## **1. REPORT OF THE OFFICER-IN-CHARGE**

Siddharth Garden Aurangabad Municipal Corporation Zoo is run by Aurangabad Municipal Corporation. Its Master Plan was approved in Dec. 2014. AMC has planned to modernize this zoo as per the standards laid by CZA. This zoo is trying to overcome some constraints for funding and vacant posts necessary for essential services in zoo. Management of zoo initiated implementation of Master Plan for upkeep of zoo and for filling the vacant posts. We plan to keep this zoo well maintained up to 2024 subsequently it will be relocated at a new site at Mitmita. This zoo will be relocated to a large area of 100 acres at Mitmita Gut No.307, which is 6 Km. away from the city. Plantation at new site has been started and we have initiated the procedure for preparation of Master Plan. Presently two tasks are taken in hand by this zoo; first is to implement the approved Master Plan of the zoo and second is to prepare Master Plan for the new site at Mitmita.

This zoo is unique in Marathwada region and is a major attraction of viewers as Aurangabad city is a tourist destination. Cleanliness of this zoo, good health of animals, adequate public amenities and public awareness along with zoo education activities has made this zoo popular among visitors. Last year over 5, 18, 300 tourists visited this zoo and the number of visitors is increasing every year. This annual report gives in brief various facts of the zoo which I hope will enthuse the visitors towards preservation and protection of wildlife. The staff of Siddharth Garden Aurangabad Municipal Corporation Zoo is dedicated to the protection of wildlife and their work is of exemplary nature. I would like to thank Shri.Ompraaksh Bakoria, Commissioner Aurangabad Municipal Corporation and Shri Nandkumar Ghodele, city Mayor who have left no stone unturned in making this zoo a prime tourist attraction with the present resources they have at hand.

With lot of conviction and zeal we move towards to etch a name for Siddharth Garden Aurangabad Municipal Corporation Zoo in the field of management and conservation of endangered fauna in captivity.

## **2. HISTORY OF THE ZOO**

Aurangabad Municipal Corporation established a small zoo during the year 1984, which was named Siddhartha Garden Aurangabad Municipal Corporation Zoo. This Zoo is located in the heart of the city near central Bus stand. The geographic location of this zoo is  $19^{\circ} 52'46''$  N,  $75^{\circ} 18' 57''$  E, previously sprawled over an area of about 14 acres. After approval of its Master Plan in 2014, Land from the Garden side has been increased to 34 acres to give adequate space to enclosures of animals housed in zoo. This was approved in General Body Meeting in AMC wide resolution no.574 and dt.18.08.2009. The main purpose of establishing this zoo was to exhibit and rescue the local animals. Initially small animals and local wild animals' species like Jackal, Wolf, Hyena, Monkey, Black Buck, Nilgai, Samber, civet cat, peacock were kept in zoo.

1990s onwards, the zoo transformed itself to preserve endangered species of animals, exhibit of wild animals, their conservation, public education and awareness. The part of this development brought in lion, the tiger, leopards, white tiger, elephant and bear to the zoo. Successive development of zoo continued under the esteemed guidance of Central Zoo Authority, New Delhi.

As a part of zoo education and awareness creation, Municipal zoo established a small 35 mm cinema theatre, called 'Vasundhara' in year 1995 for visualizing various wildlife films. Presently it is under repair and renovation. In the same year a "Snake park" was established in the zoo with due permission from Central Zoo Authority. 10 species of snakes, which include rat snake,

python, Russell's viper, cobra, common krait, trinket, earth boa etc. are under display in this snake park.

Aviary is also developed during year 1995 for Birds and Water birds having display for species like painted stork, spoonbill, Indian peacock and egret.

Alongside to above-mentioned species, presently the zoo displays 19 species of wild animals. Being a small zoo with limited area, zoo experienced certain difficulties in animal breeding programme as well as in accommodating new animal procurements. On the other side the popularity of the zoo has increased over the years, resulting in a manifold increase in the number of visitors. To encounter these difficulties, Aurangabad zoo had decided to extend the zoo premises by incorporating space of adjoining garden for further development. The Governing body accorded permission to this decision in their meeting.

As being a zoo located centrally in city, constraints of space and pressure of locality with sound pollution and adjoining drainage line, AMC decided to relocate this zoo at Mitmita Gut No.307 on 100 acres of land 6 Km away from city allotted by Revenue Department of Govt. of Maharashtra. AMC initiated plantation on the side and initiated procedure to prepared Master Plan of Safari Park and Zoo submitted to Central Zoo Authority. As Master Plan of present Zoo is approved by CZA for the period of 2014-2024 this zoo will be relocated at new site by 2024.

### **3. VISION**

Siddharth Garden Zoo intends to generate effective awareness among the people in creating a pro-environment lobby force for protecting endangered and native animal species along with conservation of the city's rich biodiversity to encourage future development.

### **4. MISSION**

To develop an ideal zoo with a focus on protection and conservation of animals, education for visitors, through a proactive interpretation approach.

### **5. OBJECTIVES**

The main objective of the management of zoos in the country is to aid and assist in conservation of wild animals and their habitat. The Zoo in conformity with the aforesaid trend shall work for conservation of the important species from Marathwada region specifically and Maharashtra state in principal. It will strive to achieve the following objectives;

- i. To undertake Captive breeding and an attractive display of common and endangered species from Marathwada and Western Ghats.
- ii. To Educate the zoo visitors on the role of modern zoos in wildlife conservation through appropriate signage, interpretive exhibits and an effective extension literature.
- iii. To conduct Research on the behavioural, biological and veterinary aspects of captive animals through regular internship batches of Veterinary College students from Parbhani and Udgir Veterinary College.
- iv. To sustain a lifetime care facility for animals.
