4. Application vide letter No.5143 dated January 13, 2021 from the DCF, Hamirpur Wildlife Division

Sir,

With reference to above, the undersigned is directed to inform that recognition of the Dhauladhar Nature Park, Gopalpur, Himachal Pradesh under Section 38-H of the Wild Life (Protection) Act, 1972, was valid till March 22, 2020. Application dated January 13, 2021 received in this office from the DCF, Hamirpur Wildlife Division, for renewal of recognition. Shri Rashmi Kant Shukla, IFS (Retired), evaluating officer/s deputed by this office has evaluated the zoo on March 4 and 5, 2020. Copy of the Evaluation Report is enclosed herewith for your perusal and needful action.

2. Evaluation Report of the Dhauladhar Nature Park, Gopalpur was placed before the Technical Committee in its 96th Meeting held on July 30, 2020. The Technical Committee, after detailed deliberation, made its recommendation to the Central Zoo Authority.

3. This office issued Office Memorandum F.No.7-10/2020-CZA(PART-I) dated August 25, 2020 regarding renewal of recognition of the zoo. Subsequently, the Central Zoo Authority, in its 37th Meeting held on December 7, 2020, in exercise of powers conferred under sub-section (1), (3) and (4) of Section 38-H under the Wild Life (Protection) Act, 1972, approved recommendation of the Technical Committee.

4. The Central Zoo Authority has regularised the period after March 22, 2020 and renewed recognition of the Dhauladhar Nature Park, Gopalpur as a Small Zoo for a period up to **August 19, 2022** subject to compliance with following conditions as per the Recognition of Zoo Rules, 2009 (RZR) and mid-term evaluation of the zoo.

Sl.	Norm No. under RZR	Condition	Time period to comply
1. General requirements:			
1	10.1(2)	Tall plants of local forestry species should be planted inside the enclosures with specific objective of enrichment based on habitat and animal behaviour.	One year
2	10.1(5)	The perimeter wall of 2m height along the nallah boundary should be constructed with spiral bladed fencing on the top for proper protection of the Zoo.	One year
3. Development and Planning:			
3	10.3(3)	The enclosures of all the animals need to be developed or revamped as per the approved Master (Layout) Plan. Prior approval of designs should be obtained from the CZA.	Two years
4. Animal housing, display of animals and animal enclosures:			
4	10.4(2)	Natural landscape should be developed in enclosure housing Turtle, Pheasantry, Leopard etc. using vegetative and natural materials like Logs, Stones etc	Six months
5	10.4(2)	The Black Bear enclosures should be shifted immediately to newly proposed location so that proper environment is provided to the Black Bears.	One year
6	10.4(3)	The Zoo should have fire-fighting equipment in case of fire accident in the zoo. The zoo should also conduct mock drills for disaster management.	Three months
7	10.4(2)	The zoo should develop/ modify the enclosures as per the Master (Layout) Plan and get it approved by CZA in time bound manner so that the animals are house in more nature friendly enclosures and in natural landscape.	One year
8	10.4(2)	The Black kite enclosure needs major improvements. The area is congested and lacks bathing facility and sun basking area. The Himalayan Griffon, Black Kite & Steppe Eagle should be housed in different enclosures with proper partition to avoid any disturbance or incitement to each other.	One year
9	10.4(2)	The Black kite should be immediately shifted to another enclosure and the partition present in the present enclosure should be removed so that adequate space is available for Himalayan Griffon.	Three months

Sl.	Norm No. under RZR	Condition	Time period to comply
10	10.4(6)	The Zoo shall enrich the enclosures as per the habitat and behaviour of the animal species housed.	One year
11	10.4(10)	Well-equipped Indoor Interpretation facility should be created to create awareness among the public about the wildlife and Zoo animals.	Six months
5. Upkeep and healthcare of animals:			
12	10.5(6)	The Zoo Director should ensure that the Veterinary Officer periodically visits the CHC.	Immediately
13	10.5(6)	The zoo should deploy Animal keeper in each enclosure so that proper cleaning and hygienic care of the animals can be taken.	One year
14	10.5(6)	The Zoo should have round the clock surveillance system for effective monitoring and security of the animals in all the enclosures.	Six months
15	10.5(8)	The disinfection schedule prepared should be displayed outside each enclosure for proper monitoring of healthcare of the animals.	Immediately
16	10.5(9)	All the staff handling animals should be screened against zoonotic diseases at least once in a year and records should be maintained.	Every year
6. Veterinary and infrastructure facilities:			
17	10.6(1)	A Zoo Hospital should be constructed at the earliest so that proper medical facilities for the Zoo animals can be provided.	One year
18	10.6(2)	One full time pharmacist should be deployed to assist the Veterinarian during medical care of the animals.	One year
19	10.6(3)	Isolation and quarantine facility should be made available immediately for treatment and care of rescued animals.	One year
20	10.6(6)	The Zoo should sign an MoU with Animal Sciences University to promote research activities in the Zoo.	One year
9. Acquisition and breeding of animals:			
21	10.9(2)	The Zoo Director should take the matter of exchange of surplus animals with CZA and other Zoo Directors in the country so that the surplus animals are disposed of.	Three months
22	10.9(9)	To safeguard against ill effects of inbreeding and population increase in Sambhar in the zoo, the population of Male & Female should be separated and enclosed in different enclosures	Three months
10. Research activities:			
23	10.10	The Zoo biologist should prepare research papers/reports on the behaviour studies of the Zoo animals based on the daily observations recorded the zoo staff.	One year

Sl.	Norm No. under RZR	Condition	Time period to comply
12. Visitors' facilities:			
24	10.12(1)	The Zoo should have proper Ticket counter cum Information centre for proper facilitation of the visitors.	One year
25	10.12(1)	The parking facility should be developed by expanding the present parking area so that proper regulation of tourist vehicle can be done.	One year
26	10.12(1)	The Zoo should also have a cloak room adjacent to the Ticket counter so that the visitors carry minimum baggage inside zoo and efforts must be made to avoid any eatables and plastic items inside the Zoo.	One year
27	10.12(2)	The Zoo Director should ensure that the Snake anti-venom is available in the Centre at all the time.	immediately
Rule 11. Maintenance of records and submission of inventory:			
28	11(1)	The exotic birds housed in the zoo should be included in the inventory and reported to CZA in Annual Inventory report.	Immediately

5. A compliance report to the Central Zoo Authority on implementation of the aforesaid conditions shall be submitted by the zoo within three months of issue of this letter followed by half-yearly report.

6. The renewal of recognition of the Dhauladhar Nature Park, Gopalpur for period beyond August 19, 2022 as a Small Zoo would be considered on the basis of compliance of the conditions stated above and general performance of the zoo.

7. The recognition of the Dhauladhar Nature Park, Gopalpur shall be revoked by the Central Zoo Authority at any point of time if the Zoo Operator is found not complying with the stipulated conditions.

This issues with approval of the competent authority.

Encls. As above

Yours sincerely

(Dr. Sonali Ghosh)

Deputy Inspector General of Forests

		environment. (b) The water turf may be provided in the saucer shape in the cubicles. (c) Squeeze cage may be provided in Lions and Leopard enclosures.	Immediately One year		complied squeeze cage in lion is made Only in leopards squeeze cage is left to be constructed	Complied Partially complied
8		The young bear cub rescued from the wild may be placed in off display area with minimum human touch so that it can be considered for releasing back to wild in consultation with Chief Wild Life Warden at an early date.	Immediately		complied	As stated
Visitors facilities						
9		The visitors facilities viz., kiosks, dustbins etc. may be provided at the appropriate distance.	Six months		complied	Partially Complied Kiosks facility shall also be made available
10		The visitors path should be clearly indicated and restricted upto the public "right of way" and other side of the "public right of way" may be used for off-display facilities.	Immediately		complied	Complied
11		Effort should be made to maintain the keepers' diary by the keepers for the animal enclosure entrusted to them.	Immediately		complained	Not complied
12		The Collection Plan should be prepared as per the approved Concept Plan.	Immediately		Has been incorporated in the Master Plan of the zoo	Complied
13		The carnivores should be provided meat with bone.	Immediately		complied	Complied
14		The zoo should provide a perimeter wall/ chain link	Immediately		Work in progress	Almost completed

		in view of the availability of land, water and electricity and climatic condition of the area.				
Animal Enclosures – Design, Dimensions and other Essential Features						
5	15	The animal enclosures in the Zoo should be so designed as to fully ensure the safety of the animals and caretakers.	Six months		complained	Not complied
6	16	The Zoo Operator should create/ modify/ improve animal housing (for the targeted species identified under the Master Plan). The animal enclosures in the Zoo should be so designed as to meet the biological requirements of the animals housed therein. The small poorly lighted, damp and dingy enclosures provided to Lions and Bears should be reconstructed and it must be ensured that the animals get space for their free movement and exercise. The enclosures and feeding/ retiring cubicles for Leopards, Lions and Bears housed at the Zoo should not be smaller than the dimensions prescribed in <u>Appendix I & II</u> of the Recognition of Zoo Rules, 1992.	Six months		Complained as per CZA guidelines	Not complied
7	17	The Zoo Operator should provide every enclosure with planting appropriate species of trees for providing shade and shelter, dead wooden logs, branches as an environmental enrichment and the same should be	Three months		Work in progress	Partially complied

Sr. No	Norm No.	Condition Stipulated	Time Period to Comply	Since when pending	Remarks	
					Status with regard to compliance of the conditions as submitted by the Officer-in-charge of the Zoo	Status with regard to compliance as noted physically by the evaluator during the visit
		finalized as per the species requirement.				
8	18	Every Lion, Leopard and the Bears housed in the Zoo should be provided food inside a feeding cell/ retiring cubicle or feeding kraal. The number and size of cells and kraal will be such that the dominant animals do not deprive other animals from getting adequate food. The Lions and Bears should be provided individual feeding cells or night shelters of dimensions as prescribed in <u>Appendix I</u> of the Recognition of Zoo Rules, 1992.	With immediate effect		complained	Not complied
	20	The designing of animal enclosures for any endangered species to be housed at the Zoo should have got prior approval of the Central Zoo Authority before its construction.	With immediate effect		Already submitted to CZA for approval	As stated
Animal Care, Health and Treatment						
9	26	The animal shall be handled only by the staff having appropriate experience and training in handling the animals. Every care shall be taken to avoid discomfort/ behavioral stress or physical harm to any animal.	With immediate effect		complained	As stated
10	29	The Zoo Operator should arrangement medical checkups of staff handling animals for screening against zoonotic diseases every six months.	With immediate effect		complained	As stated. However , records not produced.
11	30	The Zoo shall maintain animal history sheets and	With immediate effect		Has been maintained	Not complied

Sr. No	Norm No.	Condition Stipulated	Time Period to Comply	Since when pending	Remarks	
					Status with regard to compliance of the conditions as submitted by the Officer-in-charge of the Zoo	Status with regard to compliance as noted physically by the evaluator during the visit
		treatment cards in respect of each rescued animal.				
Veterinary facilities						
12	33	The Zoo Operator should have a full flashed veterinary unit/ treatment room in the premises of the Zoo for the routine examination of the animals as well as the Zoo should also have provision of isolation and quarantine wards to take care of newly arriving and sick animals as to minimize the changes of infections spreading to other animals housed at the Zoo.	With immediate effect		Veterinary hospital proposal has been made and budget for this has been 30 lacs allocated for the current year	Not complied
13	34	Any animal that dies in the Zoo shall be subjected to a detailed post-mortem operation by a veterinarian registered with the State Veterinary Council or Veterinary Council of India and findings of the such operation shall be recorded and maintained for a period of atleast six year.	With immediate effect		Done in routine complained	Yes
Maintenance of Records and Submission of inventory to the Central Zoo Authority						
14	42	The records of birth, acquisition, disposals and deaths of the animals should be maintained. The inventory of the animals in the zoo as on 31 st March of every year shall be submitted to the Central Zoo Authority by 30 th April of the same year.	With immediate effect		Maintained in the stud book as well in livestock return every month.	Complied
15	43	A brief summary of the death of animals in the zoo for every financial year, along with the reasons of death identified on the	With immediate effect		Routine PM being sent and record kept	Yes, as stated

Sr. No	Norm No.	Condition Stipulated	Time Period to Comply	Since when pending	Remarks	
					Status with regard to compliance of the conditions as submitted by the Officer-in-charge of the Zoo	Status with regard to compliance as noted physically by the evaluator during the visit
		basis of the postmortem report and diagnostic tests should be submitted to the Central Zoo Authority.				
16	44	The Zoo Operator should submit an Annual Report for activities of the Zoo in respect of each financial year to the Central Zoo Authority.	With immediate effect		complained	Needs to be verify as no records were produced
Education and Research						
17	47	The Zoo Operator should write the detailed observations about the biological behaviour and the veterinary care of the animals housed at the Zoo. The same may be shared with the other Zoos and Rescue Centres in the region.	With immediate effect		complained	Not complied
Development & Planning						
18	51	The Zoo should prepare a theme based long-term (for a minimum period of 10 years) master plan for its development including a management plan for next six years giving details of the proposals and activities of development during the period. The copies of the said plan shall be sent to the Central Zoo Authority. The guidelines circulated by the Central Zoo Authority with regard to preparation of Master Plan should be strictly followed.	Nine months		Master plan has been sent to CZA office for the approval	As stated

PART-III

Rule 10: Standards and Norms subject to which recognition under section 38H of the Act shall be considered,

Norm No.	Condition	Detailed status of implementation and enclosure specific recommendation	
		To be filled by the Zoo Director	Comments of the Evaluating Officers
I. General requirements			
I.1	Does the zoo make efforts to maintain population of physically, genetically and behaviourally healthy animals for furthering the cause of wildlife conservation and communicating credible conservation message to the visitors?	No	Animals seems physically healthy & behaviourally normal
	b) If not please specify cases where it is violated? * Only in cases where stud books are maintained	No	NA
	(c) If any introduction of new blood has been made after last evaluation to increase the genetic viability of animals.	No	No
I.2	Whether any endeavour has been made for proper landscaping and planting of appropriate species done to provide a naturalistic environment within the zoo?	Work will start immediately after the approval of the Master Plan	Plantation has been done around the main entrance and office block only. The designs are being prepared for new enclosure
	(b) If not indicate cases of deviation.		
I.3	(a) Whether the movement of visitors in the zoo has been regulated in such a manner that zoo animals are not unduly disturbed?	Yes	No
	(b) Is the zoo closed to visitors at least one day in a week?	Yes	Yes
	(c) Which day?	Monday	Monday
I.4	(a) Whether the zoo has appropriate barriers along the boundary of the zoo in accordance with the standards issued by the Central Zoo Authority, as a safeguard against the un-regulated access of visitors to the zoo and zoo animals and being subjected to injury, pilferage and predation?	Yes	Chain link fence and boundary wall
	(b) If not which stretch and its length?		2 mtr near garden
I.5	(a) Is the zoo surrounded by human landscape?	Yes	Yes
	(b) If yes, whether encompassed by a perimeter wall of at least two meter in height from the ground level on both sides?	Yes, wall work in progress	Yes & as above
I.6	(a) Is there residential colony constructed within the zoo premises?	Yes	Outside zoo
	(b) If yes, whether separated by wall from the zoo premises by a boundary wall with a minimum height of two meters from the ground level?	Boundary wall is there	NA
	(c) Is the entry to the residential colony through the zoo premises?	No	NA
I.7	(a) What are arrangements for managing solid and liquid waste and storm water?	Yes	Only done in carnivore section
	(b) Is it adequate?	Yes	No
	(c) What are the short comings?	No	Needs to be done in each enclosure
I.8	(a) Is the zoo displaying sick, injured, infirm and tethered animals to the visitors?	No	No such animal found displayed during evaluation

	(b) If yes, what are the species and each of their number?		NA																									
1.9	a) Is the zoo housing domestic animals within the zoo premises?	No	No																									
	b) Is there adequate safeguards in place to prevent the entry of domestic livestock, stray animals and pets into the zoo premises?	Yes	Yes																									
2. Administrative & Staffing Pattern																												
2.1	Does the zoo have an officer of appropriate rank as "whole time in-charge" of the zoo with powers to take decision and ensure that adequate financial resources and infrastructural support is made available to such officer for proper housing, upkeep and healthcare of the zoo animals and managing the zoo in a planned manner?	Yes	Range Officer but do not have adequate financial & administrative powers																									
2.2	Does the zoo have adequate scientific and technical staff to support the officer-in-charge of the zoo in carrying out the responsibilities of housing, upkeep and healthcare of zoo animals, research and visitor education as specified in the Table below, namely:	Veterinarian -1 Biologist - 1 Curator -1	No																									
	<table border="1"> <thead> <tr> <th>Sl.</th> <th>Category of staff</th> <th>Large zoo</th> <th>Medium zoo</th> <th>Small zoo</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Curator</td> <td>1</td> <td>1</td> <td>1</td> </tr> <tr> <td>2</td> <td>Veterinarian</td> <td>2</td> <td>1</td> <td>1</td> </tr> <tr> <td>3</td> <td>Education officer</td> <td>1</td> <td>1</td> <td></td> </tr> <tr> <td>4</td> <td>Biologist</td> <td>1</td> <td>1</td> <td>1</td> </tr> </tbody> </table>			Sl.	Category of staff	Large zoo	Medium zoo	Small zoo	1	Curator	1	1	1	2	Veterinarian	2	1	1	3	Education officer	1	1		4	Biologist	1	1	1
	Sl.			Category of staff	Large zoo	Medium zoo	Small zoo																					
	1			Curator	1	1	1																					
	2			Veterinarian	2	1	1																					
3	Education officer	1	1																									
4	Biologist	1	1	1																								
2.3	If the scientific and technical posts are filled by direct recruitment, does the recruitment rule for such posts provide for their career progression including the benefit of flexible complementing scheme for their promotions?	No	No Scientific position are there																									
2.4	In the event of emergency, what is the response time when the veterinarian is off the premises (i.e. distance between officer, residence and zoo)	Residence of veterinarian within Zoo	As stated																									
3. Development and planning																												
3.1	(a) Has the zoo prepared and got the master plan approved by the Central Zoo Authority?	Has been sent to CZA	No																									
	(b) If not, what is the stage?		Submitted to CZA for approval																									
3.2	(a) Has at least 30% of the area earmarked for the zoo been kept under green belt and natural vegetation and the area for animal housing does not exceed 30% area of the zoo?	Yes	Yes																									
	(b) If not, approx what percentage?		NA																									
3.3	(a) Have all 'pucca' buildings including the visitor facilities been planned and located in such a manner that the natural landscape of the zoo have not been masked and the cleanliness and hygiene of the zoo is not been affected due to such animal enclosures/structures?	Yes	No																									
	(b) If not what improvements are suggested?		Should be developed as per approved designs from the CZA																									
3.4	Has the zoo prepared a collection plan in consultation with the Central Zoo Authority, indicating the names of the species and maximum number of animals of each species to be housed in the zoo, having due regard to the congeniality of the climatic conditions of the locality for the general health and well being of the species, availability of space and infrastructural support for proper upkeep and healthcare of the species, proximity of the zoo to the habitat range of the species and the past record of the zoo in management and breeding of the species and the zoo is not compromising on housing and upkeep standards of animals for accommodating new species or additional animals of the species in its collection?	Yes Master plan has been submitted to CZA	Yes																									

3.5	(a) Has the zoo accepted any rescued animal for which it does not have appropriately designed enclosure and upkeep facilities as well as the facilities for keeping it in isolation during quarantine period?	No	No
	(b) If yes which species and from where received?		NA
	(c) The location of quarantine and isolation area?		NA
3.6	a) Has the zoo accepted any rescued animal for housing?	Yes	
	b) If so what is the species and number?	Leopard, Sambar &, barking deer	
	c) Has the details been reported to CWLW of the state including a detailed report regarding the source from which the animal has been received, legality of its acquisition and the facilities available at the zoo for housing, upkeep and healthcare?	yes	Documents not produced
	d) If the rescued animal pertains to an endangered species whether a copy of the report has been sent to the Central Zoo Authority?	yes	Need to verify
3.7	(a) Whether the Central Zoo Authority has advised to transfer any animal to a particular zoo for augmenting the number of founder animals for the conservation breeding program?	No	As stated
	(b) Whether the same has been complied with?		NA
	(c) If not, why?		NA
4. Animal Housing, display of animals & animal enclosures			
4.1	(a) Are the animals displayed in nature immersing (naturalistic) enclosures?	yes	Yes
	(b) How many such enclosures for which species exist?		-
4.2	(a) If the designs and dimensions of various enclosures have been decided having due regard to the biological behavior of the species and the number of animals to be housed		No
4.3	(a) Are the enclosures safe and secure for the animals, animal keepers and the visitors and has requisite space for free movement, exercise and expression of their natural behavior?	yes	No
	(b) If not, in which cases?		Proper animal houses needs to be constructed with
4.4	(a) Is adequate space available to the animals in order to maintain safe distance from the dominant animals in the group or herd?	yes	Yes
	(b) If not, in which cases?		NA
4.5	Which animals are kept in substandard enclosures as per CZA specification?	No	All accept birds
4.6	(a) Has efforts been made to enrich the environment of the enclosures to meet the species specific behavioural requirements of the animals in accordance with the standards specified by the Central Zoo Authority?	Yes	May improved further
	(b) Where are the deviations?		In each enclosure
4.7	(a) Has adequate screening been provided between adjacent enclosures to safeguard against the animals getting unduly excited or stressed due to visibility of animals housed in these enclosures?	yes	Natural vegetative screening is there
	(b) What are the deviations?		
4.8	(a) Has any new enclosure for endangered species constructed without prior approval of the Central Zoo Authority?	No	As stated
	(b) If yes, which ones and why?		NA
4.9	(a) Has the zoo provided appropriately designed and effective standoff barriers at every animal display enclosure to regulate the movement of visitors in the zoo in a manner that facilitates the visitors in getting unobstructed view of wild animals, without reaching in the vicinity or proximity of the animals and getting the opportunity to physically touch or provoke the animals and are there adequate sign boards so as to give warning to the visitors to keep a safe distance from the animals?	Yes	Not in all enclosures like sambar deer etc. Visitor circular path needs to be completed.
	(b) Where are the deviations?		As above

4.10	(a) Have appropriate signage been provided with relevant information on the biology, behavior and the population status of the species in the wild at every display enclosure?	yes	No
	(b) If any deviations, details thereof.		Should be displayed in each enclosure
	(c) In case of large and medium zoos whether interactive interpretation facilities have been provided for the purpose of explaining behaviour and biology of the species displayed in the enclosure?		Under construction
	(d) Details thereof.		As above
5. Upkeep and healthcare of animals			
5.1	Enclosures and animal facilities		
	(a) Whether the animals in its collection are maintained in socially and behaviorally viable groups?	yes	Yes
	(b) If any animal is separated from the group, the justification for the same and whether the animals, so separated, have been housed in accordance with standards specified by the Central Zoo Authority in this regard.	No	No
	(c) Whether the food containers and water bowls are cleaned and disinfected on daily basis?	yes	yes
	(d) Whether grills and floor of feeding cells, night shelters and chain link fence of outdoor enclosures are being disinfected on routine basis.	yes	found cleaned
	(e) Whether perches and shelves are cleaned regularly and kept free of faeces and urine?	yes	found cleaned
	(f) Whether dirt substrates in outdoor planted exhibits are raked and spot-cleaned periodically?	yes	yes
	(g) Whether the zoo has provision of secondary holding areas for safe movement of animals from primary enclosures for cleaning/ feeding/ medical procedures?	yes	No
	(h) Provision of footbath of adequate size with proper disinfectant at entry and exit points of animal house is provided or not?	yes	Not in all enclosure
	(i) Whether the indoor exhibits have separate ventilation system between exhibits and visitors area to reduce the potentials of disease transmission, in case of reptile and nocturnal animal houses?	yes	NA
(j) Whether the drainage system is covered properly and away from animal houses?	yes	Only in carnivore enclosure	
5.2	Nutrition and food hygiene		
	<i>General</i>		
	1. Are the animals ensured timely supply of:		
	(a) adequate quality feed as per species specific diet of such a composition and in such quantities that nutritional and physiological requirement of each animal is fully met and no animal remains under-nourished on account of dominant animals not permitting other animals getting their share of the feed?	yes	yes
	(b) Is round the clock supply of potable water to all the animals is ensured?	yes	yes
	2. Whether inventory of daily received and distribution record of food items is maintained?	yes	yes
	3. Whether the storage conditions of the food items are appropriate (free from moisture, moulds and pests)?	yes	Moisture is there might be due to rainy season
	4. Whether the food storage facilities and working platforms are cleaned and disinfected on regular basis?	yes	yes
5. Whether the regular inspection of food items is being done for its quality and freshness and transported hygienically to the respective enclosures?	yes	yes	
6. Whether random food and water samples are being tested periodically for microbiological, toxicological and any other contaminants at recognized laboratory	yes	yes	

	<i>Carnivore food and hygiene</i> 1. Whether the meat house is fly proof and pest free and located at a reasonable distance from the feed store and kitchen?	yes	Meat is procured on daily basis.
	2. Whether the zoo maintains strict hygienic conditions in the entire food stream, from the butchery to feeding platforms in order to prevent food contamination and overgrowth of potential pathogenic bacteria?	yes	Butchery is not there
	3. Whether the zoo has a sufficient size functioning freezer in the meat processing facility for storage of meat products and to keep cold until it is fed?	yes	yes
	4. Whether the meat handlers entering the facility change into a clean and disinfected boots and coveralls?	yes	No
	5. Whether the meat handlers use clean gloves when handling the meat?	yes	No
	6. Whether the meat preparation facility is thoroughly cleaned and disinfected on regular basis after the meat preparation is completed?	yes	yes
	7. Whether there is a covered drainage system to prevent wastes and water from the meat preparation facility from draining onto the ground surrounding the facility where foot traffic will carry pathogens around and where wildlife may become exposed to the waste?	yes	yes
	8. Whether the meat is fed on a clean and disinfected surface and at a time when the animal will consume it as quickly as possible?	yes	yes
	9. Whether the keepers use clean gloves, if they handle the meat prior to feeding?	yes	No
	<i>Food distribution</i> 1. (a) Is the timing of distribution of food, placement of food and way of distribution of food to the animals regulated in such a manner that the animals get maximum opportunity to express natural instincts and skills and behaviour related to feeding?	yes	yes
	<i>Removal of unused feed and excreta</i> Are the left over feed, excreta of animals and all other wastes are removed promptly from the feeding cells and kraals and the feeding cells and kraals are washed and disinfected as per the advice of the authorized veterinary officers and the solid and the liquid waste generated during the process are disposed off in such manner that has no adverse impact on the hygiene and cleanliness of the zoo and the landscape surrounding the zoo?	yes	The solid waste is removed manually on daily basis. However, there is no permanent arrangement for the liquid waste. The zoo should develop sewage plan as per the approved Master (Layout) Plan.
	(a) In which cases improvement is recommended?	No	In each enclosure
	(b) Are the dimensions and designs of the feeding cells and kraal as per the standards specified by the Central Zoo Authority?	yes	No
	(c) Cases of deviation, if any?	No	Feeding kraals are not there in most of enclosures.
5.3	Visual observation on daily activity pattern of animals and preventive healthcare 1. (a) Do the curatorial and the veterinary staff keep a close watch on the general behavior and health parameters of the zoo animals?	yes	No
	(b) Are the animals handled only by the staff having experience and training in handling the individual animals?	yes	Yes
	(c) Whether periodical health monitoring of animals have been carried out regularly?	yes	Yes
	2. If any animal shows any sign of dullness, loss of appetite, injury or abnormal behaviour: is the animal thoroughly assessed and provided medical attention promptly as per the standards specified by the Central Zoo Authority in this regard from time to time and the direction of the zoo administration?	yes	Yes

3. Is every zoo animal screened for parasitic loads as per written schedule prepared by the zoo in consultation with the veterinary officer and prophylactic medicines administered as per clinical requirements and vaccination of animals against infectious diseases are also done, as per the schedule prescribed by the Veterinary Officer from time to time?	yes	Yes
4. Whether the zoo have written schedule of vaccination and de-worming of different species of the zoo animals and displayed at the enclosure site?	yes	Documents not produced
5. Does the zoo maintains detailed records of observations of biological and social behaviour and health status of the animals including feed intake, medication and treatment provided in the keeper's diary, daily reports, animal history cards and treatment cards, as per standards specified by the Central Zoo Authority?	yes	No
6. Are all staff involved with upkeep and healthcare of zoo animals screened against zoonotic diseases once every year and those found positive to any communicable disease are provided appropriate treatment till they get cured and become free of the infection and during the period of such treatment, the infected employees are kept away from the responsibility of upkeep and healthcare of the animals?	yes	Verbally informed yes. However, documents not produced.
7. Whether the zoo has clause of employing a zoo keeper temporarily ailing for usefully utilizing them elsewhere in the zoo in the intervening period.	no	As stated
8. Every zoo should have formal linkages through a MoU on healthcare, preventive, health management, surgical interventions, clinical tests, disease diagnosis and consultation in treatment and management during the period of convalescence.	This is done with the IVRI Reginal Station Palampur	No
(a) Whether the zoo has any such MoU with the nearest veterinary institution?	No	No
(b) Whether the MoU contains names and contact details of person/ persons to be contacted to assist zoo management in all aspects in health management for zoo animals?	No	No

6. Veterinary and Infrastructure Facilities

6.1	Zoo hospital	Budget has been allocated for construction of zoo hospital	As stated
	(a) Are veterinary facilities appropriate to the size and type of the animal collection of the zoo including isolation ward and quarantine facilities located away from the hospital and other animal collections?		
	(b) Does the zoo have a full fledged veterinary unit with all basic diagnostic facilities, pharmacy, diagnostic and treatment room, comprehensive range of drugs, operation theatre and in-patient wards?	No	No
	(c) Are there suitable and appropriately designed holding facilities for animals requiring extensive medical care?	No	No
	(d) Whether the veterinary facilities have a separate area / room for equipment cleaning and sterilization?	No	No
	(e) Whether the zoo has basic hospital and monitoring equipment:		
	✓ refrigerator (50C)	yes	yes
	✓ stethoscope	yes	yes
	✓ freezer (-170C)	yes	yes
	✓ scales for weighing animals	yes	yes
	✓ transponders for animal ID and transponder reader	No	No
	✓ ultra-low freezer (-700C) for serum banking and diagnostic samples	No	No
	✓ ophthalmoscope	No	No
	✓ otoscope,	No	No
	✓ thermometer	yes	yes
✓ capture equipment (i.e. darts and dart projectors)	Yes	Yes	
✓ laryngoscope and blades	No	No	

✓ endotracheal tubes	No	No
✓ oxygen support (regulators and demand valves)	No	No
✓ inhalation anesthesia machine that can support a tiger-sized animal	No	No
✓ isoflurane vaporizer	No	No
✓ anesthesia monitoring equipment (single or multiparameter)	No	No
✓ pulse oximeter	Yes	Yes
✓ ECG (blood pressure monitor included)	No	No
✓ basic surgery instruments	Yes	Yes
✓ surgical light	Yes	Yes
✓ autoclave	Yes	Yes
✓ basic dental instruments	No	No
(f) Whether the zoo has basic diagnostic support to enable and make rapid assessments of physiologic status of sick and injured animals:	No. This is being done through IVRI Regional Station Palampur just 13 Km away from the zoo	As stated
✓ Hematocrit and hematocrit centrifuge for Packet Cell Volume		No
✓ Hand-held refractometer for Total Serum Solids		No
✓ Hemacytometer and associated items for Manual RBC and WBC counts		No
✓ Standard laboratory centrifuge, microscope and glassware for Fecal Parasite Examination		No
✓ Standard laboratory centrifuge and glassware for Serum / Plasma separation		No
g) Whether the zoo has arrangements of reference laboratory support and rapid transportation of diagnostic samples to nearest veterinary institution equipped with following facilities: <ul style="list-style-type: none"> ✓ Automated blood cell counting ✓ Clinical chemistry ✓ Bacterial culture and antibiotic susceptibility ✓ Viral isolation and identification ✓ Antibody/ antigen serology ✓ Pathogen identification through ELISA or PCR ✓ Toxic agent analysis ✓ Parasite identification 	Through IVRI Regional Station Palampur just 13 Km away from the zoo	As stated
(h) Has the zoo acquired sophisticated and costly diagnostic equipments for which there are no technically qualified manpower to operate and use the same?	No	No
(i) Whether the veterinarian and technician have requisite training for equipment use and data analysis?	No	No
(j) Are there proper storage facilities for various medicaments and chemical immobilization drugs?	No	No
(k) If a mini zoo, does it have at least facilities of a treatment room?	Yes	Yes
6.2 Animal restraint	yes	Yes
(1) Whether the zoo has appropriate animal restraint equipment, accessories and drugs?		
(2) Whether the animal restraint equipment are being kept and maintained as per standard protocol ?	yes	Yes
(3) Whether the veterinarian and technician have requisite training in equipment use and animal restraint techniques including handling of drugs and management of human emergencies?	Yes	Yes

	(4) Is it the restraint of an animal requiring chemical immobilization done exercising utmost care and following the standards specified in this regard by the Central Zoo Authority from time to time?	yes	As stated															
	(5) Whether the veterinarian has requisite training in Animal immobilization with specific reference to wildlife?	yes	May be provided															
	(6) Is there a dedicated refrigerator for storage of chemical restraint drugs?	yes	Yes															
6.3	<p>Veterinary Support staff</p> <p>Does the zoo have the zoo veterinary support staff as specified in the</p> <table border="1"> <thead> <tr> <th>S. 1	Lab Assistant (Technician)	1	1															
2	Stockman / compounder	2	1	1														
6.4	<p>Wildlife veterinary medical education and training</p> <p>1. Does the zoo have linkages with the eminent institutions and organizations working in the field of wild animal healthcare with the objectives to provide for :</p> <p>a) Assistance in scientific diagnosis of diseases of serious nature and advice on the effective remedial treatment.</p> <p>b) Training and upgrading technical skills of animal health staff.</p> <p>c) Development of protocols for preventive medicines and vaccination</p> <p>2. Whether the veterinary officer has requisite training/education in wildlife medicine/health ?</p> <p>3. Whether the zoo has any training programme/residency for skill development for the zoo veterinary medical officer in wildlife medicine in a large foreign zoo ?</p>	IVRI Regional Station Palampur just 13 Km away from the zoo																
		Yes	Should be provided															
		No	No															
7. Post-mortem and disposal of carcasses of animals																		
7.1	<p>Post mortem facilities</p> <p>1. Does the zoo; unless it is mini zoo have a modern post mortem room, equipped with sufficient light and post mortem equipment?</p> <p>2. Whether the zoo veterinarian has specialized knowledge and skills in wildlife pathology?</p> <p>3. Is there availability of pathology support from nearest veterinary institution to provide specialized capabilities and consultation particularly for post mortem of an endangered species requiring definitive diagnosis and collection of samples in a scientific way and as per protocols required by reference laboratories / veterinary institute?</p> <p>4. Does every animal dying in the zoo is being subjected to a detailed post mortem examination by registered veterinarian to determine conclusively the cause of the death?</p>	Yes	Yes															
		Yes	Yes															
		Yes, done through IVRI Regional Station Palampur just 13 Km away from the zoo	Yes, Veterinary university Palampur															
		Yes	Yes															
7.2	Are the findings of the post-mortem examination referred to in subparagraph (1) recorded in such format as have been prescribed by Central Zoo Authority in this regard and is it maintained for a period of not less than six years?	Yes	As stated															
7.3	1. In the event of the post mortem being inconclusive and no specific reason for death is identified, do the zoo authorities send the samples of the tissues and organs, blood, viscera etc. for further examination to the qualified diagnostic laboratory having adequate specialization for further investigation and identifying the cause of death?	Yes	Verbally informed that samples are being sent to IVRI, No documents produced															
	2. Whether the post mortem report is corroborated with other diagnostic findings in consultation with specialized reference laboratories / veterinary institutions?	Yes	No documents produced															

7.4	Does the zoo ensure that the carcasses of the animals, after the post-mortem has been conducted, is disposed off by burying or burning in a manner that does not have any adverse impact on the hygiene and cleanliness of the zoo ?	Yes	Yes by burning
	a) Are the carcasses of large cats disposed off by burning in the presence of Director of the zoo or any officer in the next rank to him and authorized by him in this behalf?	Yes	Verbally informed yes
	b) Are the carcasses of animals which died due to Anthrax or such other communicable diseases not opened and subjected to post-mortem, as a safeguard against spread of the disease and they are buried intact?	Yes	No such case reported so far
8. Euthanasia			
8.1	No animal in the zoo shall be euthanized unless doing so is essential for relieving from suffering from incurable disease /condition as per the norms of CZA.	Yes	As stated
9. Acquisition and breeding of animals			
9.1	Are animals of various species kept and maintained in social viable groups and with such a sex ratio that optimizes breeding and helps in developing a self-sustaining population of each species?	yes	No
9.2	(a) Has the zoo acquired animals based on scientific assessment of its lineage and genetic relatedness to Safeguard against ill effects of inbreeding on the zoo population, through exchange, loaning and getting gifts of animals from other zoos?	No	No
	(b) If there is any deviation, details thereof.		
9.3	(a) Has the zoo acquired single animals or genetically non-viable number of animals unless such acquisition is necessary for pairing of single animals or making the group genetically/ biologically viable?	No	No
	(b) Please indicate such cases.		
9.4	(a) Has the zoo tried to acquire mates for single and unpaired animals on priority basis and in the event of any zoo failing to find a mate for single and unpaired animal within a period of six months, the unpaired or single animal have been transferred or exchanged or given on breeding loan to any other zoo in accordance with the norms specified by the Central Zoo Authority in this regard?	No	As stated
	(b) Please indicate unpaired species, its sex and for the period it has been kept unpaired.	No	Should be paired
9.5	Has the zoo transported animals from one place to another and if so CZA transportation protocols were followed? For the purpose of transportation of animals from one place to another, are the standards specified in this regard by the CZA complied with.	No	As stated
9.6	a. Has the Central Zoo Authority assigned any endangered species for Conservation Breeding Programme to the zoo, if so please indicate?	No	No
	b. If a scientific conservation breeding plan species recovery plans for the species have been prepared or not? If the plan is being followed by the zoo?	no	NA
	c. Is the Conservation Breeding Facility situated in off display area of the zoo?	no	NA
	d. Has the founder population of the species bred in zoo, indicate numbers bred in the zoo?	no	
	e. Have the animals been conditioned for reintroduction in the wild?	no	NA
	f. Has there been sufficient technical inputs from the species experts? Please elaborate the responsibility of conservation breeding of the identified critically endangered species to identified zoos having technical capabilities and housing facilities, preferably close to the distribution range of the species and every zoo shall help the identified zoos in implementing the breeding programme. Please indicate specific cases for	no	NA

	the zoo.		
9.7	Has the zoo spared surplus animals from the breeding population to the participating zoos for display purposes on the basis of quality of housing and infrastructural facilities available with the concerned zoos?	no	NA
9.8	With a view to prevent inbreeding and the loss of heterozygosity is the zoo maintaining the animal history cards & stud and herd book for the animals of endangered species housed in the zoo and putting appropriate identification marks for transfer or exchange animals with other zoos?	Yes	No
9.9	a. Is the zoo limiting the number of animals of each species within the limits set by the animal collection plan of the zoo by implementing appropriate population control measures like segregation of sexes, vasectomy, tubectomy and implantation of pellets etc., with due consideration of the health and welfare of the animals and interest of their long term survival? Please indicate species wise numbers over the last three years.		No
	b. What methods of population control was employed and comparative success?	Sterilization	As stated, however, records were not produced
9.10	Has the zoo implemented disaster management plan, training and mock drills to prevent accidents in zoo in accordance with master plan?	Yes	Master plan not approved yet
	Indicate action taken for safeguard against any accident/ escape of the zoo animals from the premises of the zoo and in the event of any accidental escape, immediate action was taken to retrieve the escaped animals?	Yes	Verbally informed no such case happened
9.11	Has the zoo released any surplus captive animal into the wild except in accordance with the norms specified by the Central Zoo Authority in this regard? Annex details?	No	No
9.12	Is the hybridization of species or races of same species taking place in the zoo? Which species?	No	No
10. Research Activities			
10.1	a. Has the zoo implemented a research plan as indicated in the Master Plan and conducted research on the prioritized species and specific areas of concern?	No	No
	b. Has the zoo accessed grants form CZA or other institutions/agencies for the Research Project. Indicate details and outcomes?	No	No
	c. Is the zoo carrying out collaborative research for evolving innovative strategies for providing the animals housed in the zoo a better quality of life, enhanced longevity, higher genetic and behavioural viability and improved reproduction potential and to achieve the said goal.(Every zoo, other than mini zoos, shall make arrangements for meticulous recording of data on the social behaviour, group dynamics and reproductive biology of the species housed in the zoo and developing a data base to be shared with other zoos and the identified institutions, in accordance with norms specified by the Central Zoo Authority in this regard)	No	No
	d. Research paper/ technical reports published. Details of its implementation.	No	No
11. Education and Outreach Activities			
11.1	a. Has the zoo made efforts to educate the visitors to the zoo and the people at large about the significance of wildlife conservation for the general well-being of the people and keeping the life support system of nature intact and to make people aware about the role played by the zoos in this regard and the ways and means through which general public can participate and contribute for the same?	Yes	As stated
	b. Whether the zoo has appropriate signages and interpretation facilities, Souvenir Shop, Library Facility accessible, dedicated Website and carrying out the Outreach and awareness, Guided Tour, celebrations of	Yes	Signages is there, Interpretation facility and souvenir shop is

	various events.		under construction
11.2	Is physical handling or performances by animals permitted as part of educational activity?	No	As stated
12. Visitor Facilities			
12.1	Is the zoo providing adequate civic facilities for visitors at appropriate and convenient places in the zoo including physically disadvantaged persons and such facilities are so located that they do not mask or impact the view of enclosures?		
	a. Drinking Water	Yes	Yes
	b. Urinals	Yes	Yes
	c. Ramps	No	No
	d. Wheel chairs	No	No
	e. Battery Operated vehicles	No	No
	f. Lawns	Yes	Yes
	g. Visitor shed	Yes	Yes
	h. Kiosks	No	No
	i. rain shelters	Yes	Yes
	j. cloak rooms for the visitors	No	No
	k. zoo visitor guides	Yes	Yes
	l. Public Announcement systems, fire alarm during emergency.	No	No
12.2	Does the zoo have first aid facilities including snake anti-venom and life saving drugs, readily available in the zoo premises?	Yes, for anti snake venom there is community health centre at just 100 meters from the zoo.	Zoo should procure snake anti-venom also.
12.3	Is the zoo making arrangements for providing access to the physically challenged persons for viewing wild animals at various animal enclosures?	No	Partially providing, needs improvements there is need of developing smooth circular roads and ramp at every enclosure

PART-IV
RECOMMENDATION
(On the basis of observations of the status as per Recognition of Zoo Rules, 2009)

Sr. No	Norm No.	Particulars of suggestions/recommendation	Time Period to Comply
1. General requirements			
1	10.1 (1)	The zoo is located on hilly terrain and have steep slope, so needs proper landscaping for the enclosures.	One year
2	10.1 (7)	Arrangement for proper disposal of liquid waste shall be done.	Immediately
2. Administrative and Staffing Pattern			
3	10.2 (1)	The Range Officer, In-Charge of the Zoo should be delegated adequate financial and administrative powers for taking immediate decisions concerning health and welfare of the zoo animals.	Immediately
4	10.2 (2)	The zoo shall also deploy technical staff for smooth functioning.	Immediately
3. Development and Planning			
5	10.3 (5)	The zoo should develop/modify the enclosures, animal houses and visitor facilities in such a way that the natural landscape of the zoo have not been masked and the cleanliness and hygiene of the zoo is not been affected.	After approval of the enclosure designs from the CZA as per approved master (layout) plan, at the earliest.
6	10.3 (8)	The zoo shall submit detail report regarding the source, upkeep and healthcare of the rescued animals like Leopard, Sambar and Barking deer to the Central Zoo Authority.	Immediately
4. Animal housing, display of animals and animal enclosures			
7	10.4 (1, 2 & 3 & 5)	The enclosures of all the animals need to be developed or revamped as per approved Master (Layout) Plan. The designs as per CZA prescribed norms shall be submitted for approval accordingly.	At the earliest.
8	10.4 (6)	The zoo shall enrich enclosures as per behaviour requirements of the animal species housed.	Immediately
9	10.4 (9)	The live hedge shall be maintained in between enclosure and stand-off barrier.	Two months
10	10.4 (10)	The bilingual signages (hindi & english) with adequate biological information shall be displayed appropriately at each enclosure.	Three month
5. Upkeep and healthcare of animals			
11	10.5 (4)	The provision of feeding cells and kraal as per the dimensions, designs and the standards specified by the CZA should be made available.	Three month
12	10.5 (5)	The staff handling preparation and distribution of food should wear boots and gloves to maintain hygiene.	Immediately
13	10.5 (5)	A schedule should be developed for disinfection of the enclosures and shall be followed in the zoo.	Immediately
14	10.5 (9)	All the staff handling animals shall be screened against zoonotic diseases at least once in a year and records should be maintained.	Immediately
15	10.5 (10)	The zoo should prepare and maintain keeper's diary, daily reports, animal history cards and treatment cards, as per standards specified by the Central Zoo Authority.	Immediately
6. Veterinary and Infrastructure Facilities			
16	10.6 (5)	A veterinary support staff Stockman / compounder shall be deployed,	Immediately
7. Post-mortem and disposal of carcasses of animals			
17	10.7 (4)	The carcasses of large cats disposed off by burning in the presence of Director of the zoo or any officer in the next rank to him and authorized by him in this behalf.	As and when required
9. Acquisition and breeding of animals			
18	10.9 (2)	To safeguard against ill effect of inbreeding the zoo shall take animal exchange programme for infusion of new blood line.	Immediately

19	10.9 (10)	The disaster management plan shall be implemented as per the approved Master Plan in future.	Immediately
10. Research Activities			
20	10.10 (1)	The zoo should encourage local institution/university students to undertake need based research activities.	One year
11. Education and Outreach Activities			
21	10.11 (1)	The zoo should carryout various educational activities for the awareness of the public.	Immediately
12. Visitor Facilities			
22	10.12 (2)	Zoo should procure and maintain snake anti-venom.	Immediately
23	10.12 (3)	A smooth circular road should be developed for visitors. Ramp should be constructed at every enclosure for facilitation of Physically persons for viewing wild animals easily.	Six Month

Sub:- Renewal of recognition to Dhauladhar Nature Park, Gopalpur beyond the period of 31.10.2013 under Section 38H of the Wild Life (Protection) Act, 1972 - Regarding.

Sir,

Reference is invited to your letter No. 3285 dated 25.10.2013 seeking renewal of recognition for the Dhauladhar Nature Park, Gopalpur beyond the period of 31.10.2013 under Section 38H of the Wild Life (Protection) Act, 1972.

The evaluation of the Dhauladhar Nature Park, Gopalpur was carried out by Dr. A. K. Malhotra on 10.06.2014. The evaluation report of the Dhauladhar Nature Park, Gopalpur as submitted by the evaluating officers was considered by the Technical Committee in its 70th Meeting held on 1st July, 2014

The Central Zoo Authority has decided to grant of recognition to Dhauladhar Nature Park, Gopalpur as "a Small Category Zoo" under Section 38H of the Wild Life (Protection) Act, for a period up to 31st July, 2017 subject to the compliance of the following directives under the Recognition of Zoo (Amendment) Rules, 2013 and mid-term evaluation of the zoo:-

S. No.	Norm No.	Condition Stipulated	Time Period to Comply
1. General requirement			
1.	1.3	Directional signages should be provided at each crossing for smooth movement of visitors.	Within three months
2.	1.4	The rear end of the park should be provided with strong chain link fence to check entry of unregulated visitors.	Immediately
3.	1.5	Boundary wall of the height of 2 mtr on the rear side must be constructed.	Within six months

4.	1.7	Arrangement for proper disposal of liquid waste particularly in carnivores should be provided.	Within one year	
3. Development and Planning				
5.	3.4	The animal collection plan should be prepared as per CZA format.	Within months	two
4. Animal housing, display of animals and animal enclosures				
6.	4.1	a) The area and naturalness should be increased in Porcupine, Kite, Himalayan Vulture and Pheasants.	Within months.	three
		b) The kite and Himalayan vulture should be kept separately.	Within months	six
7.	4.5 & 4.6	1. The exhibits of Pheasants, Kite, Himalayan vulture, Porcupine, Grey parrot should be revamped as to meet CZA norms.	Within year.	one
		2. The floor of Pheasants, Pea cock and grey parrot should be made Kaccha.	Within months	six
8.	4.7	Screening space should be provided between Leopard and Leopard enclosures, Goral and Barking deer.	Within year	one
9.	4.9	Stand of barriers with hedge should be provided in all enclosures.	Within year	one
10.	4.10	Directional and warning signages should be provided at all relevant places	Within months	three
5. Upkeep and Healthcare of animals				
11.	5.1(g)	Foot bath should be provided at the entrance of each night house.	Within months.	three
12.	5.2(6)	The food and water samples should be got tested randomly.	Within month	one
13.	5.3 (4)	A written schedule for vaccination should be prepared and kept near enclosures.	Within month	one
14.	5.3 (5)	The operator should prepare and use keeper dairy, daily report, animals treatment card, animal history herd/card and stud book.	Immediately	
15.	5.3 (6)	The staff involved in the healthcare of animals should be screened against zoonotic diseases once every year.	Within month	one
6. Veterinary and infrastructure facilities				
16.	6.1 (k)	General cleaning and maintenance of treatment room should be improved.	Immediately	
7. Post-mortem and disposal of carcasses of animals				
17.	7.2	Post mortem findings should be recorded in CZA format.	Immediate	

9. Acquisition and breeding of animals

18.	9.1 & 9.4	Mates for the following species should be acquire: - a) Himalayan tahr (M) b) Leopard Cat (Un sexed) c) Himalayan vulture (Un sexed) d) African grey parrot (un sexed) e) Porcupine (2M)	Within Nine months
12. Visitors facilities			
19.	12.1	a) Directional signages should be provided at every crossing. b) Roads, paths and lawns should be made smooth and presentable.	Within one month. Within six months.
20.	12.2	First-aid kit and anti snake venom should be kept.	Within three months
21.	12.3	Ramp should be made for handicapped visitors	Within six months.

A half yearly report regarding progress made in implementation of the aforesaid conditions should be submitted to the Central Zoo Authority.

Grant of recognition to Dhauladhar Nature Park, Gopalpur beyond 31st July, 2017 as "a Small Category Zoo" would be considered on the basis of compliance of the conditions stated above and general performance of the zoo.

The recognition to the Dhauladhar Nature Park, Gopalpur shall be revoked by the Central Zoo Authority, at any point of time if the Zoo Operator is found not complying with the stipulated conditions.

Yours faithfully,

Dharmshala - 176 215 (Himachal Pradesh)

Sub:- Grant of renewal of recognition to Dhauladhar Nature Park at Gopalpur under Section 38H of the Wild Life (Protection) Act, 1972 - Regarding.

Sir,

Please refer to your letter No. D-III-34/3379 dated 16.11.2007 seeking grant of renewal of recognition to Dhauladhar Nature Park at Gopalpur under Section 38H of the Wild Life (Protection) Act, 1972.

The evaluation of the Zoo was carried out on 28.11.2007 and the evaluation report of the Dhauladhar Nature Park at Gopalpur as submitted by Dr. Kuldip Kumar was considered by the Technical Committee in its 47th Meeting held on 18.2.2008.

The Central Zoo Authority has decided to grant of recognition to Dhauladhar Nature Park at Gopalpur as a mini category Zoo under Section 38H of the Wild Life (Protection) Act, for a period up to 31.03.2010 subject to the compliance of the following directives under the Recognition of Zoo Rules, 1992:-

S. No.	Relevant Norm No.	Conditions	Time Period
General			
1.	2	The Zoo shall not acquire any animal without the permission of the Chief Wildlife Warden under Section 11 (1)(a) and the Central Zoo Authority under Section 38I of the Act.	With immediate effect
2.	6	The blind male Goral exhibited at the Zoo should be removed immediately from the enclosure and same should be housed at appropriately designed off exhibit enclosure.	With immediate effect

De
20/03/08
108

3.	8	The Zoo should be encompassed by a perimeter wall/ chain link fence/ hot wire barrier with 2 meter high from the ground level provided to prevent the entry of feral dogs in the premises of the Zoo.	Six months
4.	11A	The Zoo shall prepare a collection plan of the animals to be housed and display in the Zoo keeping in view of the availability of land, water and electricity and climatic condition of the area.	Three months
Animal Enclosures – Design, Dimensions and other Essential Features			
5.	15	The animal enclosures in the Zoo should be so designed as to fully ensure the safety of the animals and caretakers.	Six months
6.	16	The Zoo Operator should create/ modify/ improve animal housing (for the targeted species identified under the Master Plan). The animal enclosures in the Zoo should be so designed as to meet the biological requirements of the animals housed therein. The small poorly lighted, damp and dingy enclosures provided to Lions and Bears should be reconstructed and it must be ensured that the animals get space for their free movement and exercise. The enclosures and feeding/ retiring cubicles for Leopards, Lions and Bears housed at the Zoo should not be smaller than the dimensions prescribed in <u>Appendix I & II</u> of the Recognition of Zoo Rules, 1992.	Six months
7.	17	The Zoo Operator should provide every enclosure with planting appropriate species of trees for providing shade and shelter, dead wooden logs, branches as an environmental enrichment and the same should be finalized as per the species requirement.	Three months
8.	18	Every Lion, Leopard and the Bears housed in the Zoo should be provided food inside a feeding cell/ retiring cubicle or feeding kraal. The number and size of cells and kraal will be such that the dominant animals do not deprive other animals from getting adequate food. The Lions and Bears should be provided individual feeding cells or night shelters of dimensions as prescribed in <u>Appendix I</u> of the Recognition of Zoo Rules, 1992.	With immediate effect

9.	20	The designing of animal enclosures for any endangered species to be housed at the Zoo should have got prior approval of the Central Zoo Authority before its construction.	With immediate effect
Animal Care, Health and Treatment			
10.	26	The animal shall be handled only by the staff having appropriate experience and training in handling the animals. Every care shall be taken to avoid discomfort/ behavioral stress or physical harm to any animal.	With immediate effect
11.	29	The Zoo Operator should arrangement medical checkups of staff handling animals for screening against zoonotic diseases every six months.	With immediate effect
12.	30	The Zoo shall maintain animal history sheets and treatment cards in respect of each rescued animal.	With immediate effect
Veterinary facilities			
13.	33	The Zoo Operator should have a full flashed veterinary unit/ treatment room in the premises of the Zoo for the routine examination of the animals as well as the Zoo should also have provision of isolation and quarantine wards to take care of newly arriving and sick animals as to minimize the changes of infections spreading to other animals housed at the Zoo.	With immediate effect
14.	34	Any animal that dies in the Zoo shall be subjected to a detailed post-mortem operation by a veterinarian registered with the State Veterinary Council or Veterinary Council of India and findings of the such operation shall be recorded and maintained for a period of atleast six year.	With immediate effect
Maintenance of Records and Submission of inventory to the Central Zoo Authority			
15.	42	The records of birth, acquisition, disposals and deaths of the animals should be maintained. The inventory of the animals in the zoo as on 31 st March of every year shall be submitted to the Central Zoo Authority by 30 th April of the same year.	With immediate effect
16.	43	A brief summary of the death of animals in the zoo for every financial year, along with the reasons of death identified on the basis of the postmortem report and diagnostic tests should be submitted to the Central Zoo Authority.	With immediate effect

17.	44	The Zoo Operator should submit an Annual Report for activities of the Zoo in respect of each financial year to the Central Zoo Authority.	With immediate effect
Education and Research			
18.	47	The Zoo Operator should write the detailed observations about the biological behaviour and the veterinary care of the animals housed at the Zoo. The same may be shared with the other Zoos and Rescue Centres in the region.	With immediate effect
Development & Planning			
19.	51	The Zoo should prepare a theme based long-term (for a minimum period of 10 years) master plan for its development including a management plan for next six years giving details of the proposals and activities of development during the period. The copies of the said plan shall be sent to the Central Zoo Authority. The guidelines circulated by the Central Zoo Authority with regard to preparation of Master Plan should be strictly followed.	Nine months

A half yearly report regarding progress made in implementation of the aforesaid conditions should be submitted to the Central Zoo Authority.

Grant of recognition to Dhauladhar Nature Park at Gopalpur beyond 31.03.2010 would be considered on the basis of compliance of the conditions stated above and general performance of the zoo.

The recognition to the Dhauladhar Nature Park at Gopalpur shall be revoked by the Central Zoo Authority, at any point of time if the Zoo Operator is found not complying with the stipulated conditions.

Yours faithfully,
sd/-
