The evaluation report of the Bondla Zoo Usgaon, Goa was placed before the Technical Committee of the Central Zoo Authority in its meeting held February 10, 2022 and after deliberation it was decided to grant the renewal of recognition to Bondla Zoo, Usgaon Goa for a period of one year up to March 08, 2023 under Section 38-H (1), (3) & (4) of the Wild Life (Protection) Act, 1972, the Recognition of Zoo Rules, 2009 and extant guidelines of the CZA and further subject to the compliance of the conditions stipulated below and a mid-term evaluation.

Sr. No	Norm No.	Particulars of suggestions/recommendation	Time Period to Comply
1.	General require	ements	
	The perimeter boundary must be completed. As the zoo exists within the wildlife sanctuary and surrounded by forest, there is no need of having a perimeter barrier. However, 7 chain-link fencing above ground may erected as perimeter barrier all around zoo area.		6 months
	The Zoo should provide a proper waste disposal system for treating the liquid wastes and water discharges generated in the Zoo and must be incorporated in the masterplan. There should be waste disposystem having no adverse impact on the		3 months

		environment				
2	Administrative ar	nd Staffing Pattern				
	10.2(2)	The zoo shall have an official with masters' degree in Wildlife Sciences or Zoology as a full-time curator solely responsible for looking after the upkeep of animal and maintenance of animal enclosures.	3 months			
	10.2(2)	.2(2) A full time Biologist and education officer and veterinarian must be employed by the zoo for the scientific management and animal care.				
3	Development and	I				
	10.3(1)	The zoo should prepare and get the comprehensive Master Plan approved by the CZA.	Immediately			
	The Herbivore (Spotted Deer, Sambar, Chowsinga, Black buck), enclosure should be made as per the CZA norms with appropriate design approvals.		immediately			
	10.3(6)(d)&(8) The zoo should submit information to the CZA about the rescued animals that pertains to an endangered species. Paperwork for all species acquired on rescue must be completed and reconciled with appropriate information to CWLW and CZA		Immediately			
	10.3(7)	Zoo shall not accept any rescued animals unless it has appropriately designed enclosures and upkeep facilities for the animals as well as facilities for keeping it in isolation during quarantine period	Immediately			
	10.3 (8)	When the zoo decides to accept any rescued animal for housing a detailed report regarding the source from which the animal has been received, legality of acquisition and facilities available at the zoo for housing upkeep and healthcare shall be sent to the Chief wildlife warden of the state. Provided that in case the rescued animal pertains to an endangered species a copy of	,			

	the report shall also be sent to CZA						
4	Animal Housing and D						
	10.4(1&2&6)	The enclosures of Wild boar, Gaur, Sloth bear, Black buck and Sambar, Spotted deer, Civet, Jungle cat and snakes need to be improved with appropriate isolation, kraals and well ventilated night cells as per CZA norms to meet the, biological requirements of the animals.	6 months				
	10.4(3)	6 months					
	10.4 (8)	Immediately					
	10.4(9)	Immediately					
5	Upkeep and healthcare						
	10.5(1)(g)	One year					
	10.5.(2) (4 & 5) Meat handling by staff should be done by wearing clean and disinfected boots and overalls and gloves should be used for handling meat		Immediately				
	All herbivore enclosures should have a provision of multiple feeding areas and water dispensers and isolation areas for the animals with kraal		One year				
	10.5(10)	Zoo shall maintain detailed records of observation of biological and social behaviour and health status of the animals including food intake, medication and treatment provided in the keeper's diary, daily reports, animal history cards and treatment cars as per standards specified by the Central Zoo Authority	immediately				

6	Veterinary and infrastructure facilities								
	10.6(3)	Zoo should have a post-mortem room for conducting necropsy (post mortem), quarantine and isolation ward as per the CZA Guidelines.	Immediately						
	10.6(5)	Immediately							
	10.6(6)	Immediately							
7	Post mortem and disposal of carcasses								
	10.7 (2)	Immediately							
	10.7 (3)	In the event that the PM is inconclusive, the zoo authorities shall send samples of the tissues, organs blood and viscera for further examination to a qualified diagnostic lab for further investigation and identifying cause of death	immediately						
	10.7(4)	Zoo shall ensure that carcasses of the animals after PM has been conducted is disposed off by burying or burning in a manner that does not have adverse impact on the zoo and surroundings	Immediately						
9	Acquisition and Breeding of animals								
	10.9(6)	As the zoo been identified as a participating zoo for conservation breeding of Gaur, the Gaur enclosure also needs expansion, enrichment, isolation areas and may be even creation of another enclosure at an appropriate location to house the animals identified for CBP	Within 1 year						

	10.9(9)	To safe guard against uncontrolled growth in the population (eg wild boar, sambar) the zoo should adopt appropriate population control measures.	
	The zoo should acquire mates for single animals (Sloth bear, Lady Amherst Pheasant, Jackal) on priority basis.		Immediately
10	Research Activities		
	The zoo should Implement a research plan and conduct research on the prioritized species and specific areas of concern.		6 months
11	Outreach activities		
	10.11	The zoo should have education and outreach activities for conservation education of the visitors of the zoo.	6 months

A half yearly report regarding progress made in the implementation of the aforesaid conditions should be submitted to the Central Zoo Authority.

The recognition of Bondla Zoo Usgaon Goa for the period beyond March 08, 2022 would be considered on the basis of compliance of the conditions stated above.

The recognition of Bondla Zoo Usgaon Goa shall be revoked by the Central Zoo Authority, at any point of time, if the zoo operator is found not complying with the stipulated conditions.

This is issued with the approval of the competent authority.

Yours sincerely,

Akanksha Mahajan

Dy Inspector General Of Forest

3. Application letter No. 1-238-CZA/WL&ET(N)/17-18/1081 dated 24/26.07.2017 received from the Dy. Conservator of Forests, Wildlife & Eco-Tourism (North), Panaji, Goa.

4. This office letter F. No. 19-28/92-CZA(78)(Vol. V)(AK)/2425/2018 dated 13.02.2018.

Sir.

Reference is invited to above cited correspondence. It is to inform that the evaluation of the Bondla Zoo, Bondla-Usgao, Goa was carried out by the undersigned on 16th and 17th February, 2018. The evaluation report of the Bondla Zoo, Bondla-Usgao, Goa was considered by the Technical Committee in its 85th Meeting held on 23.03.2018. After detailed deliberations, the Technical Committee of the Central Zoo Authority decided to grant renewal of recognition of Bondla Zoo, Bondla-Usgao, Goa for a period of one year. A copy of the evaluation report is enclosed with this letter for your kind perusal and needful action.

The Committee members also desired that Bondla Zoo, Bondla-Usgao, Goa (small category zoo) to submit time bound commitment for compliance within 30 days of communication of the observations of the evaluation report and half yearly compliance report subsequently.

The renewal of recognition to the Bondla Zoo, Bondla-Usgao, Goa as a "Small Category Zoo" as per the provisions of Section 38H(1) of the Wild Life (Protection) Act, 1972 is for a period up to 22.03.2019 subject to the compliance of the following directives under the **Recognition of Zoo Rules (RZR), 2009** and mid-term evaluation of the zoo and regularise the period after 28.02.2017:-

Sr. No	Norm Particulars of suggestions/recommendation under RZR, 2009		Time Period to Comply
•	1. Gener	al requirements	
1	10.1(4)	As the zoo exists within the wildlife sanctuary and surrounded by deep forest, there is no need of having a <i>pucca</i> wall as perimeter barrier. However, 7-8 ft. high chain-link fencing may be erected as perimeter barrier all around 39 hectares of zoo area.	One year
2	10.1(2)	The giant squirrel enclosure should be enlarged.	Immediately
3	10.1(7)	The Zoo should provide a proper waste disposal system for treating both the solid and liquid wastes generated in the Zoo. There should be waste disposal system having no adverse impact on the environment.	Immediately

Continued.

	2.	Administrative and Staffing Pattern	
4	10.2(2)	The zoo shall have an official with masters' degree in Wildlife	One year
		Sciences / Zoology as a full time Curator solely responsible for	
		looking after the upkeep of animal and maintenance of animal	
		enclosures. It is a small zoo. There should be one Curator and	
		one Biologist. The Officer-in-charge of the zoo and the Curator	
		are two separate posts.	
	3.	Development and Planning	
5	10. 3(1)	The zoo should prepare and get the Master Plan approved by the CZA.	Immediately
6	10. 3(3)	The pucca buildings including the visitor facilities needs to be	Immediately
		properly camouflaged and located in such a manner that the	
		natural landscape of the zoo have not been masked and the	
		cleanliness and hygiene of the zoo is not been affected due to	
		such animal enclosures/structures.	
7	10. 3(3)	The Spotted Deer enclosure should be made proper as per the	
		CZA norms.	
8	10. 3(6)	A collection plan of animals to be housed and displayed in the zoo	Immediately
		should be prepared. The plan should be prepared keeping in view	•
	1	due regard to the availability of land, water, electricity and climatic	
		condition of the area.	
9	10.	The zoo should submit information to the CZA about the	Immediately
	3(6)(d)	rescued animal that pertains to an endangered species.	,
	4.	Animal housing, display of animals and animal enclosures	
10	10.4(1&2)	The Zoo is situated within the Bondla Forests and has thick	One year
		vegetation which acts as the nature immersing environment for the	•
		animals. The enclosures are large. The paddock areas are mostly	
		desolate and rocky, generally devoid of ground vegetation, with	
		sparse trees. Massive enrichment measures are required. The	
	1	enclosures of Wild boars, Bison, Tiger, Leopard, Sloth bear, Black	
		buck and Sambar needs to be improved.	
11	10.4(2)	The enclosures for snakes shall be designed to meet the biological	One year
		requirements of the animals. The nocturnal species enclosures	
		(porcupine and civets) shall be provided with darkened shade for	
		animal's privacy.	
12	10.4(3)	The safety features both for visitors and animal keepers have to	One year
		be upgraded as the night shelters are close to the visitor path and	•
		there is no proper animal keepers gallery in most of the enclosures.	
		The Zoo requires a complete overhaul for the safety and security	
		of the animals, animal keeper's and visitor's. There is ample	
		space for the movement of animals except in few enclosures having	
		space for the movement of animals except in few enclosures having surplus animals like Wild boar, Bison and leopard.	
13	10.4(6)	space for the movement of animals except in few enclosures having surplus animals like Wild boar, Bison and leopard. Snakes, Civets & Crocodile enclosures requires species-specific	One year

		•	
14	10.4(6)	 a) The Zoo enclosures require drastic modification and improvement to enrich the paddock area and night shelters in order to comply with the standard of CZA. b) Wild boar, Tiger, Bison, snakes and crocodile enclosures need to be improved structural modification in night shelters. 	One year
15	10.4(8)	The zoo has constructed, without prior approval of the Central Zoo Authority, new cells for reptiles which are not as per specifications prescribed by the CZA. It should be made as per the CZA norms. No enclosure for endangered species should be constructed without prior approval of the CZA.	One year
16	10.4(9)	All the animal enclosures in the Zoo should be provided appropriate stand-off barriers and adequate warning signs for keeping the visitors at a safe distance from the animals.	One year
17	10.4(9)	The zoo should plant hedge between the standoff barrier and the paddock wall.	One year
18	10.4(10)	Every enclosure in the zoo should bear a sign board in bilingual language displaying scientific information about biology and behavior etc. of the animals exhibited in it.	One year
	5.	Upkeep and healthcare of animal	
19	10.5(1)(g)	The zoo should has provision of secondary holding areas for safe movement of animals from primary enclosures for cleaning/feeding/medical procedures.	One year
20	10.5(3)	The meat house should be made fly proof.	Immediately
21	10.5(3)	Zoo should install a freezer of adequate capacity for storage of meat products.	Immediately
22	10.5(3)	The Store house for food should be made rodent proof and storage conditions of feed items need improvement to make it damp proof,.	Immediately
23	10.5(4)	All herbivore enclosures should have a provision of a small enclosure cum shelter where feed is to be provided to the animals.	One year
24	10.5(4)	The Zoo should provide secondary holding areas for safe movement of carnivores from primary enclosures for cleaning / feeding / medical procedures etc.	One year
25	10.5(2)(3)		Immediately
	6.	Veterinary and Infrastructure Facilities	
26	10.6(3)	Zoo should have a post-mortem room for conducting post mortem as per the CZA Guidelines.	Immediately
27	10.6(5)	The Zoo should have one qualified lab assistant/ compounder to assist the veterinarian in healthcare of the Zoo animals.	Immediately
28	10.6(6)	Zoo should have a formal MoU on health care with the nearest veterinary institution and the MoU should contain names and contact details of person who will assist the Zoo in all aspects in health care management.	Immediately

PART-III

Rule 10: Standards and Norms subject to which recognition under section 38H of the Act shall be considered.

lorm lo.	Condition	Detailed status of im enclosure specific re	
		To be filled by the Zoo Director	Comments of the Evaluating Officers
1. G	eneral requirements		
1	Does the zoo make efforts to maintain population of physically, genetically and behaviourally healthy animals for furthering the cause of wildlife conservation and communicating credible conservation message to the visitors?	Yes	Yes
	b) If not please specify cases where it is violated? * Only in cases where stud books are maintained	O [#] \	
	(c) If any introduction of new blood has been made after last evaluation to increase the genetic viability of animals.	No	No
2	Whether any endeavour has been made for proper landscaping and planting of appropriate species done to provide a naturalistic environment within the zoo?	Yes	NO
3	(b)If not indicate cases of deviation. (a)Whether the movement of visitors in the zoo has been regulated in such a manner that zoo animals are not unduly disturbed?	Yes	Yes
	(b)Is the zoo closed to visitors at least one day in a week?	Yes	Yes
	(c)Which day?	Monday	Yes
4	(a)Whether the zoo has appropriate barriers along the boundary of the zoo in accordance with the standards issued by the Central Zoo Authority, as a safeguard against the unregulated access of visitors to the zoo and zoo animals and being subjected to injury, pilferage and predation?	Partly Complied 500 mts completed.	Not completed
	(b) If not which stretch and its length?	S#2	
5	(a)Is the zoo surrounded by human landscape?	No	No
	(b)If yes, whether encompassed by a perimeter wall of at least two meter in height from the ground level on both sides?	De:	
6	(a)Is there residential colony constructed within the zoo premises?	No	No
	(b)If yes, whether separated by wall from the zoo premises by a boundary wall with a minimum height of two meters from the ground level?	*	
	(c) Is the entry to the residential colony through the zoo premises?	No	NA
7	(a)What are arrangements for managing solid and liquid waste and storm water?	Soak pits are provided behind each enclosure for liquid waste. Solid leftovers are picked up physically and disposed in crocodile pond in sanctuary. Organic matter undergoes composting Plastic waste sent for recycling.	Solid leftovers are being picked up physically and disposed in crocodil pond in sanctuary, which is not an appropriate and environmentally acceptable way of disposal.
	(b) Is it adequate?	Yes	No
	(c)What are the short comings?		There should be waste disposal system having no adverse impact on the environment.
8	(a) Is the zoo displaying sick, injured, infirm and tethered animals to the visitors?	No	No
	(b) If yes, what are the species and each of their number?		
9	a) Is the zoo housing domestic animals within the zoo premises?b) Is there adequate safeguards in place to prevent the entry of domestic livestock, stray	No Yes	No Yes
	animals and pets into the zoo premises?	n

-	(d) Details thereof.	<u>-</u>	
5.	Upkeep and healthcare of animals		
5.1	Enclosures and animal facilities (a) Whether the animals in its collection are maintained in socially and behaviorally viable groups?	Yes	Yes
	(b) If any animal is separated from the group, the justification for the same and whether the animals, so separated, have been housed in accordance with standards specified by the Central Zoo Authority in this regard.	7 L	Yes
	(c) Whether the food containers and water bowls are cleaned and disinfected on daily basis?	Yes	Yes
	(d) Whether grills and floor of feeding cells, night shelters and chain link fence of outdoor enclosures are being disinfected on routine basis.	Yes	Yes
	(e) Whether perches and shelves are cleaned regularly and kept free of faeces and urine?	Yes	Yes
	(f) Whether dirt substrates in outdoor planted exhibits are racked and spot- cleaned periodically?	Yes	Yes
	(g) Whether the zoo has provision of secondary holding areas for safe movement of animals from primary enclosures for cleaning/ feeding/ medical procedures?	Not yet	No
	(h) Provision of footbath of adequate size with proper disinfectant at entry and exit points of animal house is provided or not?	Yes	Yes
	(i) Whether the indoor exhibits have separate ventilation system between exhibits and visitors area to reduce the potentials of disease transmission, in case of reptile and nocturnal animal houses?	Yes	Yes
	(j) Whether the drainage system is covered properly and away from animal houses?	Yes	Yes

	Nutrition and food hygiene		
	General 1. Are the animals ensured timely supply of:		
	(a) adequate quality feed as per species specific diet of such a composition and in such quantities that nutritional and physiological requirement of each animal is fully met and no animal remains under-nourished on account of dominant animals not permitting other animals getting their share of the feed?	Yes	Yes
1	(b) Is round the clock supply of potable water to all the animals is ensured?	Yes	Yes
Ì	2. Whether inventory of daily received and distribution record of food items is	Yes	Yes
ŀ	maintained? 3. Whether the storage conditions of the food items are appropriate (free from moisture,	Yes	No
-	moulds and pests)? 4. Whether the food storage facilities and working platforms are cleaned and disinfected	Yes	
	on regular basis? 5. Whether the regular inspection of food items is being done for its quality and		Yes
	freshness and transported hygienically to the respective enclosures?	Yes	Yes
1	Whether random food and water samples are being tested periodically for microbiological, toxicological and any other contaminants at recognized laboratory	Yes	Yes
	Carnivore food and hygiene 1. Whether the meat house is fly proof and pest free and located at a reasonable distance from the feed store and kitchen?	Fresh meat is taken from Abattoir which is within 8 kms from zoo	No
	2. Whether the zoo maintains strict hygienic conditions in the entire food stream, from the butchery to feeding platforms in order to prevent food contamination and overgrowth of potential pathogenic bacteria?	Yes	Yes
	3. Whether the zoo has a sufficient size functioning freezer in the meat processing facility for storage of meat products and to keep cold until it is fed?	Fresh meat is procured everyday from Govt Meat Complex, Usgao.	No
	4. Whether the meat handlers entering the facility change into a clean and disinfected boots and coveralls?	They use footbaths.	Yes
Ī	5. Whether the meat handlers use clean gloves when handling the meat?	yes	Yes
	6. Whether the meat preparation facility is thoroughly cleaned and disinfected on regular basis after the meat preparation is completed?	No meat preparation is done. Only dressed meat is procured	No
r	7. Whether there is a covered drainage system to prevent wastes and water from the	Yes	Yes
	meat preparation facility from draining onto the ground surrounding the facility where foot traffic will carry pathogens around and where wildlife may become exposed to the waste?	165	Yes
	Whether the meat is fed on a clean and disinfected surface and at a time when the animal will consume it at quickly as possible?	Yes	Yes
	Whether the keepers use clean gloves, if they handle the meat prior to feeding?	Yes	Yes
-	Food distribution	Yes, food is	Yes
	(a) Is the timing of distribution of food, placement of food and way of distribution of food to the animals regulated in such a manner that the animals get maximum opportunity to express natural instincts and skills and behaviour related to feeding?	distributed to various enclosures at around 4 pm every day. Monday is day of fasting.	Tes
	Removal of unused feed and excreta	Yes, cleaning is	Yes
1 (Are the left over feed, excreta of animals and all other wastes are removed promptly from the feeding cells and kraals and the feeding cells and kraals are washed and disinfected as per the advice of the authorized veterinary officers and the solid and the iquid waste generated during the process are disposed off in such manner that has no adverse impact on the hygiene and cleanliness of the zoo and the landscape surrounding the zoo?	done every morning after animals are leftout into enclosures from night shelters.	
	a) In which cases improvement is recommended?	Hippo as emptying entire tank of water is not possible on daily basis.	Not required dail cleaning
(b) Are the dimensions and designs of the feeding cells and kraal as per the standards specified by the Central Zoo Authority?	The feeding cells/night enclosures are old structures and require renovations.	No
	c) Cases of deviation, if any?	Old enclosures which are awaiting	
	fisual observation on daily activity pattern of animals and preventive healthcare	dismantling.	

(b) Are the animals handled only by the staff having experience and training in handling the individual animals?	Yes	Yes
(c) Whether periodical health monitoring of animals have been carried out regularly?	Yes	Yes
2. If any animal shows any sign of dullness, loss of appetite, injury or abnormal behaviour: is the animal thoroughly assessed and provided medical attention promptly as per the standards specified by the Central Zoo Authority in this regard from time to time and the direction of the zoo administration?	Yes	Yes
3. Is every zoo animal screened for parasitic loads as per written schedule prepared by the zoo in consultation with the veterinary officer and prophylactic medicines administered as per clinical requirements and vaccination of animals against infectious diseases are also done, as per the schedule prescribed by the Veterinary Officer from time to time?	Yes, only for clinical cases.	Yes
4. Whether the zoo have written schedule of vaccination and de-worming of different species of the zoo animals and displayed at the enclosure site?	Yes	Yes
5. Does the zoo maintains detailed records of observations of biological and social behaviour and health status of the animals including feed intake, medication and treatment provided in the keeper's diary, daily reports, animal history cards and treatment cards, as per standards specified by the Central Zoo Authority?	Yes, all documents are maintained.	Yes
6. Are all staff involved with upkeep and healthcare of zoo animals screened against zoonotic diseases once every year and those found positive to any communicable disease are provided appropriate treatment till they get cured and become free of the infection and during the period of such treatment, the infected employees are kept away from the responsibility of upkeep and healthcare of the animals?	Yes	Yes
7. Whether the zoo has clause of employing a zoo keeper temporarily ailing for usefully utilizing them elsewhere in the zoo in the intervening period.	Yes	Yes
8. Every zoo should have formal linkages through a MoU on healthcare, preventive, health management, surgical interventions, clinical tests, disease diagnosis and consultation in treatment and management during the period of convalescence.	Disease Investigation Unit of Directorate of Animal Husbandry and Veterinary Services and Veterinary unit ICAR Goa helps in	Yes
(a) Whether the zoo has any such MoU with the nearest veterinary institution?	Goa helps in processing pathological samples as and when required. No formal MoU but	No
(a) Who short the 200 has any such thee with the hearest veterinary institution:	regular with DIU, Veterinary Dept & ICAR, Old Goa.	No
(b) Whether the MoU contains names and contact details of person/ persons to be	N.A.	No

1	Post morton facilities	Drenged upon	Na
	Post mortem facilities 1. Does the zoo; unless it is mini zoo have a modern post mortem room, equipped with sufficient light and post mortem equipment?	Proposed upon approval of Master Plan	No
	2. Whether the zoo veterinarian has specialized knowledge and skills in wildlife pathology?	Yes, acquired by experience	No
	3. Is there availability of pathology support from nearest veterinary institution to provide specialized capabilities and consultation particularly for post mortem of an endangered species requiring definitive diagnosis and collection of samples in a scientific way and as per protocols required by reference laboratories / veterinary institute?	Yes. Disease investigation Unit, Dept. of Veterinary Services and ICAR Goa	Yes
	4. Does every animal dying in the zoo is being subjected to a detailed post mortem examination by registered veterinarian to determine conclusively the cause of the death?	Yes	Yes
2	Are the findings of the post-mortem examination referred to in sub-paragraph (1) recorded in such format as have been prescribed by Central Zoo Authority in this regard and is it maintained for a period of not less than six years?	Yes	Yes
3	1. In the event of the post mortem being inconclusive and no specific reason for death is identified, do the zoo authorities send the samples of the tissues and organs, blood, viscera etc. for further examination to the qualified diagnostic laboratory having adequate specialization for further investigation and identifying the cause of death?	Yes	Yes
	Whether the post mortem report is corroborated with other diagnostic findings in consultation with specialized reference laboratories / veterinary institutions?	Not yet done	No
4	Does the zoo ensure that the carcasses of the animals, after the post-mortem has been conducted, is disposed off by burying or burning in a manner that does not have any adverse impact on the hygiene and cleanliness of the zoo?	Yes as per CZA and ministry guidelines	Yes
	a) Are the carcasses of large cats disposed off by burning in the presence of Director of the zoo or any officer in the next rank to him and authorized by him in this behalf?	Yes	Yes
	b) Are the carcasses of animals which died due to Anthrax or such other communicable diseases not opened and subjected to post-mortem, as a safeguard against spread of the disease and they are buried intact?	No such cases detected in past.	NA
3. E	uthanasia		
1	No animal in the zoo shall be euthanized unless doing so is essential for relieving from suffering from incurable disease /condition as per the norms of CZA.	Such an eventuality has not arisen.	NA
3. A	equisition and breeding of animals		
1			
	Are animals of various species kept and maintained in social viable groups and with such a sex ratio that optimizes breeding and helps in developing a self-sustaining population of each species?	Yes. The population of Sambar, Blackbuck and Wildboar is however in excess at present.	Yes

ſ	been prepared or not? If the plan is being followed by the zoo?		
	c. Is the Conservation Breeding Facility situated in off display area of the zoo?	Not yet.	No
	d. Has the founder population of the species bred in zoo, indicate numbers bred in the zoo?	Yes No. of Zoo born Gaurs: 08 Leopards: 02 Sloth Bear:02	No
	e. Have the animals been conditioned for reintroduction in the wild?	No such attempt made	No
	f. Has there been sufficient technical inputs from the species experts? Please elaborate the responsibility of conservation breeding of the identified critically endangered species to identified zoos having technical capabilities and housing facilities, preferably close to the distribution range of the species and every zoo shall help the identified zoos in implementing the breeding programme. Please indicate specific cases for the zoo.	Not yet attempted	No
7	Has the zoo spared surplus animals from the breeding population to the participating zoos for display purposes on the basis of quality of housing and infrastructural facilities available with the concerned zoos?	Yes, Gaur has been given to Vishakhapatnam Zoo, Sloth Bear cubs to Mysore Zoo	Yes
3	With a view to prevent inbreeding and the loss of heterozygosity is the zoo maintaining the animal history cards & stud and herd book for the animals of endangered species housed in the zoo and putting appropriate identification marks for transfer or exchange animals with other zoos?	Yes Stud book information for Gaurs is furnished to WII, Dehradun.	Yes
Ð	a. Is the zoo limiting the number of animals of each species within the limits set by the animal collection plan of the zoo by implementing appropriate population control measures like segregation of sexes, vasectomy, tubectomy and implantation of pellets etc., with due consideration of the health and welfare of the animals and interest of their long term survival? Please indicate species wise numbers over the last three years.	There is an excess population of Sambars, Blackbuck and Wild boars at present.	No
10	b. What methods of population control were employed and comparative success? Has the zoo implemented disaster management plan, training and mock drills to prevent accidents in zoo in accordance with master plan?	Not yet deployed Yes	None Yes
	Indicate action taken for safeguard against any accident/ escape of the zoo animals from the premises of the zoo and in the event of any accidental escape, immediate action was taken to retrieve the escaped animals?	CCTV coverage given to all enclosures.	Yes
1	Has the zoo released any surplus captive animal into the wild except in accordance with the norms specified by the Central Zoo Authority in this regard? Annex details	Not yet	No
2	Is the hybridization of species or races of same species taking place in the zoo? Which species?	No	No
	Research Activities		
1	a. Has the zoo implemented a research plan as indicated in the Master Plan and conducted research on the prioritized species and specific areas of concern?	No	No
	b. Has the zoo accessed grants form CZA or other institutions/agencies for the Research Project. Indicate details and outcomes?	No	No
	c. Is the zoo carrying out collaborative research for evolving innovative strategies for providing the animals housed in the zoo a better quality of life, enhanced longevity, higher genetic and behavioural viability and improved reproduction potential and to achieve the said goal. (Every zoo, other than mini zoos, shall make arrangements for meticulous recording of data on the social behaviour, group dynamics and reproductive biology of the species housed in the zoo and developing a data base to be shared with other zoos and the identified institutions, in accordance with norms specified by the Central Zoo Authority in this regard)	Not yet.	No
	d. Research paper/ technical reports published. Details of its implementation. Education and Outreach Activities		
i.	a. Has the zoo made efforts to educate the visitors to the zoo and the people at large about the significance of wildlife conservation for the general well-being of the people and	Yes, awareness camps being held	Yes
	played by the zoos in this regard and the ways and means through which general public can participate and contribute for the same?	for students, local self-help groups and specially able students.	
	b. Whether the zoo has appropriate signages and interpretation facilities, Souvenir Shop, Library Facility accessible, dedicated Website and carrying out the Outreach and awareness, Guided Tour, celebrations of various events	Yes, signages and library exists other aspects to be considered.	Yes
	Is physical handling or performances by animals permitted as part of educational activity?	No	No
_	isitor Facilities		
	Is the zoo providing adequate civic facilities for visitors at appropriate and convenient places in the zoo including physically disadvantaged persons and such facilities are so located that they do not mask or impact the view of enclosures?	Yes	
	PRO 041 041 041 041 041 041 041 041 041 041	Yes	Yes
114		. 03	103

	b. Urinals	Yes	Yes
1	c. Ramps	Yes	Yes
	d. Wheel chairs	Yes	Yes
	e. Battery Operated vehicles	No	No
	f. Lawns	Yes	Yes
	g. Visitor shed	Yes	Yes
	h. Kiosks	No	No
	i. rain shelters	Yes	Yes
	j. cloak rooms for the visitors	No	No
	k. zoo visitor guides	No	No
	Public Announcement systems, fire alarm during emergency.	No	No
12.2	Does the zoo have first aid facilities including snake anti-venom and life saving drugs, readily available in the zoo premises?	Yes	Yes
12.3	Is the zoo making arrangements for providing access to the physically challenged persons for viewing wild animals at various animal enclosures?	Yes	Not in all enclosures and at the civic facilities.

PART-IV RECOMMENDATION (On the basis of observations of the status as per Recognition of Zoo Rules, 2009)

10.1(4) As texacoreists with the wide is enrotusy or discuss. From the control of harring pixed wall as perimeter barrier brakers, "As high chartist from group was executed approximately and provided a provider barrier of an unual 39 hectares of zoo area 500 metres chain link fence is completed. Balance pending for financial constraints." 10.1(7) The goal squirrel enclosure should be enlerged. Immediately constraints. Immediately department of the zoo. GOVERNMENT OF INDIA MINISTRY OF ENVIRONMENT & FORESTS

THROUGH REGISTERED POST

F. No. 19-28/92-CZA(78)(Vol. IV)(M)

DATE: 19.02.2014

To

The Director Bondla Zoo, Usgao, PO: Ponda Panaji – 433 001 (Goa).

Sub:- Grant of renewal of recognition to the Bondla Zoo, Goa under Section 38H of the Wild Life (Protection) Act, 1972 beyond the period of 31.08.2013.

Sir,

Reference is invited to your application received on 03.06.2013 seeking renewal of recognition to the Bondla Zoo, Goa under Section 38H of the Wild Life (Protection) Act, 1972 beyond the period of 31.08.2013.

The evaluation of the Bondla Zoo, Bondla, Goa was carried out on 14.11.2013 by Sh. P. C. Tyagi. The evaluation report submitted by the evaluating officer, which was not very encouraging was considered by the Technical Committee in its 68th Meeting held on 11th February, 2014

The Central Zoo Authority has decided to grant of renewal of recognition to Bondla Zoo, Bondla as <u>a Small category Zoo</u> under Section 38H of the Wild Life (Protection) Act, for a period up to <u>28th February, 2017</u> subject to the compliance of the following directives under the Recognition of Zoo (Amendment) Rules, 2013 and mid-term evaluation of the Zoo:-

S. No.	Relevant Schedule No.	Conditions	Time Period to comply the conditions
1. Ge	eneral		di-
surrounded by having a pucca v 7-8 ft. high chair perimeter barrie boundary is part kms. in length a		The zoo exists within the wildlife sanctuary and surrounded by deep forest, there is no need of having a pucca wall as perimeter barrier. However, 7-8 ft. high chain-link fencing should be erected as perimeter barrier all around zoo area. The zoo boundary is partially fenced by concrete wall 1.25 kms. in length and the balance 2.8 kms. is yet to be chain —link fences.
