campaigns:**

- a. Conducting awareness programs about crop insurance and compensation which they get from the Government for the damage caused to their crops on account wild animal attacks. In most of the cases, the villagers are not aware about the compensation which they get but simply they kill the wild animal or wound the animal to its fate (assuming the animal is dead). The villagers have to react to situations wherein they become face to face with wild animals. The methods to be adopted by the villagers in reducing their aggressive behaviour towards wild animals.

- b. Training programs on how to show compassion to animals means once an animal is wounded, the villagers should try to avoid to kill the animals and instead intimate the forest department/any NGO who can save the wild animal and also after sometime, the wild animal can be relocated in the forest.

- c. Laying of camera traps, training the village youth in informing the village folk within a reasonable time regarding the movement of a wild animal in the vicinity.
- d. To conduct survey of affected villages and rural communities wherein the incidences of human-wild life are repeated and to find out the reasons for the same.
- e. PFA envisages educating the rural communities regarding prevention and minimizing incidences of human-wildlife conflict, organizing field demonstration programs, video shows through PFA members and arranging workshops with the support of experts in the field.
- f. Few incidences of human-wildlife conflict are happening due to open defecation practices of villagers wherein they venture into the nearby fields before sunrise and sometimes after sunset. Educating them and making them aware how to apply for financial assistance from government agencies.
- g. Apart from the above interventions, PFA-Wardha would like to teach the villages how to protect their crops by using traditional and natural techniques to protect their crops from wild boar, blue bulls and spotted deer.
- h. Establishment of coordination between the personnel of forest department, volunteers and villagers in conducting awareness meetings, in dealing with instances of human- wild life conflict.
- i. PFA, not only intends to minimize the human- wildlife conflict but at the same to rescue the wild animals, save their life, provide them shelter and food along with required medical treatment so that the wild animal is fit for relocation in the forest, once again.

- j. To address the problems of human-wildlife conflict it is essential to train the local people. It is duty of forest department to frame the guidelines for management of human-wildlife conflict & publish the same in the local community.

- **Training programs:**

- ❖ Training for village youth regarding how to spread information amongst the village communities in case a wild animal is sighted.
- ❖ Providing first aid to human beings in case of injuries caused by animals.
- ❖ Training regarding construction of toilets, cattle sheds, rescue of animals, coordination with village heads and forest department officials etc.
- ❖ Conducting training program for maintenance of water holes inputs in the buffer zone to village youth and members of Joint Forest Management Committee.

20. Seasonal special arrangements for upkeep of animals.

- Provide rolling bottle feeder for peafowl.
- Scattering grains on the ground for peafowl.
- Frozen fruits provided during summer season.
- Provide some plants in herbivorous animals' cage.
- Special arrangement for birds by cover up the entire cage by joot bags to protect from during hot summer season.
- Provide warm light in bird cages during winter season.

21. Research Work carried out and publications

- N.A.

24. Mortality of animals

Sr. No.	Animal Name (with individual identification mark, if any)	Scientific Name	Sex	Date of Death	Reason of Death as per the Post-mortem findings
1.	Langur	Semnopithecus	Female	12/04/2018	Due to Shock
2.	Langur	Semnopithecus	Female	16/04/2018	Respiratory collapse
3.	Spotted deer	<i>Axis axis</i>	Female	18/04/2018	Severe bleeding
4.	Bluebull	<i>Boselaphus tragocamelus</i>	Female	16/04/2019	Die due to Shock
5.	Langur	Semnopithecus	Female	20/04/2018	Anaemic
6.	Langur	Semnopithecus	Male	11/05/2018	Respiratory collapse, aspiration of blood
7.	Langur	Semnopithecus	Male	13/05/2018	Severe injury & shock
8.	Spotted deer	<i>Axis axis</i>	Female	18/04/2018	Severe bleeding
9.	Bluebull	<i>Boselaphus tragocamelus</i>	Female	26/05/2018	Wounds & Shock
10.	Langur	Semnopithecus	Male	30/05/2018	Brain Injury
11.	Peafowl	<i>Pavo cristatus</i>	Female	09/06/2018	Due to haemothorax

12.	Langur	Semnopithecus	Male	08/06/2018	Due to starvation & severe pain
13.	Bluebull	<i>Boselaphus tragocamelus</i>	Female	10/06/2018	Severe wounds
14.	Peafowl	<i>Pavo cristatus</i>	Female	11/06/2018	Due to shock
15.	Bluebull	<i>Boselaphus tragocamelus</i>	Female	15/06/2018	Respiratory failure
16.	Leopard	<i>Panthera paradus</i>	Male	16/6/2018	Cardiac failure
17	Chinkara	<i>Gazella bennettii</i>	Male	23/06/2018	Respiratory failure
18	Peafowl	<i>Pavo cristatus</i>	Female	12/07/2018	Severe dehydration
19	Bluebull	<i>Boselaphus tragocamelus</i>	Female	12/07/2018	Respiratory failure
20	Langur	Semnopithecus	Male	26/07/2018	Due to shock
21	Langur	Semnopithecus	Male	19/08/2018	Due to shock
22	Barn owl	Tyot alba	U	07/09/2018	Cardiac pulmonary arrest
23	Langur	Semnopithecus	Male	16/09/2018	Haematogenic & Severe blood loss
24	Langur	Semnopithecus	Female	19/09/2018	Respiratory failure
25	Blue bull	<i>Boselaphus tragocamelus</i>	Female	2/10/2018	Cardio respiratory failure
26	Blue bull	<i>Boselaphus tragocamelus</i>	Female	10/10/2018	Respiratory failure
27	Bluebull	<i>Boselaphus tragocamelus</i>	Male	12/10/2018	Cardiac failure
28	Bluebull	<i>Boselaphus tragocamelus</i>	Female	16/10/2018	Cardiac pulmonary arrest
29	Bluebull	<i>Boselaphus tragocamelus</i>	Male	20/10/2018	Respiratory failure
30	Langur	Semnopithecus	Male	19/10/2018	Cardiovascular
31	Black buck	Antilope cervicapra	Male	22/10/2018	Respiratory & cardiac failure

32	Bluebull	<i>Boselaphus tragocamelus</i>	Female	25/10/2018	Cardiac pulmonary failure
33	Bluebull	<i>Boselaphus tragocamelus</i>	Female	05/11/2018	Circulatory failure
34	Bluebull	<i>Boselaphus tragocamelus</i>	Male	06/11/2018	Shock
35	Bluebull	<i>Boselaphus tragocamelus</i>	Female	11/11/2018	Aspiration respiratory failure
36	Bluebull	<i>Boselaphus tragocamelus</i>	Female	19/11/2018	Cardiac failure
37	Bluebull	<i>Boselaphus tragocamelus</i>	Male	23/11/2018	Hypovolemic shock
38	Sectacled cobra	Naja naja	U	26/11/2018	Respiratory & cardiac injury
39	Bluebull	<i>Boselaphus tragocamelus</i>	Male	30/11/2018	Due to shock
40	Bluebull	<i>Boselaphus tragocamelus</i>	Female	30/11/2018	Severe injured
41	Bluebull	<i>Boselaphus tragocamelus</i>	Male	12/12/2018	Shock and respiratory failure
42	Langur	Semnopithecus	Male	18/12/2018	Shock
43	Woolly naked stork	Ciconia episcopus	U	18/12/2018	Injury and Shock
44	Bluebull	<i>Boselaphus tragocamelus</i>	Female	21/12/2018	Injury and shock
45	Bluebull	<i>Boselaphus tragocamelus</i>	Male	27/12/2018	Respiratory failure
46	Langur	Semnopithecus	Female	1/1/2019	Shock
47	Bluebull	<i>Boselaphus tragocamelus</i>	Female	12/1/2019	Hypovolemic shock
48	Bluebull	<i>Boselaphus tragocamelus</i>	Male	8/02/2019	Pulmonary failure shock
49	Lesser whistling duck	<i>Denodrocygna javanica</i>	U	21/2/201	Cardio pulmonary failure
50	Bluebull	<i>Boselaphus tragocamelus</i>	Male	22/2/2019	Injury and respiratory failure

25. Compliance with conditions stipulated by the Central Zoo Authority

Sr. No.	Norm No. under RZR, 2009	Condition Stipulated	Time Period to Comply	Since when pending	Status with regard to compliance of the conditions
1.	1(1)	Exotic and Indian birds should be housed separately.	6 Months		Exotic and Indian birds housed separated.
2.	1(3)	Green buffer should be provided along both sides of the existing wall separating staff quarters and herbivore rescue facility.	3 Months		Green buffer for both sides of the existing compound wall is Completed.
3.	1(5)	The rescue centre should be surrounded by boundary wall of two meter high on side as located in the urban area.	6 Months		Boundary wall of 2mtr. High on sides as located in the urban area construction work is completed.

4.	1(9)	The domestic geese (15 Nos.) & guinea fowl (2 nos.) should be remove	Immediately		The domestic geese (15 Nos.) & guinea fowl (2 nos.) should be removed successfully
5.	1(9)	The gate opening towards the domestic animal shelter should be permanently closed, as the feral dogs were seen roaming in the Rescue centre premises. The rescue centre should have independent entry and exit.	3 Months		The gate opening towards the domestic animal shelter was Closed permanently.
6.	4(2)	The enclosure constructed to house the snake should be redesigned following the norms as prescribed by the CZA. Prior approval of the design should be obtain from the CZA	4 Months		Under process
7.	4(3)	The slope in the Nilgai enclosure seems to be steep, it should be made gentle	2 Months		The slope in the nilgai enclosure was covered with soil for proper feet gripping.

		by filling the adequate amount of soil.			
8.	4(6)	MS wire should not be used as enrichment instead wooden twigs, bamboo and natural material should be used and the food should be an elevated platform	1 month		MS wire removed successfully.
9.		The approved copy of master (layout) plan and master plan should be keep at the site itself.	Immediately		The approved copy of master (layout) plan and master plan kept at the site of rescue centre.
