1. Director's Note...

I am pleased to present the Annual Report of the National Zoological Park, New Delhi for the FY - 2019-20. The present day National Zoological Park, New Delhi made its humble beginning as the Delhi Zoological Park with 212 acres of area, in the year 1959. The main objectives of the National Zoological Park are to create awareness amongst the people about the protection of the endangered wildlife, Conservation Education, Research and provide a healthy and inexpensive recreation to people of Delhi and its neighbouring areas.

National Zoological Park is contributing a lot to the cause of preservation, research, breeding and education of endangered species.

NZP organized several programmes in the zoo like conservation awareness programs, awareness campaign etc. Like every year, we celebrated the Van Mahotsav this year too, in which we planted hundreds of saplings in different areas of the zoo premises.

It is important to mention that the zoo during this period, was headed by Smt. Renu Singh, IFS and Dr. Suneesh Buxy, IFS. Dr. Buxy was in additional charge after the relieving of Mrs. Singh on dated 18.10.2019. I took over as Director NZP on 01.06.2020.

This year has been challenging for the zoo management because of COVID – 19 pandemic. Managing zoo with minimal staff support and consistent application of sanitization drill put all zoo officials and staff on their toes. Nevertheless zoo could witness many positive changes during this period.

I appreciate the hard work of zoo employees, their cooperation and participation of all sections for compilation of this Annual Report.

I also appreciate Mr. Riaz Ahmad Khan, Curator (Edn.) for compilation of the Annual Report carried out meticulously.

Ramesh Kumar Pandey, IFS
Director, National Zoological Park

2. History of the Zoo

The National Zoological Park, New Delhi is one of the premier zoos of the country. It is popular destinations in the Delhi - NCR discharging its responsibility to help people appreciate, understand nature and wildlife better. The park is now more than Sixty years old and it's about time to review the facilities and services provided to general public. The National zoological Park should be a top of the mind educational and recreational facility in the region. It is in this context the vision and mission have been redefined as under:

In India, at the time of independence, there was no zoo in Delhi. The 'Indian Board of Wildlife (now National Board for Wildlife) which was constituted in 1951 laid stress on establishment of zoos in larger cities of the country in its first meeting in 1952.

Accordingly, an ad-hoc committee with some prominent nature lovers of Delhi, including Smt. Indira Gandhi, was constituted under the Chairmanship of Chief Commissioner, to formulate a proposal for establishment of Zoological Park for Delhi. Mr. E.F. Bowring Welsh, Secretary of the Society for Prevention of Cruelty to Animals was appointed as its Secretary. The committee met on 9th September, 1953 and approved the site between Purana Quila and Humayun's Tomb for the purpose. It also prepared an outline of the project.

Central Government was to provide necessary finance and get the project executed through Delhi state Govt., however express and its inability to undertake the scheme and suggested that the park be developed by Central Government, and shall be handed over to them in running condition to the Delhi Government. Since wildlife was managed by the Forest Department, first implementing official was drawn from Forest Service. Shri N.D. Bachkheti, an Indian Forest Service Officer of Uttar Pradesh was appointed as Superintendent on 1st October 1955.

Major Weinmann, the then Director of Ceylon Zoological Garden, Colombo was invited to help draw a detailed plan for development of the Park. He submitted a report along with a preliminary plan. As he was not available for continued consultations, it was decided to seek the services of Mr. Carl Hagenbeck, owner of the famous Animal Park at Hamburg, West Germany, who gave the idea of open moat enclosures.

The Park was formally inaugurated on 1st November, 1959 by Shri Punjab Rao Deshmukh, Hon'ble Minister, Government of India. This Park was initially known as Delhi Zoo. In the year 1982 it was given the status of the National Zoological Park with the idea of it being the model zoo of the country.

Here at the National Zoological Park, birds and animals live in an environment that in many ways resemble their natural habitat. The National Zoological Park not only provides a home for endangered species, but also helps them to breed in captivity. Eventually they may once again thrive in the wild.

3. Vision

In twenty-year, time of Master Plan period the visitor experience will be far more rewarding and enriching than it is today. Quality of animal care exhibits, conservation education and sustainable management practices will take the zoo to the next level. The 'National Zoological Park' (NZN) will truly be the Nation's Zoo in terms of state of art facilities and management practices. It will be role model in the country for other zoos to seek guidance and inspiration.

NZN shall also endeavour to breed endangered species through organized breeding programs for the purpose of display, exchange and rehabilitation in wild. NZN will be a top of the mind educational and recreational facility in the region.

4. Mission

- (a) To generate awareness and compassion in the society towards wildlife and to garner their support for the national conservation effort.
- (b) To play an effective role in reducing man animal conflicts in urban landscape.
- (c) To play an effective role in species preservation.

5. Objectives

Objective of the park was to provide a healthy and inexpensive recreation to people of Delhi and its neighbouring areas. It was further realized that, conservation education and research on Wild animals can best be imparted through the zoo.

25. Conservation Breeding Programme

CZA has identified about 70 endangered species for conservation breeding. It was felt that Indian Zoo should have at least 100 properly and scientifically bred individuals of each endangered species in captivity, to act as an insurance cover in case of population loss of species in wild.

At present, This Park is participating zoo for the conservation breeding for the following species:

- a) Asiatic Lion
- b) Indian Rhinoceros
- c) Sangai Deer
- d) Red Jungle Fowl
- e) Bengal Tiger

In order to achieve above objectives, CZA has identified coordinating and participating zoos in India. They have been asked to construct appropriate enclosures for targeted species. National Zoological Park, New Delhi has successfully bred number of endangered animals and birds.
